Klamath Falls Should Manufacture

A surplus of windows, doors and mill products should be manufactured here and shipped to the outside. INSTEAD thousands and thousands of dollars are sent out of Klamath Falls every year for these products which should be produced by HOME PAY ROLLS. To manufacture any article at the lowest possible cost, VOLUME IS NECESSARY. Doors and windows cannot be manufactured by the dozen as cheaply as by the hundred, nor as cheaply by the hundred as by the thousand. VOLUME is what we are trying to build up. We want to manufacture doors and windows in Klamath Falls by the hundred and by the thousand instead of by the dozen. We want our PAY ROLL to be \$50,000 per month instead of \$50,000 per year. Do you realize what that would mean in PROSPERITY TO KLAMATH FALLS?

Our business growth last year was remarkable. We are proud of it. We appreciate the patronage which was accorded us. We shall try to merit still more remarkable growth of business this year; merit it by GOOD SERVICE; HONEST DEALING and FAIR PRICES.
