COLLEGE DEGREE REQUIRED FOR JOURNALISTS

CHICAGO, Feb. 5.—The foreign language press of Chicago is joining the English press in promising co-operation with Northwestern University in establishment of the Joseph Medill School of Journalism, recently announced. The school is made possible by Col. Robert R. McCormick and Joseph Medill Patterson, editors of the Chicago Tribune, and at the time of the announcement of the project, practically all the Chicago dailies promised their co-operation.

Instruction will begin with the Spring semester February 7, with classes in the school of commerce, which is down-town, but the campus classes will not be organized until next September. For the first semester, Chicago newspaper men, lecturing one night a week, will handle the technical courses of the new School of Journalism, under the direction of Dean Ralph E. Heilman of the school of commerce.

Appreciation of what the new school can do toward raising standards of the newspaper profession and increasing the understanding of American problems as they relate to the foreign-born, is contained in recent letters received by President Walter Dill Scott of the University.

"As a doctor cannot practice and as an attorney cannot be a member of the bar without his diploma, I cannot see any reason why a man should become a Journalist without having proper qualifications of the profession, which is considered one of the most vital in the twentieth century," wrote P. S. Lambros, editor of the Greek Star.

"We hope the School of Journalism will breed better knowledge of political history, geography, and ethnography of other countries, chiefly Europe, among American Journalist," said R. J. Psema, editor of the Daily Svornost.

Oscar Durante, editor L' Italia, wrote at length on the value he could see in the new school of Journalism in promoting a better understanding among the newspaper men of the worth and real work of the foreign language element of the nation.

Similar expressions were made in letters from Oliver A. Linder, managing editor of Svenska Amerikanaren; John R. Palendeck, publisher the United Serbian and other Slavonic newspapers; Robert S. Abbott, editor of the Chicago Defender; and Dr. S. M. Melamed and Harry A. Lipsky, editor-in-chief and business manager respectively of the Daily Jewish Courier.

CLUB BOYS AND GIRLS MADE BIG MONEY, 1920.

OREGON AGRICULTURAL COLLEGE, Feb. 5.—Oregon boys and girls who are members of the state clubs sold $111,584.60 worth of produce last year, $55,942 of which was pure profit. This is the report of H. C. Seymour, state leaders of boys' and girls' club work.

BEST SALARIES PAID TEACHERS IN BALTIMORE

CHICAGO, Ill., Feb. 4.—With an increase of $600 per year to the average teacher Baltimore is shown to lead the list of American cities in amount of salary advances to be granted to public school workers during the past year, according to a survey of the national educational situation just completed by the Better Schools Service, a bureau of the American Federation of Teachers.

This bureau has been compiling statistics and reports here since the teacher shortage became acute. Philadelphia is shown to bring up the rear of all cities, its increase being only from $50 to $120 per year.

The average increase for cities of more than 100,000 population is listed at $365 per year, for cities of between 50,000 and 100,000 three hundred and thirty-two dollars in cities of 25,000 to 50,000, three hundred and seventy-one dollars.

"Reports from all over the country show that the general advance in salaries still leaves teachers more inadequately paid then previous to 1914," said William T. McCoy, director of the survey in making the first findings public.

"Teachers are still at the bottom of skilled workers in the wage scale," he added. "The measures of relief have been palliative only. They may have checked momentarily the disintegration in the public school system of this country but they have not arrested it. All reports show that there must be fundamental changes in the policy of financing education before schools are safe from current deterioration. Normal school enrollment over the nation is the barometer of the educational system. This barometer is now very low. Even the Baltimore increase is reported by Maryland educators to have been inadequate.

Among the larger American cities Louisville and Paterson (N. J.) rank next to Baltimore, with $500 each as the average annual increase. Chicago, Toledo, San Francisco and Kansas City take next place with $450 each. St. Louis, Oakland, Tacoma gave $420 apiece with Spokane close behind with $400. Boston, Los Angeles and Houston awarded a raise of $330, with Atlanta and Minneapolis $300 each. Indianapolis, Cleveland and Des Moines gave $200.

Of cities between 50,000 and 100,000 Terre Haute, Ind. leads with an average teacher advance of $450. Portland, Me., gave $400 and Gary, Ind. $360.

In the third group cities between 25,000 and 50,000 Montclair, N. J. tops the list with $500. Newton, Mass, being next with $450.

STEEL PLANTS RESUME WORK

PITTSBURGH, Feb. 5.—Many independent steel manufacturers today increased their operations on a conservative basis after about six weeks during which manufacturing was either entirely suspended or greatly curtailed.

Nineteen heavily loaded freight cars broke loose while being switched from one track to another at Troyes, France, and rushed downhill towards a station. An employe jumped on a bicycle and raced along the track parallel with the train, and then, jumping on one of the fast-moving cars, applied the brakes and prevented a serious collision.

In Chicago, the customers buying electric power and light are increasing at the rate of 30,000 to 40,000 a year.

Your Cold Grows Worse

Does This Ever Happen to You?

Sniff — Sniff — Sniff — your cold grows worse and worse, your temperature goes up, your head begins to ache you have no appetite, your power of resistance grows weaker, your smiles cease, you lose interest in everything, you go to bed and the doctor comes. He feels your pulse, takes your temperature, and immediately orders a nurse. He comes again and sends you off to a hospital. Weeks roll by and you are carefully nursed back to health.

Besides your suffering you have lost your time, you have had to pay your doctor, nurse, druggist and hospital bills, all because you neglected that apparently slight cold.

Don't do it again. Take no more chances.

Get of us a box of Rexall Laxative Aspirin (U. D. Co.) Cold Tablets today. Take them according to directions the moment the first symptoms appear and you will obtain real relief.

We guarantee them.

To Our Patrons:

Merrill, Oregon, February 1, 1921.

The present financial stringency and the shortening of terms by the wholesalers and manufacturers has compelled us to change our terms of sale by either raising our prices on charge accounts or confining all sales to a cash basis.

In all fairness to our Cash and Credit Customers we are obliged to revise our terms to a strictly cash or thirty day basis.

We must adopt the policy of the wholesalers by charging interest on all monthly balances not paid before the tenth of month following purchase.

From the most reliable source of information obtainable, that of our wholesalers and manufacturers, we believe the prices of most merchandise has reached its lowest ebe. We have therefore revised our sales prices to conform to the present day basis and will continue to reduce our prices as the cost of our replacements may be reduced.

We trust our customers will appreciate the position in which we are placed and lend their co-operation while passing through this period of readjustment. We are confident that with your assistance the steps which we have taken will revert to the mutual benefit of the entire community.
