The Office Cat

ONLY TWO

Women's faults are many. But men have only two: Everything they say— And everything they do.

Moving Picture Modesty

A moving picture actor was suing a company for an immense sum for breach of contract. Upon being cross-questioned by the opposing attorney, as to why he demanded such a sum, he replied:

"Because I am the greatest actor in the world."

Later, one of his friends took him to task for so loudly singing his own praises.

"I know," replied the actor, "it must have sounded somewhat conceited, but I was under oath, so what could I do?"

It is hard for Mr. Harding to find men at once big enough to satisfy the country and small enough to satisfy the politicians. That kind doesn't grow.

ROMANCE

He had been reading knightly romances and grew dissatisfied with the present sordidness of the world. He believed it to be his duty to inject some romance into the daily grind.

On a rainy, muddy day he sallied forth to perform some knightly errand. He beheld a bewitching princess about to step from her limousine upon the dirty pavement. Hastening forward, he spread his fur coat under her dainty feet.

She looked at him in surprise. "Well, of all the damn fools!" she exclaimed.

The Baby Must Be the Receiver of The Firm—Eaton & Eaton, Spankers.

A news dispatch from Redwood City, Calif., says:

"Mrs. Louis Eaton won the right

to spank the Eaton baby. Eaton sued for divorce, alleging that Mrs. Eaton spanked the baby. Mrs. Eaton's counter-suit alleged that Eaton had spanked it first.

Why Not Have a Nice Little Street Parade Just Before the Services.

Rev. R. J. Bennet, Morgantown, W. Va., has hired a brass band to play in his church before and after the sermon. This, he believes, will attract the male element of Morgantown, having noticed that men and boys are always in the front line ranks at circus parades.

Idaho Has Worst Fire Hazards of All U. S. Forests

MOSCOW, Idaho, March 28.—That the fire hazard in the forests of northern Idaho is worse than in any other section of the United States was the statement made here recently by C. C. Delavan, fire assistant on the Coeur d'Alene national forest, in an address before forestry students of the University of Idaho.

"Although north Idaho's rainfall is more abundant than in many other sections, there is practically none during the months of July and August, when forest fires are at their height," he said. "During this period, high westerly winds sweep the timbered sections having a powerful drying effect."

"We have the minimum of rainfall and humidity occurring when the winds, temperature, sunshine and evaporation are greatest, a combination of natural factors which creates an abundance of inflammable material and enables the fire to burn fiercely and spread."

Mr. Delavan recently was detailed to make an investigation of the climatic factors affecting the fire hazard of the northern region, in conjunction with J. A. Larsen, United States forest examiner of the Priest river experiment station.

CONSOLIDATION IN LAND OFFICE

(Herald Washington Bureau) WASHINGTON, March 28.—Consolidation of many of the land office positions of register and receiver is proposed by Secretary of Interior Fall, and if his plan succeeds, as it apparently bids fair to do, many offices in Oregon will be affected.

Secretary Fall prepared a bill embodying his plan and submitted a copy of it to Chairman Sinnott of the public lands committee, and has called for his comments on the proposed measure.

Secretary Fall desires the change for the purpose of economy where the offices may be combined without impairing efficiency. He says in his letter to Chairman Sinnott that land offices will have to be maintained in many places on account of long distances for travel were they abolished, but the consolidation may be made in many places. The bill gives the president authority to consolidate the offices of receiver and register by executive order.

It fixes the salary at \$500 per annum plus all fees and money heretofore received by both register and receiver of land offices, but makes a limit of all reimbursements of \$5000, per year. Secretary Fall believes a large amount of money may be saved and many employees eliminated from the service, due to duplication of the work at present.

FT. KLAMATH RANCHER BUYS HERD OF FEEDERS

Anyone who wants to go into the range country to buy cattle now is viewed with suspicion. James H. Meckwith of Fort Klamath, registered on the Imperial, has been on a buying tour in central Oregon and says that apparently he is the only man who was out to buy. "I've got a big ranch and lots of grass so I decided to take a chance and buy some more cattle," he explained. "I gathered up about 200 head and have them feeding on \$7.50 alfalfa at Pilot Rock. In about 30 days, when the snow has disappeared from the vicinity of Crescent, we will walk them to my ranch in Klamath. They will cover a distance of about 15 miles a day. I bought fine stock for \$2 a head less than the owner was offered and refused last fall, and he has had to feed them all winter." Mr. Meckwith usually sends his stuff to the California market, which is more convenient than shipping to Portland.—Oregonian.

FROM CHURCH TO CLUB.

HEALDSBURG, Cal. March 28.—Members of the Healdsburg post of the American Legion are demolishing an old Seventh Day Adventist Church here and will use the heavy redwood in the building for a Legion clubhouse. The timbers in the church were taken from nearby forests and cut at a rude mill set up by the church members. The church was abandoned when the Adventists moved to St. Helena and Mountain View.

YAKIMA VALLEY APPLE CROP BIG THIS YEAR.

YAKIMA, Wash., March 28.—Barring unforeseen disaster the Yakima valley apple crop this year will be close to 12,000 cars, according to state department of agricultural workers. It is estimated that 9,000,000 boxes will be required to pack the 1920 crop, which will mean 1,500 cars of lumber at 30,000 feet to the car, or 30 solid trains.

No less than 4,500,000 pounds of paper would be used for wrappers if the crop meets expectations. This would amount to 112 cars of 20 tons to the car. Boxes alone are expected to cost growers about \$1,260,000 this season and wraps \$450,000.

POWER CO. TO SPEND MILLION IN OREGON

SALEM, Or., March 28.—The California-Oregon Power company, with headquarters in San Francisco, has written a letter to the Oregon public service commission to the effect that the corporation is planning to float bonds in the sum of \$1,000,000 for improvements, the greater part of which will be expended in Oregon.

The letter received by the commission was in reply to an appeal addressed to the corporation urging that it take some action to assist in relieving the present unemployment situation.

Local Hi Graduate's Track Performance Startles Bay Runners

The surprise of the California University—Olympic club track meet on the California oval, March 19, was the defeat of the Winged O two-miler, Hunter, by Charles Dorr.

This is Dorr's first season. By winning this event in the remarkable time of 9 minutes, 48 and 4-5 seconds, Dorr showed that he is one of the greatest two-milers ever developed in the west," says the Daily Californian. "The time in this event was six seconds faster than the California-Stanford run."

Dorr graduated from the Klamath county high school with the class of '16 and is well-known among the younger set here.

Tying Ty Managers' Worry

Tying Ty Cobb has a new meaning now. It once meant tying him at the plate and on the base. This year it will mean tying the whole Detroit ball club that is being directed by the quickest thinking brain on spikes. But Ty was never tied as a player. Tying him as a slinger will be a bigger job.

OAK FLOORS OVER OLD FLOORS

Oak floors are often found in such costly surroundings that few imagine how little they cost. Very few people realize how much they can get for their money by laying 3/4-inch Oak floors over old floors.

The distinctive modern and artistic appearance of a home, as well as its health and comfort, will be greatly increased by the use of Oak flooring. Oak flooring is rich and cheerful in color, and imparts an air of elegance and refinement to a home.

For permanently artistic floors we recommend Long-Bell Forked Leaf Oak Flooring. It is uniform as to color and texture, perfect as to manufacture and is of superior quality. Its remarkably smooth surface is unsurpassed, and it makes an ideal foundation for a beautiful interior.

Let us know the size of the rooms you wish to floor. You will be surprised and pleased at the figures we can quote you on 3/4-inch Long-Bell Forked Leaf Oak Flooring.
