Hereafter The Herald will publish the mean and maximum temperatures and precipitation record as taken by the U. S. Reclamation service station. Publication will cover the day previous to the paper's issue, up to 5 o'clock of the day.

In the middle ages it was generally believed that at Christmas time all trees and plants became specially intelligent. Hence the many legends of trees opening their branches and screening the Holy Family in their flight into Egypt, when pursued by Herod's soldiers.

MASKED SO CROOKS CAN'T "SPOT" THEM

In most American big cities black face-masks are now part of a detective's regular equipment. Donning the masks, the detectives go through the prisons daily looking for known crooks and learning the faces of all the prisoners. The masks prevent the crooks from learning to "spot" the plainclothes officers. This picture was taken in Los Angeles, one of the latest cities to adopt the plan.

PLANES START LONG FLIGHT NEXT TUESDAY

SAN DIEGO, Cal., Dec. 22.—Twenty six big navy airplanes will roar their way from San Diego harbor, bound for Panama, 3000 miles away, early on December 28 in what veteran airmen say will be one of the longest and most hazardous peace time flights in the history of aviation, according to plans announced here recently.

About 50 flying hours are expected to be needed to reach the goal at Balboa, located in the canal zone. The machines are scheduled to arrive at Balboa January 13 and to start their return flight February 26.

Storms probably will be encountered by the airmen along the Mexican and Central American coast, as this is the stormy season on route. One dangerous place is the Gulf of Tehuantepec where high and dangerous winds blow almost continuously. Air service officials are taking every precaution to cope with any condition that may arise as a result of storms, high winds and fogs.

Fourteen seaplanes of the N. C. type, which made the navy's flight across the Atlantic ocean, will be in the Panama squadron. The other 12 will be of the coastal type of aircraft.

Captain Henry Mustin, commander of the Pacific air forces, will have charge of the squadron of seaplanes and Commander John H. Towers, who led the trans Atlantic airmen, will command the N. C. squadron.

Several naval vessels will follow the airplanes as patrols and tenders. They are the fuel steamers Kanawha and Cuyama, the aircraft tenders Aroostook and Mugford and the mine sweepers Gannett, Partridge and Kingfisher.

When storage batteries freeze, it means a new battery. Well tell you how to avoid such a catastrophe. Link River Battery Station. 18-31

CALIFORNIA NEWS

SACRAMENTO, Dec. 22.—Following preliminary hearings held in this city, 37 new cases involving food and soft drink dealers and manufacturers in charges of violating the pure food laws have been referred by the state board of health to the district attorneys of various counties for investigation and possible prosecution.

CORNING, Dec. 22.—Interest has been aroused here by the reported discovery of rock bearing a great similarity to shale in a well being bored on the ranch of F. G. and W. V. Beresford, about six miles southeast of Corning.

MARYSVILLE, Dec. 22.—Announcement that he would go to Sacramento early next week to arrange with the state legislative council to prepare a bill providing prison sentences for drug sellers was made by Assemblyman Edward Lewis of this city.

SACRAMENTO, Dec. 22.—Twelve mountain lions were killed in five counties during November on which \$300 was paid for mounts according to reports received at the office of State Controller John S. Chambers.

SACRAMENTO, Dec. 22.—After a two-hour grilling by detectives John Sigedi, arrested here by Detective Balsz and Patrolman Frank Becker for the Anderson postoffice safe blowing, confessed his guilt and told the police where \$200 worth of stamps were cached. Balsz went to 308 K street, a barroom, and in a safe deposit vault there found the stamps.

MARYSVILLE, Dec. 22.—Holding that a Hindu is ineligible to purchase land in California under the provisions of the anti-alien land act, Judge K. F. Mahon, in a decision handed down here, gave judgment in favor of Mrs. A. Pierce, defendant, in the suit brought to collect a commission for a land sale by J. A. Landis, real estate man.

OAKLAND, Dec. 22.—Internal revenue agents and Oakland police seized 80 gallons of liquor and confiscated an automobile, at the same time arresting Louis and Pete Salon of Temescal and Joe Nixon of Oakland, a barber.

SAN FRANCISCO, Dec. 22.—Petitions for the recall of Police Judge J. Sullivan and Morris Oppenheim accuse them of being part of a "corrupt" system which has "enabled malefactors and criminals of all kinds to evade the just legal consequences of their wrongdoing." Executive committee of the civic league of improvement clubs and associations began circulation of the petitions Monday.

SACRAMENTO, Dec. 22.—"Closed, tight as hell." This was Sheriff Ellis Jones, answer when asked whether or not gambling had been stopped at Locke, where it has flourished for months, apparently unhampered by either the sheriff or the district attorney.

MARYSVILLE, Dec. 22.—A plan to provide work for the unemployed and at the same time construct a system of highway badly needed in Yuba county, Ray Jones, chairman of the members' forum of the Yuba county chamber of commerce, proposed the formation of a "Humanitarian highway" system for the county at a banquet given in Foresters' hall.

WOODLAND, Dec. 22.—Only three inches below the low water mark, the waters of Clear Lake, Lake county have risen to an unexpected height.

The lake now stands three inches higher than it was at any time last season. In order that plenty of irrigation water can be available for Yolo farms, the lake must raise five feet. Experts do not believe that such a raise is likely."

RED BLUFF, Dec. 22.—The fight over the annexation of the Hooker school district in the Red Bluff Union high district consumed considerable time during the last session of the county supervisors, ending with the fact apparent that the district has been illegally annexed and the action will become void.

HOPEFUL OR NOT
In Klamath Falls a man has been found guilty of murder in the first degree for killing a man who boasted of intimacy with the killer's wife which she strenuously denied. This totally upsets the "unwritten law" idea and may be hopeful sign or not, as one views it.—Oregonian.

Gold is yellow only by reflected light. If a leaf of gold, as ordinarily used by gilders, be placed between two pieces of glass, and held up to the light, it will be seen to transmit green light.

AN UNUSUAL XMAS GIFT

When The Herald undertook the publication of The Honor Roll of Klamath County, we expected to complete the work in a few months. Unforeseen difficulties delayed the work for over a year. During this time some of the subscribers to the book moved away and we have been unable to get into touch with them. As a result we have a few copies of The Honor Roll left, and these we will sell for \$7.50 a copy. This book makes an unusual gift for Xmas. It will never be republished, the number of copies is limited and within a short time it will be priceless to those fortunate enough to possess a copy. If you had a friend in the war, or a relative, if you want to give him something that he will always prize, we can suggest nothing more appropriate than a copy of the Honor Roll. As there are but a few copies left, it would be advisable to immediately call or phone and have one reserved for you.

Buy your Xmas candies at the Blue Bird.

Healthy Automobiles

You cannot expect your car to be healthy all winter unless you give it proper protection.

Sick Cars Are Expensive

Exposure to weather causes trouble, deterioration and rapid depreciation. Wet wires cause short circuits—water on metal parts causes rust. The paint on the body will check and crack if moisture is allowed to collect and stand.

MACK PERFORMANCE COUNTS

Mack Trucks Are Asset to Owner

Their guaranteed price makes them as valuable a possession as ready money. Prospective buyers of motor trucks need have no fear for a "falling market" in reference to MACK trucks.

The average increase in the price of MACK trucks has been only 15 per cent in eight years. This is a longer period than most trucks have been in existence. Think of that and ponder.

MACK truck prices are as substantial as the trucks, and everybody knows there is no truck that compares to the MACK in ruggedness of construction. Can you name any truck besides the MACK that has a heat-treated, case-hardened crankshaft and camshaft?
