

TRAVELERS TO HAVE COMFORTS AS BEFORE WAR

PHILADELPHIA, Dec. 29.—Railroads in this territory are returning to pre-war service so far as the comfort of passengers is concerned. The Pennsylvania has issued careful instructions for the heating of cars. Coaches in through service, says an order, must be heated to a temperature between 65 and 70 degrees; in suburban service, 60 to 65. Sleeping cars between 10 p. m. and 6 a. m. must have temperature of about 60; in the daytime the temperature in sleepers should range between 65 and 70.

Other orders issued to trainmen: Principal stations at which trains will stop must be announced in all coaches and diners before they leave terminals.

Approaching stations, the name of the station must be announced at least twice.

No baggage will be allowed in the aisles.

In cold weather doors must not be opened unless passengers are leaving the cars, and not opened before train stops.

Trainmen must not turn seats until arrive at terminal.

Conductors must report all cases where passengers are obliged to stand and the reason therefor.

Conductors must make frequent trips through sleeping cars at night to see that Pullman employee is on guard in each car in service.

Wooden coaches or wooden combined cars must not be placed between steel cars, or between steel cars and the engine.

Soliciting alms, distributing hotel cards, advertising matter or literature not directly connected with the business of the company, must be prohibited.

The second suit was against James A. Flynn and J. M. Sullivan. The men were accused of stealing a car belonging to Chester Avery. The car was recovered.

Wayne Beach, accused of larceny from a local store, was favored with the third dismissal.

It's a Lathing Party; You Are Invited

There is going to be something unusual in the nature of parties tomorrow night at the new academy building now under construction by the Sacred Heart parish. As usual, whenever something new and enjoyable is "hooked up," the source of the innovation can be traced to the ladies. It's particularly true in this case.

It is going to be a lathing party. Both men and women are invited to be present and to bring their own hammers, and endeavor to break a lathing record. The women, most of them anyway, will be there with their bungalow aprons, and all prepared to show their male brethren the way a good lathing job will be done.

That's not all of it, of course. While there will be plenty of laths to keep everybody busy, there is going to be plenty of refreshments also, not only of the "dainty" kind, but of the more substantial kind as well, and there will be fun for everybody while the eats and laths last. Everybody is invited to attend this party, and the advice is to come early.
