COUNTY HIGH SCHOOL CORNER

EDITED BY HIGH SCHOOL STUDENTS

Why the Hi School Needs a Gymnasium

Those who are interested in this "High School Corner," cannot have failed to notice our request for a gymnasium. The request has not been very emphatic, but it exists, nevertheless, and only needs a little prompting to spring into activity. Formerly, a kind of gymnasium was made out of what is now the cafeteria of the high school building. This was not very satisfactory at the time and is much too small for the purpose at present.

Last year, a makeshift of a gymnasium room was hastily prepared to accommodate the girls' gymnasium classes. The room was very small and inefficient, but was put up with throughout the year. The students could not do credit to their work in such a poor place and when the weather permitted, they drilled outside. A body of students and teachers went before the school board and pleaded for a high school gymnasium. A half-way promise was given, however, no gymnasium has been seen or heard of since.

This year not only are we minus a gymnasium, but also a gymnasium instructor. Although physical training is compulsory in all schools in the State of Oregon, we have it not. Why is this state of affairs in existence? Why are the students of Klamath county high school denied that, which they are entitled to by law?

Not only do we need a gymnasium building to take physical training in, but we need it, for so many other school activities. Some people have the opinion that the students of high school are dead—have no school spirit, and in general are going to the bad. What chance have we had to show our school spirit? Since the football season is over, there have been no games of any kind. If we had a gymnasium, a basketball team for both the girls and boys would be in existence. Lively school functions would be taking place, and Klamath county high school would show the citizens of Klamath Falls that it was filled with just as good boys and girls as any other high school on this coast—a high school composed of live wires. For all study and no play makes energetic students dull, and they lose interest in school work.

Indeed, many and various are the reasons why we need a gymnasium. Won't you help us to get one? What if it does cost money? You would think nothing of spending thousands of dollars to introduce thoroughbred stock into Klamath county. Why not spend some of those thousands to help make healthy, clean, citizens out of the young people of your county? RUTH DELAP

LAKE EUWAUNA

Lake Euwauna, Queen of glories, With the myriad lights of sunrise, Clear reflected on thy breast, Thou art fair, oh, Lake Euwauna, Fairer far than all the rest.

Lake Euwauna, Winter holds thee, In his cold and death-like clutch, Locking thee from shore to shore. Does this daunt thee, Lake Euwauna, When thou'rt fairer than before?

Lake Euwauna, In the springtime, When the moon is rising high, I would gently steal away 'Cross thy silent, silver breast, And would sail till break of day. VEDA GRIFFITH

AGAINST SCHOOL RULES

Mr. Goetz says that it is against school rules for mice to attend. He said this after a harmless little mouse had caused a great deal of disturbance and excitement in the assembly Wednesday afternoon. The mouse had evidently been living high in the cafeteria. Perhaps, he got a peep at some book of learning, which had been left in the cafeteria, and decided he wanted an education, or just wanted to see the world. As the classes were passing between the sixth and seventh periods, he ventured from his hiding place, and ran down the stairs to the second floor. With one accord, the girls screamed and disappeared, and the mouse, almost as scared as they, hid till the building was once more quiet. Then, he cautiously stuck his nose into the study hall. No one was looking, so he sped across the room. But a frightful scream told that he had been seen—a scream which echoed and reechoed through the building. Soon the assembly was the scene of riot. The girls were standing on the chairs, screaming, the boys trying in vain to catch the frightened mouse. Mr. Goetz who had been called to the scene of action, succeeded in catching the mouse, and order was restored. After the excitement was over, Mr. Goetz sank wearily into a chair. Then, it was that he forbade mice admittance to day school. Can you blame him? JO UPP

HISTORY STUDENTS HAVE BRIEF RESPIRE

The history students were both joyful and sad at the same time last Wednesday. It is possible, although it does not seem probable, it happened this way: Mrs. Carrier the history instructor was sick and unable to be at school, consequently the history classes were dispensed with. The students were very joyful in that they did not have to study for their history recitations. They were very sorry, however, that Mrs. Carrier was ill. Although she demands study and thorough preparation for recitation and therefore is considered "hard" by the students, she is loved and appreciated. RUTH DELAP
