

## TAKES OVER FIRESTONE'S ENTIRE LINE

O. L. Cowan and J. A. Grant, branch managers for the Firestone Tire & Rubber company, with headquarters at Sacramento, were here yesterday looking over the business field, and concluding arrangements to place their entire line with the O. K. Blacksmith Shop of 439 South Sixth street. Talking about the arrangement today, Dave Kenyon, proprietor of the O. K. Blacksmith Shop, said that their splendid success during the last three years had induced him to take over the entire line, and that the deal in a nutshell is that "if Firestone makes it, we have it."

"It is a fact," explained Mr. Kenyon, "that last year we sold more tires per truck than any other dealer in the United States. The company and we have figures to prove it."

From an era of solid tire sales, Mr. Kenyon will launch his business into one in which pneumatics will be given the same impetus, and as he will handle Firestones exclusively, he will be enabled to give them the attention they deserve. This line includes tires and tubes for autos or trucks in all the different makes, cords, fabrics, non-skids and clear down the line.

This line carries a long list of tire accessories, too.

General blacksmithing is what the O. K. Blacksmith Shop advertises, and includes the heaviest forging, repairing of logging equipment, and in fact this shop does not balk at any work in this line that comes its way. Cold steel and iron, and affiliated materials, are always on hand, also a fairly complete line of auto springs. He will increase the latter line.

The business outlook here looks shining and satisfactory to Mr. Kenyon, and he is placing great store in the opportunity to make another nationwide record in the sale of pneumatics, just as he did with the solid tires last year.

## PUSHES SALE OF PACKARD LIGHT SIX

The Packard Light Six, the magnificent car for which C. L. McWilliams, 36 Main street, recently secured the agency for Klamath and Lake counties, will be shown at the auto show. Mr. McWilliams says that it can be seen just in the rear of the band stand, and that when you look it over you will not be sure whether the band is playing compli-

mentary to its worth as a motor car, or for the edification of the show attendants. It's just the sort of car, Mr. McWilliams, to make any band laud it. says McWilliams, to make any band you could know how well and how carefully the new Packard Six is made. It is built by the same mature and experienced organization that is building the Packard Twin-Six, and that for 20 years has made Packard cars incomparably fine. You can buy this Packard now at its new low price of \$3400, here. This very moderate figure is only the beginning of its economy, for its costs of operation are almost incredibly low. I shall be glad to explain this beautiful car in detail when you drop in to see it at the auto show."

### The Reason.

"I was told your brother was a man of much polish."

"He is. He upset the bottle of it all over himself this morning."

If you are looking for something advertise for it in the classified columns of The Herald.

## THIS STATE IS FULL OF CASE TRACTORS

N. W. Young, secretary of the firm of J. H. Garrett & Son, is one of the auto show's most enthusiastic boosters. Mr. Young has not been a resident of this city very long, but he has already become imbued with the business spirit prevalent here. As he expresses it he is "clear up to his eyebrows in activity." Being thus imbued with this spirit, Mr. Young, with his partners, Mr. Garrett, senior, and Mr. Garrett, junior, have arranged to occupy two booths at the auto show. In one of these booths will be a 10-18 two-plow Case tractor. Mr. Young believes, after investigating conditions, that there are more Case tractors in the state than there are all other tractors

together. The Case tractor is made in two larger sizes, but the two-plow tractor is the logical one to use in this region, the company believes, and so it will be the one to be exhibited.

First of all, this tractor burns kerosene. Needless to point out the economy of burning this fuel. But the four-cylindrical vertical motor, the standardized type used in the automotive industry, placed crosswise in this tractor, is, perhaps, its outstanding asset. This gives a direct belt drive from the crankshaft, and also an all-spur gear transmission. All gears in this transmission are of cut steel and hardened, and run in a bath of oil.

The Case will do field and stationary work with equal facility. It is designed for either. J. H. Garrett & Son have had the agency only a short time, and have not had the opportunity to push its sale, but they are going to make a real beginning

### Cypress Tree Ages Old.

A cypress tree, exhumed from a small asphalt pit in southern California, has lately been identified by the curator of a Los Angeles museum as a relic of the Pleistocene or Glacial age. As such it was contemporary with the mastodon, the saber-tooth tiger and the giant ground sloth. The find is considered the more remarkable, because no living specimens of the cypress are to be found in the vicinity. The tree is in an excellent state of preservation, too, thanks to the action of the enveloping tar. The bark is intact in many spots, and is unchanged except for the discoloration incident to long contact with the bituminous matter of the pit. The tree lacks its roots and smaller branches, but two of the larger are still to be seen.

## PAIGE

On January 21st, the Paige, Daytona Model, 6-66 broke every stock car record for speed when it covered a measured mile in 35.01 seconds—a speed of 102.8 miles an hour.

Today, therefore, Paige stands as the unquestioned stock car champion of the World. And, what is even more, the entire line of Paige 6-66 models is revealed as the most important engineering development of the age.

Take one demonstration in any 6-66 model and judge it for yourself.

That is all we ask.

6-66 Lakewood Green, Passenger Touring Car \$2550 f.o.b. Detroit  
6-66 Lakewood Blue, Passenger Sedan \$2550 f.o.b. Detroit  
6-66 Blue, Passenger Coupe \$2550 f.o.b. Detroit  
6-66 Blue, Passenger Sedan \$2550 f.o.b. Detroit

All models will be exhibited at auto shows throughout the country.

## My Bank

It's not what you earn, it's what you save that makes you.

Many of our customers speak of the KLAMATH STATE BANK as "MY BANK." We pledge the same loyalty and friendship when we say "OUR CUSTOMERS."

## Make Our Bank Your Bank

You never know the power for good a few dollars can work until you get in the habit of seeing them written opposite your name in a Bank Book.

Of course we cannot fall in with every proposition that is put up to us, but this we can do, AND WE DO IT, give careful consideration to every request, not forgetting that it's our business to further your interests whenever possible.

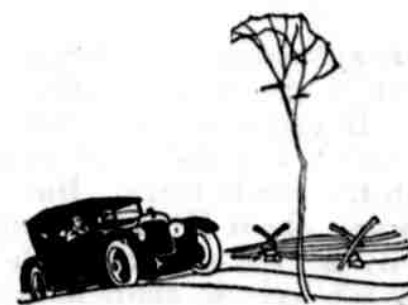

We believe you will like our way of doing things.

**KLAMATH STATE**

**BANK**

Start your dollars our way; it's surprising how fast they grow.

WE PAY FOUR PER CENT ON TIME DEPOSITS

If you will spare us fifteen minutes, at any time during the Auto Show, we will show you in that brief period that the Oakland Sensible Six car embodies a measure of combined efficiency and low cost that is without rival in any other automobile in the world. Visit our display and let us demonstrate the Oakland to you.
