KLAMATH FALLS, OREGON, MONDAY, FEBRUARY, 14, 1921.

PRICE FIVE CENTS

JUDGE LANDIS IMPEACHED BY OHIO DEMOCRAT

(By Associated Press)
WASHINGTON, Feb. 14.—Judge Kenesaw M. Landis, of Chicago, federal jurist, was impeached in the house of representatives today by Representative Welty, democrat, of Ohio.

Welty charged Judge Landis with "high crimes and misdemeanors" in connection with his acceptance of a position as supreme arbiter of big league baseball with a salary of \$42,500 yearly.

The charges were referred to the house committee on judiciary, on Welty's motion, for investigation and report.

Should it be determined to institute proceedings against Judge Landis a formal trial will be held before the bar of the house.

There is little likelihood of action by the judiciary committee on the Welty charges at this session, Chairman Volstead stated.

"The fact that Welty retires March 4 does not effect the proceedings," he added, "nor does the case necessarily end with the adjournment of congress."

WASHINGTON, Feb. 14.—Senator Dial, of South Carolina, Saturday said that he would prefer charges against Judge Landis with the department of justice in connection with the judge's statement that officials of the bank of Ottawa, Illinois, were responsible for the embezzlement of \$96,000 by Francis J. Carey, a clerk, because they paid him only \$90 a month.

Senator Dial declared Judge Landis utterances were "anarchistic and revolutionary."

RACE HORSE KELLY DEAD

Harry Kelly, better known as "Race Horse Kelly," in his day said to have been one of the shrewdest judges of horseflesh and one of the best trainers of racers on the coast, died Saturday evening about 5:30 o'clock at the county hospital, which has been his home for the past seven or eight years.

During his time Kelly had trained and raced thoroughbreds on probably every track of importance in the country. He had an immense fund of reminiscences of the thrilling days when he worked for the big stables. He was a kindly old man, who bore his misfortunes of blindness and poverty bravely, and was greatly loved by the hospital colony, by whom he will be greatly missed.

For Harry Kelly was that rare product of the world of sport—a good loser. During the palmy days when he was close to the central figures who followed the "sports of kings" he lived in affluence and if he had been of different mold might have laid aside a comfortable competence. But he lived after the code of his world and wasted no time in vain regrets.

Kelly was born a slave in the family of Dr. Kelly of Nashville, Tennessee, a Methodist bishop. When the war broke out he ran away and entered the army, serving through the conflict as a body servant of General John Cheatham.

During the war he knew Captain J. P. Lee, the present county assessor, and when finally his wanderings over many racing circuits brought him to Oregon, he hunted up Captain Lee and lived in the family for several years.

When E. R. Reams, of the First National bank gathered together a stable 15 or 20 years ago, Kelly took charge of the training and the Reames horses made a gallant showing on many of the leading coast tracks.

Before coming here Kelly worked for Elias Jones, an uncle of Coroner Earl Whitlock, who had training farms at Arlington and Gervais, Oregon. His connection with racing made him a well-known character in the community and many old

New Administration Will Seek to Unite Reconstruction Aims

ST. AUGUSTINE, Fla., Feb. 14.—A plea that the nation should forget the animosities and partanship of the after-war period and put a united shoulder unstintingly to the wheel of reconstruction is expected to form the keynote of President Harding's inaugural address.

One of the outstanding features is expected to be a appeal for confidence in the nation's business ability, linked with the assurance that the "administration will keep away from meddling methods in its relations with the business world."

REDISTRICTING WILL GO OVER UNTIL 1923

SALEM, Feb. 14.—Because of the short time remaining for action on the subject reapportionment, Senator Thomas today introduced a resolution proposing that a special reapportionment committee continue the investigation of the matter and report to the 1923 legislature.

To expedite business during the remaining week of the session, President Ritner announced that he would enforce the senate rule limiting talks on the final passage of bills to five minutes, and debates on resolutions to three minutes, for all except the authors of the measures.

The fight on the teachers' tenure bill was renewed by the introduction of a new bill in the senate. The house passed the bill aimed to stop fake advertising.

Legion Auxiliary Will Give Tea to Swell Relief Fund

To add to their fund for the relief of cases of need, as they arise, among the 700 ex-service men and their families in Klamath Falls and Klamath county, the Women's auxiliary of the American Legion will hold a silver tea Thursday afternoon from 1:30 to 5 o'clock at the Bluebird confectionery.

The auxiliary relief committee consists of Mrs. Jennie Hurn, Mrs. J. H. Garrett, Mrs. J. H. Carnahan and Mrs. William Ganong. They, with Mrs. John Enders, Mrs. H. D. L. Stewart, Mrs. Garrett Van Riper, Mrs. Maurice Johnson and Mrs. Paul Bogardus, will act as hostesses.

It is the function of the relief committee to extend aid in all cases of need and illness that is called to its attention among the ex-service men or their families, to provide clothing and food, to pay medical and drug bills, provide flowers for the invalids, assist in funerals, and in every way lighten the burdens of the unfortunate among former soldiers and sailors.

It is hoped by the ladies that the affair next Thursday afternoon will receive liberal public patronage in order that the relief fund may be equal to the constant calls upon it.

CHARGES FENCE WAS CUT; TRIAL ON IN JUSTICE COURT

Trial of J. L. Sparrenton and John Simmons, Bonanza ranchers, charged by Frank Nichols, a neighbor, with unlawfully destroying 100 feet of Nichols fence last December, on the Porter ranch near Bonanza, is underway in Justice Gaghagan's court this afternoon.

HEAVY MINE OUTPUT.

VICTORIA, B. C., Feb. 14.—British Columbia's mineral production for 1920 totalled \$20,580,625, which is an increase of \$2,284,312, or seven per cent over the 1919 total, according to figures made public by the department of mines. Increases were recorded in silver, copper and zinc.

timers will give a sigh of regret over his passing.

The funeral was held this morning and the body was buried in the local cemetery, in a lot that had been purchased some years ago.

FIRST STATE AND SAVINGS BANK REORGANIZATION PLANS AT POINT WHERE REOPENING IS ASSURED

The statement may now be made, without fear of contradiction or doubt, that the First State and Savings bank will re-open. Few have had any doubts of this, and what little skepticism existed following the bank's suspension has disappeared, as bit by bit there has leaked out stories of the real financial condition of the institution. No definite date has yet been set for the re-opening, and none will be set for the present. When a decision is reached on this point, the necessary publicity will be given it, so that he who runs may read and have no doubt as to just what to expect.

The full plans for the re-organization have not been fully worked out, but they will probably be ready for submission to the stockholders of the bank at the meeting that has been called for next Saturday. Until then no official information will be given to the public.

Winters is Moving Into New Building

H. J. Winters, the jeweler, is moving his stock from his old store today into the new building next door, which he recently completed. A handsome plate glass front was installed in the new store last week.

The Winters building contains three stories. The two upper floors used for offices and apartments. The building is brick, fireproof construction, solidly built with a view to the addition of another story at some future date and is one of the general recently constructed buildings that mark a new era in the city's business development.

From sources close to those who are preparing the reorganization plans, it is learned that it is contemplated to increase the capital stock of the bank, and offer the new stock to the people of this county. This phase of the reorganization has been discussed for some little time, and it has resulted in the filing of written and oral applications for some of this stock by those shrewd enough to value its real worth. These applications have reached a point that would indicate that the stock issue will be subscribed many times over and it is doubtless a realization of this fact that has caused the farseeing investors to get their applications in early, so that they will be sure and get some of it. If the stock is offered at par, it will, according to those who pay attention to such things make the choicest investment ever offered in this county.

Thieves Get Little In Creamery Office

Entrance to the Klamath Falls creamery on Klamath avenue was effected Saturday evening by some unknown person or persons, who took \$1.90 from the cash drawer but made no effort to open the safe. The entrance was made through the front window.

LADIES CLUB MEETS TOMORROW.

The Ladies' club of the B. P. O. E. will hold a regular meeting in the Elks' club rooms tomorrow afternoon at 2:30. All members are requested to be present.

THE PARTY IS OVER

(From the Informant, published by the Zellerbach Paper Company) And it was some party while it lasted! Deflation is with us, and also with the balance of the world. This will lead to sanity and health. We all knew this adjustment had to come sometime, so why feel blue and discouraged? We have been through the same thing before, and we will live through this adjustment period also.

BANKS
We have a banking system which is holding up in fine shape, and we will have no money panic. Consider what would have happened in the last few months without the Federal Reserve system.

GOLD
We have about half the known supply of gold in our bank vaults. Compare this with the situation before the war, and the present situation of the European countries.

CREDIT
Every nation on the earth owes us money! Think of the billions of dollars in stocks and bonds held abroad before the war, on which we were obliged to pay dividends and interest. These stocks are now in America's strong boxes.

MONEY
Our dollar is the only unit of currency in the world commanding a premium in every market, and this situation will continue for years.

EXPORTS
Our exports exceed our imports by a wide margin, and will do so for a long period. We have the coal which every country must buy from us. England has not the tonnage to keep up her pre-war exports. Our only limit is the mechanical means of dumping the cars into ocean ships. And we have the ships! A few of them may leak, perhaps, but we have the yards in which to build others and repair the ones we own. And our flag flies in many ports where it has not been seen for years. We have the wheat, the cotton, the copper, the raw materials, and the world must buy of us or do without.

RAILROADS
Every village and city in our land is seven years behind in their building program. They require everything from chicken coops to office buildings, and these wants must be supplied.

AUTOMOBILES
The automobile and tire business is weak in the knees at present. But it will recover. Autos are still in daily use, and the middle of any city street is as unsafe a gossiping place as it was six months ago. We will continue to drive cars of high and low degree, and remember, that every time the wheels revolve the automobile, and its tires are that much nearer the junk heap.

ROADS
Road-building projects on a large scale are being planned all over the country, and will be put through.

FOREIGN EXCHANGE
If our foreign exchange friends refuse to buy our goods or cannot do so because of the exchange situation, remember, we are years behind in every thing in our own country, and we could live on our own fat for five years and put our own house in order, and get acquainted with each other again, and be all the better for it.

PRICES
Prices are being adjusted in every direction, and many of them are already dragging bottom. When you hit bottom you always come up; perhaps a little disfigured, but anyway, you come up.

SALESMANSHIP
Salesmanship, real salesmanship, has come into fashion again. The day of the "order taker" is over, so get your feet out of the office; stop talking hard times; hot-foot it up the street and down the alleys and by-ways, hustling for business, and you will find many concerns using your line of material, of whose very existence you have been unaware. Keep your tail off the ground or it will be stepped on by some hustling salesman on the way to secure an order from one of your own customers.

GO TO IT!
We have the money, the credit, the factories, the labor, the materials, the brains, the initiative, and we are naturally optimistic. Pessimism is a disease and follows poor circulation. Exercise is the best cure for it. Go out after the orders. Put jass pep, ginger, into your efforts. Burn the crepe and jump on the crepe hangers with both feet. Wear out the shoe leather. You will probably get some business, and anyway, it will help the shoe business. Forget the last five years and keep your eye on the next five, and dig for business. If you don't, someone else will get it.

Owen County, Ind., Is Now the Center of Population in U. S.

WASHINGTON, Feb. 14.—The center of population disclosed by the 1920 census is located in the extreme southeast corner of Owen county, Indiana. During the last decade the center of population has continued to move westward, advancing to about nine and eight-tenths miles west of, and about one-fifth mile north of Bloomington, Indiana, where it was located by the 1910 census.

NO UNIFORMITY IN BILLS FOR PAY INCREASES

Comparison of figures in the proposed salary raises of adjoining counties on either side of Klamath with the proposed increases for Klamath county reveals little uniformity.

The Klamath county bill, introduced by Senator Upton, with the collaboration of Representative Overturf and Burdick, would raise the assessor's pay from \$1500 to \$3000 a year; the county judge from \$1500 to \$2000; the commissioners from \$5 a day to \$1500 a year, and the school superintendent from \$1500 to \$2400. The sheriff, clerk and treasurer would receive no increase, their pay remaining at \$3000, \$2000 and \$1500, respectively.

The Lake county bill is also sponsored by Upton, Burdick and Overturf. It proposes to increase the salary of the county clerk from \$1800 to \$2000, the assessor from \$1500 to \$1800 and the county school superintendent from \$1500 to \$1800 per annum. Salaries of the county judge, treasurer and sheriff are to remain as at present at \$1000, \$1000 and \$2500 respectively.

Jackson county proposes to make the following increases: Commissioners from \$4 to \$5 per day; treasurer \$1200 to \$1500 annually; assessor \$1500 to \$2100; school superintendent \$1800 to \$2000.

Religion's Place In Life of All Ably Discussed

With religion with a small "r" as his subject, Father J. V. Molloy preached a forceful sermon last night at the Catholic church on the modern spiritual trend. The type of religion he dealt with was not the dogma of denominationalism, but the fundamental belief of humanity, and he attacked the problem of an apparently increasing materialism.

The preacher, in upholding the so-lace of the cross, asked where the burdened and down trodden of the world would find in materialism the comfort that religion gives. The prosperous man, strong in body, may feel that material things are sufficient for all his needs, he may dodge consideration of things spiritual, but how about those on whom fortune has frowned, asked Father Molloy.

The speaker has a vigorous way of handling his subjects that carries a virile, masculine appeal. He promises sermons on everyday topics of current interest each Wednesday and Sunday night.

C. of C. Auxiliary Will Meet Friday

The woman's auxiliary of the chamber of commerce will meet in the chamber of commerce rooms Friday afternoon at 3 o'clock to finish the election of officers, and the appointing of committees. It is also expected that names for a city flower will be nominated, the selection to be made later. Several of the ladies will speak on the culture of the flowers nominated.

All the women of the city are invited to take part in the meeting.

IT'S A BABY BOY.

A son was born to Mr. and Mrs. Rex Bussert, of Mills addition, Saturday morning. Dr. Goddard says that both mother and babe are doing well.

BREEDERS NOW ANXIOUS FOR A PLACE IN SALE

Northwest breeders who last year were skeptical about consigning pure-bred Shorthorns to the annual Klamath county farm bureau sale, this year had to be restrained from shipping in more stock than the farm bureau feels it can dispose of, says L. A. West, chairman of the farm bureau livestock bureau, who returned last night from a trip through the northern part of the state where he secured 20 head of registered Shorthorns for the sale.

There are 17 cows and heifers and three bulls, two males calves and one two year old, in the carload, which will arrive here a week or so before the sale. The tentative sale date is March 17.

Local breeders to date have entered about a dozen animals for the sale.

The outside stock secured by Mr. West is all from Union county farms. The herds of William Green, Sherman, Hutchinson, Lester Hempo, Townley and DeLay are represented. Practically all of the stock is show stuff which was exhibited at the Portland International Livestock show, and at least one of the heifers was well inside the money.

Mr. West was accompanied on his trip by A. E. Lawson, field representative of the Northwest Shorthorn Breeders association and H. A. Lindgren, field representative of the Oregon Agricultural College, who aided in selecting the best stock available.

Local weather cannot compare in disagreeable features with Union Co. weather, said Mr. West. Snow drifted before the high wind blocked railway traffic in one place so that passengers were forced to walk two miles and a quarter through the drift to get around the blockade.

ALL THE 1921 MODELS TO BE AT AUTO SHOW

When the doors of the Scandinavian hall are thrown open to the public on the evening of Sunday, March 20, Klamath county and Klamath Falls will have their first opportunity to see the new 1921 models of the automobile industry in a setting that will be the equal of any auto show held in the west. This at least is the promise of the Commercial Exhibit company.

The plans of the men behind the show call for the display of the best models before the public. The decorative scheme will be singularly attractive, and excellent music will be a distinctive feature.

At the present time indications are that the floor space will be oversubscribed, but local dealers will be given preference. This also insures only the very best in the auto line, and as 1921 is showing many improved models, patrons of this show will see a lineup of models that will be a feast to their eyes.

It was freely predicted that the automobile shows of this year would greatly stimulate and renew activity in the automotive industry. It was not a false prediction, nor was it surface optimism. In most of the big cities the crowds could not be accommodated, and in the smaller cities the crowds were proportionately large and equally as enthusiastic.

Most motor car dealers are studying their territories more carefully than ever before, and through the medium of auto shows they have determined that there will be a good, healthy demand for automobiles this year. The big problem has been to get the public to see and investigate the cars, and the auto show is the agency that is bringing this to pass. Klamath Falls dealers recognize this fact, and the auto show in March will be a valuable aid to them.

The Brazilian embassy has announced that the population of Brazil is now more than one-fourth that of the United States.
