Packers' Employees To Ask Injunction Against Wage Cut

OMAHA, March 11.—Packing
 house workers in a conference here
 today considered application for an
 injunction against the reduction of
 wages of readjustment of working
 hours, if an appeal which has been
 made to President Harding fails.
 This was announced by Redmond S.
 Brennan, the workers' attorney.

STUDYING REINDEER

JUNEAU, Alaska, March 11.—
 Study of the reindeer of Alaska has
 been undertaken by United States
 government experts at a biological
 survey station established recently
 at Unalakleet, near St. Michaels,
 in the western reindeer country. Dr.
 E. W. Nelson, who is in charge of
 the station, reports that study has
 been made of the parasites and dis-
 eases of the reindeer and already
 means of prolonging lives of the ani-
 mals has been found.

It is reported that since Annette
 Kellerman purchased a house at
 Santa Monica, Cal., and taken her
 daily dip at dawn, the price of alarm
 clocks in that city has doubled.

SALTS FINE FOR ACHING KIDNEYS

We Eat too Much Meat Which Clogs Kidneys, Then the Back Hurts

Most folks forget that the kidneys,
 like the bowels, get sluggish and
 clogged and need a flushing occa-
 sionally, else we have backache and
 dull misery in the kidney region,
 severe headaches, rheumatic twinges,
 torpid liver, acid stomach, sleepless-
 ness and all sorts of bladder disor-
 ders.

You simply must keep your kid-
 neys active and clean, and the mo-
 ment you feel an ache or pain in the
 kidney region, get about four ounces
 of Jad Salts from any good drug
 store here, take a tablespoonful in a
 glass of water before breakfast for a
 few days and your kidneys will then
 act fine. This famous salts is made
 from the acid of grapes and lemon
 juice, combined with lithia, and is
 harmless to flush clogged kidneys and
 stimulate them to normal activity. It
 also neutralizes the acids in the urine
 so it no longer irritates thus ending
 bladder disorders.

Jad Salts is harmless; Inexpen-
 sive; makes a delightful effervescent
 lithia-water drink which everybody
 should take now and then to keep
 their kidneys clean, thus avoiding
 serious complications.

A well-known local druggist says
 he sells lots of Jad Salts to folks who
 believe in overcoming kidney trou-
 ble while it is only trouble.

SAGE TEA TURNS GRAY HAIR DARK

It's Grandmother's Recipe to Bring Back Color and Lustre to Hair

That beautiful, even shade of
 dark, glossy hair can only be had by
 brewing a mixture of Sage Tea and
 Sulphur. Your hair is your charm.
 It makes or mars the face. When it
 fades, turn gray or streaked, just an
 application or two of Sage and Sul-
 phur enhances its appearance a hun-
 dredfold.

Don't bother to prepare the mix-
 ture; you can get this famous old

recipe improved by the addition of
 other ingredients at a small cost, all
 ready to use. It is called Wyeth's
 Sage and Sulphur Compound. This
 can always be depended upon to
 bring back the natural color and lus-
 tre of your hair.

Everybody uses "Wyeth's Sage and
 Sulphur Compound" now because it
 darkens so naturally and evenly that
 nobody can tell it has been applied.
 You simply dampen a sponge or soft
 brush with it and draw this through
 the hair, taking one small strand at
 a time; by morning the gray hair
 has disappeared, and after another
 application it becomes beautifully
 dark and appears glossy and lusc-
 trous.—Adv.

SULPHUR CLEARS ROUGH, RED SKIN

Face, Neck and Arms Easily Made Smooth, Says Specialist

Any breaking out of the skin, even
 flery, itching eczema, can be quickly
 overcome by applying a little Men-
 the-Sulphur, declares a noted skin
 specialist. Because of its germ destroy-
 ing properties, this sulphur prepara-
 tion begins at once to soothe irritat-
 ed skin and heal eruptions such as
 rash, pimples and ring worm.

It seldom fails to remove the ten-
 ment and disfigurement, and you do
 not have to wait for relief from em-
 barrassment. Improvement quickly
 shows. Sufferers from skin trouble
 should obtain a small jar of Men-
 the-Sulphur from any good druggist and
 use it like cold cream.—Adv.

CREAM FOR CATARRH OPENS UP NOSTRILS

Tells How To Get Quick Relief from Head-Colds. It's Splendid!

Get a small bottle of Ely's Cream
 Balm from your druggist now. Apply
 a little of this fragrant, antiseptic,
 healing cream in your nostrils.
 It penetrates through every air pas-
 sage of the head, soothes the in-
 flamed or swollen mucous mem-
 brane and relief comes instantly.
 It's just fine. Don't stay stuffed
 up with a cold or nasty catarrh—
 relief comes so quickly.—adv.

CHIPMUNKS AND MICE PLANTING NEW FORESTS

WASHINGTON, D. C. March 11.—
 Mice and chipmunks are helping to
 reestablish the forests of Oregon
 and Washington, according to officials
 of the forest service, United
 States department of agriculture.
 Studies made by J. V. Hofmann, direc-
 tor of the Wind River forest experi-
 have shown that a large part of the
 young fir growth coming in on burned
 or logged areas in these states is
 not wholly due to seeding by occa-
 sional trees which are left, but in part
 to seed buried by small rodents
 beneath the duff of the forest floor.

In the west mice and other ro-
 dents are usually condemned as
 workers of evil in the forest. They
 often do considerable damage to
 food supplies, and their appetite for
 pine and fir seed is chiefly responsible
 for the abandonment of at-
 tempts to reforest burned-over and
 waste areas by direct seeding meth-
 ods. Sometimes, however, the
 work of these little animals is bene-
 ficial.

"In the Douglas fir region," says
 Mr. Hofman, "the forests produce a
 heavy seed crop every two or three
 years. Rodents collect the seed from
 the cones in large quantities and
 bury them just beneath the surface
 of the soil. Part of the seed thus
 stored away is eaten, but snow and
 soil movement often cover many of
 the hoards so that they are never
 found. When logging operations
 open up the stand, these seed ger-

minate and produce a new stand of
 little trees."

The Wind River experiment sta-
 tion is but one of several similar es-
 tablishments maintained by the gov-
 ernment in the national forests for
 solving forestry problems. In this
 particular case many thousands of
 dollars have been saved annually
 to western lumbermen through the
 assistance of rodents in restock-
 ing cut-over lands. This is one ex-
 ample of the value of the experi-
 ments being carried on by these sta-
 tions, which are so important to the
 perpetuation of our forests and de-
 pendent industries.

In the Pacific Northwest \$50,000
 annually is needed for this work, and
 only through adequate funds can
 much needed results be secured.

DEVELOPING AMAZONS

STANFORD UNIVERSITY, Cal.,
 March 11.—American women are
 getting taller and heavier, Dr. Cleli-
 Duel Mosher, medical adviser for
 women at Stanford University, has
 announced after comparing records
 of 4023 women who have entered the
 university during the past 30 years.
 Modern fashions and increased
 physical activity among women are
 given as reasons for the increases.
 The present styles, Dr. Mosher said,
 do not interfere with physical growth
 as did the styles of other genera-
 tions.

Resigning from the vice presi-
 dency of a bank to become an oil
 driller a Texas man will don overalls
 to learn the driller's game "from the
 surface down."

Births are outnumbering deaths
 in France for the first time in years.
 This is the most encouraging symp-
 tom of the country's recovery from
 the war's ravages.

Contrary to general belief the
 American Indian is increasing slowly
 in numbers according to the In-
 dian commissioner.
