COAST GUNNERS LEAD WORLD

SAN FRANCISCO, Feb. 12.—Big gun coast defenses of San Francisco recently took world leadership when, official service reports said, for the first time in history, twelve-inch rifles were fired entirely by directions from the air.

The 14th and 24th Balloon companies sent here from Fort Omaha, Nebraska, conducted these experiments. So far as known, according to official reports, the only previous experiments of this kind, undertaken in 1919 at Sandy Hook resulted in failure.

Battery Mendell, one of San Francisco's big coast defense disappearance rifle batteries, claims the honor of the first battery functioning accurately from aerial control. Twenty-two shots at a pyramidal target, moving at a range of 14,000 yards, included five direct "ship" hits.

This demonstrated that fog or haze making low visibility hereafter will not cripple San Francisco's coast defenses. Balloons at an altitude of 15,000 to 20,000 feet get over the fog, locate the enemy object at sea, and direct the fog-hidden battery's deadly work against the attacker.

Following the big rifle experiments, the balloon companies worked out mortar firing problems from the air, as well as night firing by flares, and tests of tests of new instruments. The balloon companies will be permanently stationed at Roos Field, Arcadium, California, as a part of the Pacific coast defense.

C. J. Tilden, professor of engineering mechanics at Yale university, has been granted leave of absence for a year in order to accept a position as director of highway and highway transport education committee. The committee includes representatives of all governmental, educational and industrial groups interested in the advancement of highways.

Vast quantities of Canadian wheat are moving from Vancouver to Europe through the Panama Canal.

WHY, THEY NEVER DID ANYTHING OF THE KIND!! ENGLAND NEVER HAD THAT MUCH GOLD!!! YOU MEAN TO TELL TELL ME TH--

I MEAN TO TELL YOU THAT I CAN HEAR YOU WITHOUT YOUR SHOUTING LIKE A RED-HEADED HOOK-AND-LADDER CAPTAIN AT A FIRE!!! YOU'RE ARGUING WITH ME, NOT WITH THE REST OF THE WORLD!!!

ACRIMONY IN FIRST HEARING ON IRRIGATION

The opening skirmish of the irrigation battle, revolving about the alleged attempt to legislate Percy N. Cupper, state engineer, out of office, was staged Tuesday night at a general hearing at Salem, in which the engineer, legislators and others took part.

The hearing, according to the Oregonian correspondent, covered a wide range, continuing for more than three hours and was the warmest, most exciting hearing that has been held in the legislature this session.

Engineer Cupper asserted that the attempt in the bill to remove him is a blow at the irrigation policy of Oregon. Ralph Schneelock, Portland bond broker and former member of the state water commission, discussed the methods of financing projects and said that senate bill 83 is aimed to keep California capital out of the state and that he has been selling Oregon irrigation bonds to Californians.

Chairman Is Bitter It was not until toward the end of the meeting that Representative Sheldon suddenly bounced into the arena and said that only the opponents of the bill had been heard and cross-examined in turn.

A general debate raged for half an hour between Burdick, Gallagher, Schneelock, Cupper, Sheldon and one or two other persons, which tapered down to a finger-shaking contest. Gallagher said that he knew of no irrigation district which wants the bills but he believes they are right.

Everybody Is Interested Mr. Burdick said that when 45 per cent of every dollar in these projects goes to rake-offs, propaganda and cost-plus, every farmer and every taxpayer in the state is interested in these irrigation bills for the reason that the state is guaranteeing this

money. He also said that the gallery at the meeting was made up of a lobby brought to Salem through the activity of the state engineer's office.

Schneelock admitted that he had telegraphed to the Warm Springs and Ochoco districts for the people there to send protests against the bills. Schneelock said that he had arranged the financing of those projects and the people there were under obligations to stand by Cupper now that he is under fire.

The session opened with Mr. Cupper declaring that none of the real irrigationists of Oregon were behind the bills and that none of the irrigation districts in the counties represented by Burdick or Gallagher want the bills.

Discrimination Denied He said that the proponents of the bills first accused him of being too conservative as a state engineer and now they say he is too liberal. Mr. Cupper declared that there has been no discrimination against anyone wishing to enter the field in Oregon and anyone has been welcomed who offered a willingness to finance districts.

"The meat of the whole thing," charged Mr. Cupper, "is that someone wants to exclude California capital from the state. It is not a fight directed against me personally. Messrs. Burdick and Gallagher are friends of mine, and are fighting for something they want."

Discussing projects Engineer Cupper said the Warren Construction company undertook the financing of the Teel project and fell down; that the company undertook the Suttle-Lake and failed, and undertook to finance the Silver Lake project "with the cost-plus contract the same as the press has roasted me for approving."

Laws Declared Unworkable Mr. Cupper contended that the legislation in question, if enacted, will be absolutely unworkable; that making a state engineer a consulting engineer of 60 projects is an impossible task. The measure is vicious, he said, and will set irrigation district programs back for years.

With a great deal of forceful personality, Mr. Schneelock took the floor and offered to accept responsibility for disposing of almost all of the irrigation securities in the state. He claimed part authorship in some of the irrigation legislation of Oregon. He said he peddled irrigation securities, because they are not sold, but peddled.

Mr. Schneelock went on to show that a consulting engineer on 60 projects was out of the question, that the best engineers in the country would not handle more than four and that no engineer with five years' experience on construction is worth a snap of the fingers for consultation purposes.

Cost-Plus Plan Defended As for financing projects, he explained the modus operandi and insisted that the cost-plus system is perfectly legitimate. If this proposed legislation goes through, he warned, he will never do any more financing in this state. He asked if Gallagher's resolution for an investigation would go through the house and the author assured him it would.

In the event that the investigation is made, Schneelock predicted that

these bills will fail. Mr. Burdick observed that when the investigation is made, if it were thorough, he would be quite willing to abide by the decision of the members of the legislature as to whether the bills should pass or be defeated.

LANGELLS VALLEY NEWS

The snow is mostly all gone on the level, but quite a bit still lies back in the timber and in protected places. Will Campbell, B. Morgan and L. Johnson have been riding for horses the last week.

Merle Kilgore sold some fine beef, at Midland, some days ago. He had 3 car loads and received 10c per pound.

Alf Duncan went to Klamath Falls last week.

Mr. Demoree has been driving stage for Mr. Hilton the last week. They report the roads in a very bad shape, owing to the frost having gone out of the ground.

Mrs. Chaney of Bonanza is teaching the school in the Brown district, since the Christmas vacation.

Mrs. David Turner is enjoying a visit from her mother Mrs. Webster and sister, Miss Webster.

Last week all cattlemen who had cattle on Tule Lake rode in that section and brought home the cattle from the lake, among them Fred Hilton, Will Campbell, George Noble, and Cleve Ferris.

Mr. and Mrs. Al Gale had the misfortune to have their horses get away from them recently while visiting Mr. Kestler and had to be taken home by Mr. Kestler.

The Gulf Coast lines are spending \$2,500,000 for new equipment. Five locomotives, 850 freight cars and 4000 tons of 85-pound steel rails have been ordered. The new rail will be laid between Houston and New Orleans, replacing lighter rail now in use.

At a joint convention of the Louisiana Bankers' association and the Louisiana division of the American Cotton association it was decided that bankers would refuse credit to cotton planters who fail to reduce their acreage by one-half this year. Merchants are asked to refuse credit to those farmers who fail to co-operate in the movement.

A SPLENDID POLICY. If you were offered a life insurance policy that did not absorb any part of your premium, in a company that was safe and sound, it is not likely that you would refuse it. In fact the agent offering such a policy would be swamped with business. Well, that is practically what W. A. Bullock, of this city is doing. He is selling a policy in the Occidental Life Insurance Co. of Los Angeles, Calif., that does this very thing. Here is how it is done:

He will write you a policy on the 20 year endowment plan guaranteeing you that in the event of death to return all deposits made by you in addition to the full face of your policy.

Should you become totally disabled from sickness or accident, the company have made special provision whereby you will have no further payments to make and will pay \$10 per month on each thousand dollars of insurance you carry which is not deducted from your policy at death. Besides, your policy matures the same as though you had made the payments yourself.

This is one of the best policies ever offered by any legal reserve company and has other special features just as remarkable as those outlined above. Before you buy that insurance you are thinking about. If you will call Mr. Bullock, 43-W or drop a card to 1405 Oregon Ave. He will be mighty glad to tell you all about it.—Adv.

DRINK HOT WATER BEFORE BREAKFAST

Says you really feel clean, sweet and fresh inside, and are seldom ill.

If you are accustomed to wake up with coated tongue, foul breath or a dull headache; or if your meals sour and ferment, you have a real surprise awaiting you.

Tomorrow morning, immediately upon arising, drink a glass of hot water with a teaspoonful of limestone phosphate in it. This is intended to first neutralize and then wash out of your stomach, liver, kidneys and 30 feet of intestines all the indigestible waste, poisons, sour bile and toxins, thus cleansing, sweetening and purifying the entire alimentary canal.

Those subject to headaches, backaches, bilious attacks, constipation or stomach trouble, are urged to get a quarter pound of limestone phosphate from the drug store and begin enjoying the morning inside bath.

Just as hot water and soap cleanse, purify and freshen the skin so hot water and a teaspoonful of limestone phosphate act on the stomach, liver, kidneys and bowels. Limestone phosphate is an inexpensive white powder and almost tasteless.—Adv.

SAGE TEA KEEPS YOUR HAIR DARK

When Mixed With Sulphur It Brings Back Its Beautiful Lustre At Once

Gray hair, however handsome, denotes advancing age. We all know the advantages of a youthful appearance. Your hair is your charm. It makes or mars the face. When it fades, turns gray, and looks streaked, just a few applications of Sage Tea and Sulphur enhances its appearance a hundredfold.

Don't stay gray! Look young! Either prepare the recipe at home or get from any drug store a bottle of "Wyeth's Sage and Sulphur Compound," which is merely the old-time recipe improved by the addition of other ingredients. Thousands of folks recommend this ready-to-use preparation, because it darkens the hair beautifully; besides, no one can possibly tell, as it darkens so naturally and evenly. You moisten a sponge or soft brush with it, drawing this through the hair, taking one small strand at a time. By morning the gray hair disappears; after another application or two its natural color is restored, and it becomes thick, glossy and lustrous, and you appear years younger.—Adv.

SUMMONS

IN THE CIRCUIT COURT OF THE STATE OF OREGON, FOR KLAMATH COUNTY.

William Jennison, Plaintiff vs Mary Jennison, Defendant.

To Mary Jennison, Defendant. In the name of the State of Oregon, you are hereby required to appear and answer the complaint filed against you in the above entitled suit on or before February 28, 1921, that being the last day of the time prescribed for the publication of this summons and if you fail to so answer or otherwise appear, plaintiff will apply to the Court for the relief prayed for in his complaint, to-wit: for a decree dissolving the bonds of matrimony now existing between plaintiff and defendant and for such other and further relief as to the Court may seem equitable.

This summons is published for once week for 6 weeks by order of the Honorable D. V. Kuykendall, Judge of the above entitled Court made and entered on January 15, 1921.

Date of first publication of this summons is January 17, 1921. R. C. GROESBECK, Attorney for Plaintiff, Klamath State Bank Building, Klamath Falls, Oregon. 17-24-31—Feb. 7-14-21-28

RESOLUTION

The City Engineer pursuant to the resolution of the Common Council heretofore adopted, having under date of the 21st day of January, 1921, filed plans, specifications and estimates of the cost of improving Pine Street from Eleventh Street to Esplanade, including intersections; and the Common Council having taken the same under advisement and finding said plans, specifications and estimates satisfactory,

IT IS HEREBY RESOLVED, That said plans, specifications and estimates for the improvement of Pine Street from Eleventh Street to Esplanade, including intersections, be and the same are hereby approved; AND BE IT FURTHER RESOLVED, that the Common Council hereby declares its intention to improve said portions of Pine Street, in accordance with said plans, specifications and estimates; said improvement to consist of paving said portions of Pine Street with Concrete, Bitulithic or Willite. The estimated cost of the improvement of said portions of said street by placing thereon either Concrete, Bitulithic or Willite to be \$12,662.90, said cost including grading, rolling, curbing and cement sidewalk. AND BE IT FURTHER RESOLVED, By the Common Council that the following described property be and

is hereby declared benefited by said improvement, to-wit:

Lots 5, 6, 7, 8, 9, 10, 11 of Block 2, Nichols Addition to the City of Klamath Falls, Oregon; Lots 1, 2, 3, 4, 5, Block 3, Nichols Addition to the City of Klamath Falls, Oregon; also property described as follows: Beginning at the intersection of the Southerly line of Pine Street with the easterly line of 11th street; thence northeasterly along the southerly line of Pine Street, 120 feet; thence southeasterly at right angles to Pine Street, 65 feet; thence southwesterly at right angles to 11th Street 120 feet; thence northwesterly along the easterly line of 11th Street to the point of beginning; also, Beginning at the intersection of the northerly line of Main Street with the easterly line of 11th street running thence easterly along the northerly line of Main Street, 58 feet; thence northerly parallel with 11th street, 100 feet, thence westerly parallel with Main Street, 58 feet, to the easterly line of 11th street. Thence southerly along the easterly line of 11th street to the point of beginning; also, Beginning at a point on the northerly line of Main Street, 120 feet easterly from the intersection of the northerly line of Main Street and the easterly line of 11th street; thence northerly at right angles to Main Street 240 feet to the southerly line of Pine Street, thence easterly along southerly line of Pine Street 120 feet; thence southerly at right angles to Main Street, 240 feet to the northerly line of Main Street 120 feet to the beginning; also, Beginning at a point on the easterly line of 11th street 65 feet southeasterly from the intersection of the southerly line of Pine Street with the easterly line of 11th street; thence southeasterly along the easterly line of 11th street 75 feet; thence at right angles to 11th street northeasterly 58 feet; thence at right angles northwesterly parallel with 11th street 75 feet; thence at right angles to 11th street southwesterly 58 feet to the point of beginning, all said property being in Nichols Addition to the City of Klamath Falls, Oregon, and that said property above listed and described be and hereby is declared to be assessed for the expense of said improvement.

AND BE IT FURTHER RESOLVED, That Monday, the 7th day of March, 1921, at the hour of 8 o'clock P. M. at the Council Chambers at the City Hall, be fixed as the time and place for the hearing of objections and remonstrances against the said proposed improvement and the Police Judge is hereby directed to cause notice of said hearing to be published as by Charter provided.

STATE OF OREGON, County of Klamath, City of Klamath Falls—ss

I, A. L. LEAVITT, Police Judge of the City of Klamath Falls, Oregon, do hereby certify that the foregoing is a duly enrolled copy of a resolution adopted by the Common Council on the 21st day of January, 1921, declaring its intention to improve Pine Street from Eleventh Street to Esplanade, including intersections, and approving the plans, specifications and estimates of costs submitted by the City Engineer.

A. L. LEAVITT, Police Judge. 9-19

CREAM CLEARS A STUFFED-UP HEAD

Instantly Opens Every Air Passage—Clears Throat Too.

In one minute your clogged nostrils will open, the air passage of your head will clear and you can breathe freely. No more hawking, snuffling, blowing, headache, dryness. No struggling for breath at night; your cold or catarrh will be gone. Get a small bottle of Ely's Cream Balm from your druggist now. Apply a little of this fragrant, antiseptic, healing cream in your nostrils. It penetrates through every air passage of the head, soothes the inflamed or swollen mucous membrane and relief comes instantly. It's just fine. Don't stay stuffed-up with a cold or nasty catarrh—Relief comes so quickly.—adv.
