Bakerite Bread 10 cents a loaf is the new price of the bread that has created such a sensation among the housewives of the city. It has that delicious, lasting flavor that could be found nowhere but in home-made bread. It is the result of years of experimenting by the greatest bakers in the world. They sought to devise a method for the production of bread in large quantities and at the same time have it keep to "home-made" flavor so delightful to the palate of the epicurean. That is why Bakerite bread is such a sensational success. You can get it at the Rex Cafe or The Maze—just next door. 24

**THE MONDALE**

It is only on unusual occasions that Klamath Falls folk stop to take a second look at the familiar figure of an Indian, but it was one of those extraordinary occasions at the Mondale last night, when Eagle and Ramona delighted the audience with an act, the only fault of which was that it ended too soon.

Indian costumes and a golden flooded stage created a perfect environment for the artists in their clever impersonations and dancing. Both voices possess that rare combination of sweet tones and clear enunciation.

Bill Hart in a daring screen adventure and a clever comedy completed the bill.
