

Six Team League Proposed to Take In Klamath Falls

A compact baseball organization, to be known as the Southern Oregon State League, is proposed by M. R. Burns, manager of the Medford baseball club, the circuit to include Medford, Ashland, Grants Pass, Roseburg, Klamath Falls and Yreka.

Mr. Burns proposes to play two games a week, on Fridays and Saturdays, the season to run from April 15 to October 2. At the end of the playing season the winner of the pennant would play a series of seven games with the leading teams of the California state league.

From the publicity given the proposal the sentiment seems to be that the towns suggested represent the most baseball enthusiasm and most dependable populations in this the most baseball enthusiasm and district, and the outlook for organizing looks bright.

A meeting to discuss the proposition will be held in Medford on or about January 15. Mr. Burns, who lives at No. 6 South First street, in that city, suggests that anyone interested in the matter communicate with him at that address.

If reformers ever get to heaven, as no doubt some of them will, in the rush we have no doubt they will be terribly bored. Still they can find fault with the singing of the heavenly choir and may manage to worry along for a few eons.

"Do you attend Sundayschool regularly?" asked the minister. "Oh, yes, sir," replied Willie. "And you know the Bible?" "Oh, yes, sir." "Could you tell me something that's in it?" "I could tell you everything that's in it." "Indeed," and the minister smiled. "Do tell me then." "Sister's beau's photo is in it, and a lot of my hair cut off when I was a baby is in it, and the ticket for pa's watch is in it."

9,200 Foot Tunnel for Power Plant

QUINCY, Cal., Dec. 27.—Construction has been completed of a tunnel 9200 feet long through a mountain to connect Butte valley with the Caribou plant of the Great Western Power company here. Water will be sent through the bore to serve two power houses. At the point where the tunnel emerges from the mountain it is 1100 feet above the power house and the descent, it is believed, will afford enormous power. The construction is part of a big hydroelectric project being completed by the company.

UNIVERSITY OF OREGON. Eugene, Dec. 27.—The benefits of the modern X-ray are open to the students of the University of Oregon, as a result of the purchase by the school of medicine of an up-to-date machine for the use of the infirmary. The machine cost over \$700. Several pictures have already been taken with success, says Dr. E. H. Sawyer, university physician.

British Embassy Receives Tacit Rebuke From U. S.

(By Associated Press)
WASHINGTON, Dec. 27.—The state department has intervened in what threatened to be a controversy between the British embassy and the senate committee investigating the cable communications. The action was regarded as a rebuke to the embassy which sent a letter to the committee chairman, Kellogg, denying the testimony of president Carlton, of the Western Union company, that cable messages coming to the United States from Great Britain were censored by the British authorities. The committee regarded the embassy's action as a breach of diplomatic courtesy.
