

MAKE BONFIRES OF RUBBISH AND CUT FIRE LOSS

By Fire Chief Delaney

The first step in all fire prevention campaigns is to interest the community in which it is launched in a general clean-up and removal of waste materials of all description which are to be found in back yards, basements, closets and attics, which are the catch-alls for every kind of rubbish and which constitute the chief fire breeder of every American city.

These clean-up campaigns, when conducted by trained uniformed firemen, have been highly successful all over the country in reducing the city's contribution to the nation's great annual ash heap which amounted in the year just passed to over \$217,000,000, the largest fire loss since 1906, the year of the San Francisco disaster. What a tremendous waste of the country's resources when we stop to consider that more than 85 per cent of all fires are preventable.

The disposal of rubbish by the individual citizen through the occasional kindling of bon fires is encouraged by fire officials when under their control through the permit system.

Any one desiring to burn a trash accumulation may secure a permit from the officer in charge of the nearest fire station or at fire department headquarters in the city hall.

Bonfires should be fed slowly, be located a safe distance from buildings and fences and never started on a windy day. Where there is any danger of igniting dry brush near by a garden hose or wet sack should be handy.

The older children of the school or neighborhood should be taught to look upon themselves as safety first scouts and to keep an eye upon the younger boys, one of whose chief pastimes is the starting of bonfires, which soon get beyond their control and frequently cause a serious fire.

The number of bachelors over 35 who go to the altar as bridegrooms is steadily increasing.

In referring to a musical show inadvertently as a "muscle" show we believe one of our esteemed exchanges was more or less right.

The "pen" is mightier than the county jail.

The harder it rains the more soft water we get.

Once upon a time a lawyer met a fool and his money; the next day the fool met the lawyer with his money.

A friend of ours, says that another thing that jars the sox off a married man is the fact that if he tries to save any money he gets a reputation of being mean to his wife.

Chiropractic seems to be on the increase.

It's a cracking good profession.

For my Blessings I am Thankful

THANKFUL
And, if I had a bankful
Of coin I'd buy a turkey,
But I haven't got the means;

So I guess that I'll eschew it
Let the wealthy guys go to it,

And I'll be mighty grateful,
For my plate of pork and beans.

The Office Cat

BY JUNIUS

I'd hate to be the guy who lives in advertising pages;
He walks about in underwear
Although a blizzard rages.

Nowadays a baker's dozen means about eleven.

Wouldn't it be awful if everybody were to take one of these Be-Your-Own-Boss correspondence courses?

Judge Taft of Los Angeles, Cal., says everybody ought to think it over seriously for ten days before he gets married.

By that time he'll either have changed his mind or spent his license money.

Recently triplets came to the home of a family in St. Catherine, Ont. They named 'em Faith, Hope and Charity, in order of their arrival. Had they been quadruplets, the fourth would have been christened Calamity.

Jesse James did a lot of mean things. But he never tried to rent a \$10 house for \$20 and make the tenant pay his own water bill.

The average man has all the respect and deference in the world for the weaker sex. That explains why so many of 'em will see a woman hang on a street car strap—they believe the physical exercise will be good for her muscles.

what is a porcupine?

He informed us that it was a rat with its hair done pompadour.

SKATERS TO ORGANIZE

BUTTE, Mont., Jan. 31.—Ice skaters of Butte plan the formation of a permanent organization to foster the sport and provide for annual skating events. Emmett McCormick has been named chairman of a committee to look after details of organization of the new body which, it is stated, probably will include devotees of the sport from the entire state and be named the Montana Ice Skaters association.

German guns were recently being destroyed under the peace treaty at a rate of 1000 a week.

HENRY MARSH

Henry Marsh, son of Peggy Marsh, London actress, and the late Henry Field III, has arrived in America to join his mother. She's here in connection with the suit now pending for a share of the Field millions on behalf of the boy.

BEGIN HOT WATER DRINKING IF YOU DON'T FEEL RIGHT

Says glass of hot water with phosphate before breakfast washes out poisons.

If you wake up with a bad taste, bad breath and tongue is coated; if your head is aching; if what you eat sour and forms acid in stomach, or you are bilious, constipated, nervous, sallow and can't get feeling just right, begin inside bathing. Drink before breakfast, a glass of hot water with a teaspoonful of limestone phosphate in it. This will flush the poisons and toxins from stomach, liver, kidneys and bowels and cleanse, sweeten and purify the entire alimentary tract. Do your inside bathing immediately upon arising in the morning to wash out of the system all the previous day's poisonous waste, gases and sour bile before eating more food.

To feel like young folks feel; like you felt before your blood and muscles became loaded with body impurities, get from your pharmacist a quarter pound of limestone phosphate, which is inexpensive and almost tasteless.

Men and women who are usually constipated, bilious, headache or have any stomach disorder should begin this inside bathing before breakfast.—adv.
