

The Office Cat

BY JUNIUS

A NARROW SQUEAK

Two gentlemen riding on a train were both very much intoxicated.

First Gent—"What time is it?"

Second Gent (after extracting a match-box from his pocket with much exertion and gazing at it intently)—

"Thursday."

First Gent—"My God! I've got to get off here."—Everybody's.

THE FORD HANDSHAKE.

Some of our readers may never have heard of the Ford handshake. This is how it is done: Grasp firmly the hand of the person you are greeting; place feet flat and close on the floor; assume an earnest look, then vigorously "spin" the arm of your victim until he fires up. He is then ready to go.

Jack Thompson avers that the following conversation took place recently in Dorris.

"Sister," said the deacon, severely, "you should avoid the very appearance of evil."

"Why, deacon, what do you mean?" ask the sister.

"I observed that on your sideboard you have several cut glass decanters, and that each of them is half filled with what appears to be ardent spirits."

"Now, deacon, it isn't anything of the kind. The bottles look so pretty on the sideboard that I filled them half way with floor stain and furniture polish just for the sake of appearance."

"That's why I am cautioning you, sister," replied the deacon. "Feeling a little faint, I helped myself to a dose from that big bottle in the middle."

RE-ENFORCED VIRTUE

Teacher—"In what part of the Bible is it taught that a man should have only one wife?"

Little Boy—"I guess it's the part that says that no man can serve more than one master."

IN TERMS OF TAXATION

First Taxpayer—"I hear you have an addition to your family."

Second Taxpayer—"Yes. Both exemptions are doing well."—New York Herald.

WHY, THE EYE DEAR!

Florine—"I won't marry a man who won't look me straight in the eye while he is talking to me."

Chlorine—"Then wear'em longer, dearie."—Stanford Chaparral.

ALL IN FAVOR—

THE AVES HAVE IT!

There was an old burglar who said: "I'll reform now and hold up my head."

He's a landlord today, And his tenants all say "Put him back in the jail till he's dead!"

A woman and her daughter were at sea during a terrific storm. After a silence of some time the mother said: "Are you seasick, dear?" "No, I think not, mother," replied the girl. "But I'd hate to yawn."

"On what salary should a man marry?" asks a morning paper. On his wife's, of course.

Wars may come and wars may go, but war taxes go on forever.

Fred Baker says that some people get into the gallery of immortals on passes.

CASE CONTINUED.

Miss Curves sued an old man named Drury.

And she made an appeal to the jury: She said that one limb Had been injured by him; But the jurymen were from Missouri.

NEAR MURPHY'S PLACE

(Ashland (Va) Herald-Progress) hat might have been a serious accident in Richmond the other day when an auto skidded and struck a lady in the safety zone.

Four-Year-Old Town Has 7,000 People

FOUR YEAR plami LYNCH, Ky., March 23.—This city is less than four years old and has a population of approximately 7,000 persons, concrete streets and roads, a department store that compares favorably with those of much larger cities, a \$300,000 hotel, a \$1,000,000 bank, the largest coal tippie in the world, an \$5 bed hospital and a church of every denomination represented in eastern Kentucky. In the opinion of R. B. Clayton, secretary of the Harlan County Coal Operator's Association it will be the model mining camp of the country within two more years.

Sitting at the head of the valley of the Poor Fork of the Cumberland river, forty miles above the point where it joins the Clover Fork at Harlan to form the main stream, the town is the base of what is said will be the largest coal operation in the Cumberland mountains when it is completed.

Model cottages for miners and officials are being erected as rapidly as possible. These homes have every modern convenience and are rented at the rate of \$2 per room for houses which are not heated from the central power house and at a figure based on the rate of \$2 per room plus the cost of radiation for homes heated with steam.

The only general store in the community rivals in its appointments and stock any department store in the largest cities of the country.

A \$300,000 hotel has been erected on the highest accessible point in the valley. It is equipped throughout with all modern conveniences.

Concrete roads and streets are being built as rapidly as possible, the roads leading to the various points where the veins of coal in the mountain are expected to be opened.

Harding May Name New Shipping Board Within A Few Days

(Herald Washington Bureau)

WASHINGTON, March 24.—President Harding is expected to name the shipping board members within the next two or three days, Senator McNary, who says the President Saturday, gained that impression and seems certain that former Senator Chamberlain will be one of the first named. President Harding said he had two men in mind either of which would be acceptable as chairman. Admiral Harris, one of the most aggressive men in the navy and a candidate for a place on the board, conferred with the president.

Senator McNary has wired all those interested that there will be no embargo on agricultural products for President Harding is adverse to using his war powers for this purpose. An emergency tariff is certain but it will include some thirty odd items at least and perhaps more. Hops which were not covered in the former emergency tariff, will be in-

cluded in the new one Senator Olcott and others interested in hop growing in Oregon.

General Wood and Cameron Forbes, who are going to the Philippines to report to President Harding, conferred with Secretary Weeks.

Latest Type Logging Locomotive Received By Pelican Bay Co.

A new logging locomotive, the latest type, weighing 184,000 pounds, has been received by the Pelican Bay Lumber company and will be put into service on the main logging line between Kirk and the company's camps as soon as logging starts. It will replace the old engines for main line work, as they will be used on the spurs.

The locomotive was built by the American Locomotive Works, Pittsburgh, Pennsylvania. It is a six-wheeler, oil-burner, super heated and classified among engines as the Prairie type.

Incidentally its trip across the continent gave Klamath county a bit of

advertising as blazoned on the tender's side was the announcement that it was an American Locomotive company product en route for delivery to the Pelican Bay Lumber company at Klamath Falls, Oregon. At least one local resident, returning from the east, read the home-reminding sign as the freight train side-tracked on a Union Pacific spur to let the Pullmans go by.

Advertising brings efficiency.

Klamath Lodge No. 137 I. O. O. F.

Meets Friday night of each week at I. O. O. F. hall, 5th and Main streets. H. H. Ogle, N. G. Chas. Newman, V. G. G. B. Mangue, Secy. W. D. Cofer, Treas.
