

No Panic Among Depositors of the Malin State Bank

(Special to The Herald)

MALIN, Jan. 14.—News of the run on the First State and Savings bank was received here calmly. Stockmen and other residents of this valley have not become panic stricken over the financial situation and there has been no run on the Malin State bank, according to Louis Boldischar, cashier.

The tendency rather has been to denounce those panicky depositors whose lack of confidence was responsible for the closing of the Klamath Falls bank. No run on the local bank is anticipated by Mr. Boldischar but he has gathered in as much cash as possible and called in loans in preparation for any emergency. He believes the depositors in this section are sane enough not to lose confidence in their bank and thereby cripple it in a critical period.

Reports from Merrill indicate a small run on the bank there, but it checked itself before it became serious.

Mrs. H. H. McCluer of Kansas City, who was chosen as a presidential elector on the republican ticket, is to receive the honor of conveying the news to President-elect Harding. It is believed she will be the only woman in the United States to receive this high distinction.

Miss Florence L. Nichols of Boston is soon to sail from New York to take up her new duties as principal of the first woman's college in Asia, the Isabella Thoburn college in Lucknow, India.

Twenty-three men and women held by the government to be communists, are on their way back to Europe. Uncle Sam ordered them deported. They were rounded up in cities all over the nation. Most of them are Russians. They are shown starting back.

Salesmanship
A customer, thinking he was going to the Star drug store yesterday went into Baldwin's hardware store. The customer without noticing his surroundings said: "I want a quarter's worth of carbolic acid." The clerk who had always been clever at suggesting something else when they didn't have what the customer asked for, studied for a moment and then quickly said: "This is a hardware store and we don't keep carbolic acid, but we have a fine line of rope, revolvers and razors."

IF SKIN BREAKS OUT AND ITCHES APPLY SULPHUR

Just the moment you apply Mentho-Sulphur to an itching, burning or broken out skin, the itching stops and healing begins, says a noted skin specialist. This sulphur preparation, made into a pleasant cold cream, gives such a quick relief, even to fiery eczema, that nothing has ever been found to take its place.

Because of its germ destroying properties, it quickly subdues the itching, cools the irritation and heals the eczema right up, leaving a clear, smooth skin in place of ugly eruptions, rash, pimples or roughness.

You do not have to wait for improvement. It quickly shows. You can get a little jar of Mentho-Sulphur at any drug store.—Adv.

Bad Investment Is Almost as Needless as Wasteful Spending

LOSING investments arise nine out of ten times through lack of knowledge of the proposition and failure to investigate it.

Innumerable times people have withdrawn money from a perfectly good First National BANK ACCOUNT and put it into projects which COULDN'T—as well as wouldn't succeed.

Savings draw interest and arouse interest.
