

All to Get Rid of a Wrinkle!

NEW YORK, Dec. 23.—Here you see what a woman will go through to be beautiful. Dr. Julian Bourget, eminent French surgeon and facial specialist, is shown looking on while Dr. Leroy R. Stoddard, America's facial surgeon, is operating on a New York woman to remove a wrinkle from under her eye. Dr. Bourget, who has rebuilt the faces of many maimed French soldiers, is in America to perform similar operations.

Will Move State Offices at L. A.

LOS ANGELES, Dec. 27.—Plans are being completed by state officials to move offices of state departments from their present location at Second and Hill streets to a building almost completed at Sixth and Olive streets. The new building, while not owned by the state, will be called the state building.

Arthur Baker, deputy state purchasing agent, has arrived here to handle details of the change of location. He announced a branch of the state purchasing department would be opened here in February.

KRIVOSKY CONVICTED BY SAN FRANCISCO JURY
SAN FRANCISCO, Dec. 27.—Edward Krivosky, the second of the Howard street gang to be tried for alleged attacks on girls, was convicted by a jury here last night. Edmond (Spud) Murphy was the first gangster convicted.

Thompson Tells 'Em All About Klamath Calves Triumph

The Volt, or the Jolt, as it is sometimes called, the little periodical issued monthly by the California-Oregon Power company, has made its appearance again. In this issue the winning of prizes by Klamath county calves is mentioned, the names of the prize-winning animals and their owners being given. Evidently Division Manager J. C. Thompson must have "smeared a ton" with enthusiasm when he sent the good news to the Volt, for the letter, in telling the story, uses this expressive paragraph: Nine head of Klamath County calves exhibited in the boys and girls calf club contest, a feature of the recent international livestock show at Portland, Ore., won prizes, according to Division Manager J. C. Thompson, who seems as proud of it as if they were his calves. He suggests that the fact be told the world through The Volt.

CAL. BUILDING ASSOCIATIONS HAD GOOD YEAR

SAN FRANCISCO, Dec. 27.—Building and loan associations in California at the close of the last fiscal year had gross assets aggregating \$47,851,294, an increase of \$9,476,962 in 12 months time, according to the annual report of George S. Walker, state building and loan commissioner.

During the year the number of active associations was increased from 86 to 96, but as the first annual reports of several had not been made on June 30 the figures from only 87 were included in the report. These showed a 2778 increase in the number of borrowers, bringing the total up to 23,724. The volume of outstanding loans was increased \$9,312,176.

"As predicted in the report of last year the new loans for building purposes," said the commissioner's report, "show a material increase in number and percentage. At that time the reported new loans for

building purposes were only 22.50 per cent of the loans made upon real estate security, while the 2591 reported as made during the last year represent 32.59 per cent of all real estate loans made.

"The 87 associations made loans at varying rates from as low as six to as high as 12 per cent, depending upon locality, security and local conditions. The mean average of all these rates was 7.933 per cent, a decrease of .037 per cent from the average of the year before.

"The income from interest collection, based on the average loans in force, was 8.009 per cent as against 8.349 one year ago, a decrease of 0.340 per cent.

"The apparent gross income from all sources indicates a decrease of 0.355 per cent."

"The reported expense of operating, excluding taxes, amount to 1.242 per cent of the average loans in force, or an increase of 0.031 per cent."

It has been discovered that it is possible to transplant trees without injuring them if the operation is performed while they are subject to the affects of an anaesthetic. A tree so treated sheds its leaves after transplanting in the summer instead of in the autumn, but it very soon recovers itself and becomes normal.

CALIFORNIA NEWS

RED BLUFF, Dec. 27.—With the \$35,000 asked of local citizens, practically all subscribed, the erection of a plant for the Haughty & Son Tool company of San Francisco is believed to be assured.

COLUSA, Dec. 27.—Recommendation that the Colusa county board of supervisors and the local town trustees pass ordinances providing for the enforcement of the Volstead act by local and county officers is contained in the report of the county grand jury just filed with the supervisors.

SAN FRANCISCO, Dec. 27.—Whisky and other liquor valued at \$10,000, which had been seized in raids by prohibition enforcement officers, was poured into a sewer outside the custom house.

GRIDLEY, Dec. 27.—"The First National bank of Gridley has reasons to expect that it will be able to pay off its depositors dollar for dollar and have an excess left over." This announcement was made here by President J. A. Schafer of the bank, who has returned here following a trip in an effort to obtain the funds needed to permit the bank to resume business.

The bank failed to open Saturday morning.

SANTA ROSA, Dec. 27.—Loring Boney, 3 years old, is dead, and his sister, Elexine, 22 months, is dying, while the mother, Mrs. A. Boney, was painfully burned as the result of a fire which destroyed their home at Tamale Saturday evening.

SUSANVILLE, Dec. 27.—Roy D. Mayes, President of the Lassen Industrial bank, has decided to install a wireless station in Susanville, which will have a transmission radius of 2500 miles and a receiving radius of 6000 miles.

SAN FRANCISCO, Dec. 27.—All San Francisco dance halls in which women instructors only are permitted to dance with men patrons will be closed December 30. This was announced Saturday by police officials.

The status of other public dance halls is to be considered at various meetings and hearings this week.

It is said that the Chinese wash fine silk in very pure water, and, as ordinary well-water is unsuitable, it is purified by putting a quantity of freshwater snails into it for a day. These prey on the organic matter it contains, and therefore act as filters.

REMEMBER the time the first automobile parade was organized? Even the good old torchlight procession had to give way before the advance of progress.

He needs it more than anyone else. It's part of our job, as we view it, to see that he gets it.

Our tire service starts with good tires—U. S. Tires. All sizes made to a single standard of quality—none graded down to the price of the car they will go on.

U. S. perfected the first straight side automobile tire—the first pneumatic truck tire.

The U. S. guarantee is for the life of the tire, and not for a limited mileage.

When we recommend and sell U. S. Tires we do so in the interest of greater tire economy. It is our experience that that is the best way to build up a sound and sizable business.

Tires are often sold the same way politics are.

The last people to wake up to what they are getting are the people who pay the bills.

The bills are getting too big these days in both cases. And the man who is feeling it most with respect to tires is the man who owns a moderate-price car.

The idea that the small car owner doesn't need a good tire is rapidly going the way of all mistaken ideas.

Select your tires according to the roads they have to travel:
In sandy or hilly country, wherever the going is apt to be heavy—The U. S. Nobby.
For ordinary country roads—The U. S. Chain or Usco.
For front wheels—The U. S. Plain.
For best results—everywhere—U. S. Royal Cords.

United States Tires
