**Weekly C. of C. Forum Tomorrow**

The Reverend W. E. Bobbitt, of Woodland, California, will be the principal speaker at the chamber of commerce forum, which will be held in the Rex cafe tomorrow noon at 12:15. Mr. Bobbitt has talked here before, and it has been aptly said

that every time he opens his mouth he says something. There will be other features too, and the word has gone out that all those wishing seats at the luncheon tables would do well to reserve them at once. "There's going to be a full house," said Secretary Stanley.

**BOYS EAST SIDE CLUB LARGEST OF ITS KIND**

NEW YORK, Jan. 25.—For ten cents a year and up, 7,000 boys of New York's East Side enjoy all the fun facilities that a seven-story club house can provide. They are members of The Boys Club. It is the largest organization of its type in the world, devoted solely to furnishing wholesome recreation to the youths of the congested tenement district that surrounds it.

Any youngster in that part of the metropolis can be a member, if he is between 7 and 21 years old. Annual dues are paid according to height beginning with a modest dime for those under four feet, four inches, and growing with the boy himself.

The club has taught the East Side gamins how to be happy though clean by providing a big swimming pool, fringed around it are gymnasium game rooms, billiard parlors, and above, six more floors devoted to club rooms and other amusement areas. Within the Boys Club itself there are 80 separate clubs, each with adults as leaders. Two-thirds of these leaders were army officers during the war.

Dividing popularity honors with the swimming pool is a lunch room where a cup of cocoa sells for a penny and cookies to go with it for a similar sum. Pretzel peddlers and hand-organ virtuosos steer clear of the neighborhood of the club, for the boys have their own eats and own music making instruments.

In the daytime these frequently are only a few hundred youngsters within the clubhouse and comparative quiet exists. But after the schools release their pupils and the working boys finish the day's business duties, the roof has a hard time staying on.

There are few "don'ts" and fewer "must do's" in the club, and each member enjoys himself as he is wont. Those desiring to "shoot a

game" of pool do so, and those with penchants for painting, dab the canvas to their heart's content. Several of the boys study in the National Academy of Design and one of the portraits hanging in the Metropolitan Museum of Art was done by a member of the club.

One evening each week each of two hundred men of the city make themselves boys again just for the

night. They are the leaders of the various subsidiary clubs and organizations. Some of these men are college graduates and barons in the business world; One of the founders of the club was a famous figure in America's railroad and financial circles—the late E. H. Harriman. With him in the early work of building up the organization were several Yale graduates.

As the story goes Mr. Harriman was conferring at the settlement club one night forty-four years ago when a rock broke through a window pane and whizzed past his ear. Not to have the East Side youngsters resort to rocks and stones and "the rolling bones" for their fun, he thought a well equipped clubhouse necessary. And soon it came into being, never to stop growing.

**DEAR PETEY:**

Winston-Salem, N. C. Monday.  
Bet you a house and lot you'd stay in W-S a month if you ever got to know folks here like I have. Between business and Reynolds factories and a bully time—well my date book has been bubbling over! And, I'm still running into facts that would stagger even your imagination, old football, with all your kick!

Pete, take it straight from government figures direct to you, that every work day in the week R. J. Reynolds Tobacco Co. buys from our "Uncle Sam" enough revenue stamps to pay for a duplicate of the handsome new Winston-Salem post office building! Ever hear of such a thing?

And, if you want to get an eyefull of an army of more than 15,000 people, be down in the Reynolds factory district when the whistles blow! Never saw such a cigarette firing-up time in my life!

Peter, everytime you light a Camel in the future, call back on what I've slipped you about Camels—absolutely, the greatest cigarette at any price—for quality, for refreshing flavor, for mellow mild body, for freedom from any unpleasant cigarette aftertaste or odor! It's worth the busiest smoker's time to compare Camels with any cigarette in the world! Camels are simply a revelation! You know that.

I'll open my eyes in Atlanta tomorrow! In the meantime here's a wad of best wishes I have in stock!

Yours,

Shorty
