In Consideration for Our Employees

We have definitely decided that we shall not keep open nights, during the Christmas rush, as is the custom of a great many business establishments, except on the evening before Christmas, when we shall remain open until 9 o'clock.

We are firm in the belief that when any employe works hard and faithfully from morning until evening, especially during the strenuous days preceding Christmas or New Years, that he or she has done full duty, and is entitled to the rest which should come with the evening hours.

In addition to this, our employees, like all other people, have made plans for Christmas, and need their evenings in order to put their plans into execution, and thus make Christmas time the happy, gladsome time it should be. To that end we ask our patrons to co-operate with us by doing their shopping between the hours of 8 A. M. and 6 P. M., and we feel sure that when they have thought over the matter as thoroughly as we have done, they will see it in the same light and will do all they can to help us in our endeavor to make Christmas time for our employees more cheerful and happy.

Announcing Klamath Falls "Own Your Own Home" Campaign

"The city that has adequate housing will have a tremendous industrial and commercial advantage over less well equipped rivals. The industrial nation that provides good housing for its working people will have the edge on competitor nations. England realizes this so clearly that the national government has committed itself to a house building campaign that involves a loss to the National Treasury of \$100,000,000 a year for sixty years."—Chamber of Commerce of the United States.

Klamath Falls is studying the housing problem and is starting to solve it. The following committee appointed by the Chamber of Commerce have given generously time of time and judgment. They say, "Own your own home in Klamath Falls, and we will help you pay for it." They have submitted a report to the Chamber of Commerce and it has been accepted.
