**A SPLENDID POLICY.**

If you were offered a life insurance policy that did not absorb any part of your premium, in a company that was safe and sound, it is not likely that you would refuse it. In fact the agent offering such a policy would be swamped with business. Well, that is practically what W. A. Bullock, of this city is doing. He is selling a policy in the Occidental Life Insurance Co. of Los Angeles, Calif., that does this very thing. Here is how it is done:

He will write you a policy on the 20 year endowment plan guaranteeing you that in the event of death to return all deposits made by you in addition to the full face of your policy.

Should you become totally disabled from sickness or accident, the company have made special provision whereby you will have no further payments to make and will pay \$10 per month on each thousand dollars of insurance you carry which is not deducted from your policy at death. Besides, your policy matures the same as though you had made the payments yourself.

This is one of the best policies ever offered by any legal reserve company and has other special features just as remarkable as those outlined above. Before you buy that insurance you are thinking about, if you will call Mr. Bullock, 43-W or drop a card to 1405 Oregon Ave. He will be mighty glad to tell you all about it.—Adv.

**MUST STEAL TO OBTAIN FUEL**

BUDAPEST, Jan. 16.—(By Mail)—Many of the poor people of this city are being driven to wholesale thievery by the fuel shortage. The recent theft of 25 carloads of wood from one train of 100 carloads as it entered the city shows the extent to which the stealing is going on.

Wood is so scarce that when a wagonload is driven through the streets people stop and gaze after it is out of sight.

Daring small boys are ever on the alert for a stray piece of wood or anything that will give heat at home. They scamper after every passing wood wagon but are soon frightened away by long whips in the hands of two women who sit on guard astride the load.

The operation of unloading a ton of Hungary's inferior brown coal before a house attracts many neighbors who make a pathetic picture as they watch basketful after basketful disappear into the coal bin of the more fortunate one.

Because of the urgency to obtain fuel, by dishonest means, if honest ones are of no avail, the juvenile courts were never so crowded with youthful offenders.

The scarcity of fuel arose more acute daily as winter advances. The street railway service has been sharply curtailed and people wait for hours exposed to the bitter cold. The worst operated American street car never tolerated such crowding.

Gas factories are provided with coal for only 24 hours at a time and the gas is turned on now only at noon and after 6 o'clock. Only one light is permitted in a room and not more than three rooms in a house or single apartment may be lighted at the same time. Even at the most expensive hotels there is no running hot water. Saturday is bathing day. On other days baths can only be had at the public baths for which Budapest is famous.

One of the latest and most drastic steps of the new government is the deportation of undesirable citizens, those suspected of bolshevik tendencies or who are known to be opposed to the present form of government. Hundreds of these have come to Hungary since the outbreak of the war. Now their houses and flats are being commandeered and turned over to homeless refugees from Transylvania and other sections who have been living in freight cars in the railroad yards.

The majority of the people have parted company with the last of their articles of jewelry and the dealers from other lands are not getting many takers of their offers of fabulous prices for gold and silver. What is called the state exchange bureau, a sort of national pawnshop, has paid as high as 80,000 crowns for a kilogram (of 2.20 pounds) of scrap gold and dealers are offering 120,000 crowns in an effort to coax another kilogram from people who may be hoarding their precious metal. For pure gold 250,000 crowns a kilogram is offered with no takers. The explanation is that most of the gold has been smuggled to other countries where the money has more value.

The Hungarian newspapers print a warning to 150,000 laborers of Hungarian origin in the United States to desist from their reported intention to return to their native land at this time. The papers say that the economic crisis in America can never be as bad as it is here and urged their countrymen not to further embarrass Hungary's unemployment problem.

As if the country's cup of misery was not full it is now visited by an epidemic of hoof and mouth disease and people are prohibited from buying cattle from neighboring states. All frontiers are closely watched and all cattle within 20 kilometers of the border must be registered with the health authorities.

**PESSIMISM vs. OPTIMISM**

People usually apply those two very good elements in the wrong places. Here at the First National Bank we use them differently.

When things are too good to be true, we preach watchfulness and carefulness. When they seem bad, we urge cheerfulness and confidence.

But there's no time that a bank account isn't necessary.

They met in the Argonne, under fire. A romantic girl and a big, brave Yankee capt. Met and loved and secretly married. But when the war-glamor had faded, and her hero appeared in her exquisite home in a loud suit of hand-me-down civics, she didn't rush to lay her head on his rainbow necktie. So fighting Sam McGinnis opened a new attack; became her father's butler—humbled her—maddened her—trained her; until one night she crept into his room—and—Come and see a snob made safe for democracy!
