TRAPS KILLED WOLF.
DILLON, Mont., March 24.—Bill Gray, a trapper, recently killed a monster timber wolf near here which is declared to have been sought by ranchers for 18 years. The beast was captured in a trap and its pelt measured six feet seven inches.
Ranchers often have seen the wolf but repeated efforts to capture or kill it failed. The stock it killed is thought to have run in value into many thousands of dollars.

Weather Probabilities
The Barometric Pressure of the Cyclo Stormograph at Underwood's Pharmacy has shown but little change in the last 18 hours. You'll Save Money By Remodeling Now

You who have been waiting for lower prices before you laid that hardwood floor, renewed those old walls and ceilings, reroofed the house or barn, or built the garage—this message is directed to you.

Do you know that lumber and building material prices are down forty per cent?

Do you know that you can repair or remodel cheaper than at any time in the past five years?

Do you realize that every day you wait not only inconveniences you but cost you real money?

Building material prices may come down more—we think not—but every day you delay in getting the new garage deprives you of the use of it, and causes you to pay out money for garage rent.

Every day you delay roofing the barn and the home, makes your property more liable to damage from storm. Every day you put off inside repairs the trouble increases and the total expense becomes greater.

Do your repairing and remodeling at the present bargain prices and get the benefit now.
