

PLANS OF GRAIN POOL EXPLAINED

CHICAGO, March 28.—Pooling of farmers' grain, either on a national or local scale, constitutes the outstanding feature of the national co-operating marketing plan proposed by the Committee of Seventeen.

The committee, whose full name is the Farmers' Grain Marketing Committee of Seventeen, is holding state meetings this month preparatory to a ratification conference in Chicago April 6. The committee represents cooperative organizations of farmers interested in grain marketing, prominent among them the American Farm Bureau Federation.

As an alternative to the pooling plans, farmers may sell direct.

The national pooling plan calls for pooling grain with a central agency, selling by grade and then distributing the profits equally to each contributor to the pool. Mr. Gustafson said: "This would operate to give each producer the average price for grains of a certain grade which he contributed to the pool. It would insure the producer the average price for the year. Pooling products in this manner has reached its highest development among the California cooperative organizations."

"Products so pooled pass out of the control of the individual producer and the grain will be sold by the directors of the pool at the time that they deem most opportune."

"Provision is also made for a local pool by members of a single community. In both local and national pools the control is centralized and the selling price averaged."

"The direct sale plan allows farmers who so desire to bring their grain to the cooperative elevators and sell on the current market quotation as is done at the present time at privately owned elevators. Further, they can avail themselves of the warehousing facilities of the cooperative elevators and terminals and not sell until weeks or months later. Producers who dispose of their grain in this manner share equally in the profits of the warehousing facilities, export corporation and other national co-operative departments on the basis of the number of bushels which they deliver to the elevators."

"For those farmers who do not wish to enter a pool or to sell direct, there is another avenue of reaching the markets. One farmer or several farmers who have sufficient grain to make up one or more carloads, may consign grain by the carload through the cooperative elevator to cooperative marketing agencies to be located at the different terminal markets, such as Chicago and Minneapolis. The grain would then be sold at market price upon arrival. By handling his grain in this manner the farmer will pay only the actual overhead cost of marketing it."

"Altogether, we believe the new plan is sufficiently broad to allow the producer to use his own judgment and market his products in the way that he considers best, while, at the same time, he has the benefit of a complete national marketing machine that has no purpose or excuse for existence but to protect his interests and return a larger per cent of the market value to him without infringing upon the rights of his consumer customers. Of these three alternatives, the method of marketing which proves most satisfactory and more nearly returns a price that will make farming profitable, will be the marketing method that will develop and increase in popularity."

"This plan, in fact, we believe but the next orderly step in cooperation that the farmers have already undertaken. Through cooperative elevators they are handling today a great deal of the grain they produce, but their co-operative effort stops at the railroad track. With more than 6,000 of these cooperative elevators in operation the foundation is already laid for a new national marketing agency."

Klamath Pioneer Author of Song

Simpson Wilson of Central Point has composed a song entitled "In the Days Gone By", which is arousing considerable local interest, says the Medford Mail Tribune. Mr. and Mrs. Wilson were married at Linkville, now Klamath Falls, Oregon, July 16, 1867. They were the first couple married in the Klamath land, and one of the very few who escaped being murdered by Modoc Indians, who took the war path in November 1872. Thanks are due Captain O. C. Applegate for his diligence, which Mr.

Harding's Washington Church

Here is Calvary Baptist Church, Washington, D. C., which President Harding will attend for the first time. He worshipped here while a senator. Inset, Dr. W. S. Abernethy of Kansas City, who has accepted a call to preach in the Calvary church at Washington temporarily. He may be offered the permanent place later.

Wilson claims was the means of saving their lives. This song the composer hopes, will meet the approval of his many friends and is dedicated to his "faithful wife" Nancy.

MARINES RESUME RECRUITING BUT KEEP STANDARDS HIGH

WASHINGTON, D. C., March 28.—The marine corps was the first branch of the service to lift the temporary ban on recruiting, when it was announced today that applicants without previous service would be accepted. For the past two months recruiting for the corps has been limited to reenlisted marines only.

Major General Lejeune directs recruiting officers to accept men for either three or four years, the two-year enlistment period being abolished. Physical, moral and mental standards are to be kept as high as possible, and no man who is less than 20 years old, 65 inches in height, and weighs less than 130 pounds is to be accepted. The total strength of the marine corps, when general recruiting ceased last January, was approximately 22,000. It is now slightly under that figure.

CANADIAN POLICE ARE READY FOR OIL RUSH

EDMONTON, Alta., March 28.—The Royal Canadian Mounted Police are making preparations for the arrival of the Dominion government's aviators at Peace River and the inauguration of the proposed aerial service to the north. The intentions of the federal authorities as previously announced, are to put a fleet of seaplanes into use between Peace River and Mackenzie river points. Government geologists, surveyors and other field workers will be transported in this way.

Some of the police buildings at Peace River are being renovated and put in order as living quarters for the air men, of whom about twenty are expected. Workshop accommodations will also be provided. It is understood that the planes are now awaiting shipment from Ottawa and that the service will begin early in the spring.

Although nominated for county coroner in the primary last summer, Dr. Stephen A. Whinery of Grand Rapids, Mich., was not aware of the fact until quite recently, when he was advised to file his campaign expense account.

SEWING CLUB AT CHILOQUIN

(Contributed by Iris Cartwright)

The Chilquin Girl's Sewing Club has twenty-two members, from the ages of 8 to 15 years, and from the 4th to the 8th grades inclusive. The members are: Iris Cartwright, president; Mary Goldthwaite, vice president; Mona Skeen, secretary; Meda Skeen, Georgia Harrison, Jennetta Harrison, Lottie Tibbits, Edna Fitzgerald, Harriet Sampson, Oralla Corbin, Helen Kroesing, Elma Cartwright, Carol Cartwright, Ruth Warren, Sadie Wright, Nora Bagwell, Elizabeth Goldthwaite, Claudine Miller, Katherine Hurst, Violet Henderson, Evelyn Kentner, Gertrude Pitt.

Our local leader is Miss Goodner, the intermediate teacher of the Chilquin school. We meet every Friday afternoon from one to two o'clock.

Our club is one of the largest in Klamath county, but we want to make it the largest and best.

Every one should know how to sew, here is a good place to learn. These clubs are being encouraged all over the state, the main office being at Corvallis, Oregon.

We want to finish our division, which is the first, this year and take the second next year and so on until we have completed the club work.

We are trying to get five more members to join our club, five boys in the 8th grade.

When we have completed all of our lessons, we intend to have an exhibit and let the people see what good these clubs do for their children.

Senators May Name Land Office Agents

(Herald Washington Bureau)

WASHINGTON, March 28.—Secretary of Interior Fall has called upon various United States senators to recommend for appointment candidates for the various land offices throughout the country. In the past many of these appointments were made jointly by congressmen and senators, but this year apparently the matter is to be left solely with senators, but it is expected they will consult with the congressional delegation before submitting names.

In Oregon and all western states there are a number of candidates for each of these offices and the rivalry is more or less intense.

CREAM FOR CATARRH OPENS UP NOSTRILS

Tells How To Get Quick Relief from Head-Colds. It's Splendid!

Get a small bottle of Ely's Cream Balm from your druggist now. Apply a little of this fragrant, antiseptic, healing cream in your nostrils. It penetrates through every air passage of the head, soothes the inflamed or swollen mucous membrane and relief comes instantly. It's just fine. Don't stay stuffed up with a cold or nasty catarrh—Relief comes so quickly.—adv.

The high quality of success that follows advertising in the classified column of The Herald is due to the intelligence of its readers.

I have just received a carload of fine monuments and markers, all new designs. Stop and look them over.

Hot Water Each Morning Puts Roses in Your Cheeks

To look one's best and feel one's best is to enjoy an inside bath each morning to flush from the system the previous day's waste, sour fermentations and poisonous toxins before it is absorbed into the blood. Just as coal, when it burns, leaves behind a certain amount of incombustible material in the form of ashes, so the food and drink taken each day leave in the alimentary organs a certain amount of indigestible material, which if not eliminated, form toxins and poisons which are then sucked into the blood through the very ducts which are intended to suck in only nourishment to sustain the body.

If you want to see the glow of healthy bloom in your cheeks, to see your skin get clearer and clearer, you are told to drink every morning upon arising, a glass of hot water with a teaspoonful of limestone phosphate in it, which is a harmless means of washing the waste material and toxins from the stomach, liver, kidneys and bowels, thus cleansing, sweetening and purifying the entire

alimentary tract, before putting more food into the stomach.

Girls and women with sallow skins, liver spots, pimples or pallid complexion, also those who wake up with a coated tongue, bad taste, nasty breath, others who are bothered with headaches, bilious spells, acid stomach or constipation should begin this phosphated hot water drinking and are assured of very pronounced results in one or two weeks.

A quarter pound of limestone phosphate costs very little at the drug store but is sufficient to demonstrate that just as soap and hot water cleanses, purifies and freshens the skin on the outside, so hot water and limestone phosphate act on the inside organs. We must always consider that internal sanitation is vastly more important than outside cleanliness, because the skin pores do not absorb impurities into the blood, while the bowel pores do.

Women who desire to enhance the beauty of their complexion should just try this for a week and notice results.

AN OLD RECIPE TO DARKEN HAIR

Sage Tea and Sulphur Turns Gray, Faded Hair Dark and Glossy

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome.

Nowadays we simply ask at any drug store for "Wyeth's Sage and Sulphur Compound." You will get a large bottle of this old-time recipe improved by the addition of other ingredients, at very little cost. Everybody uses this preparation now, because no one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, thick and glossy and you look years younger.—Adv.

sore, water scalds and you are obliged to seek relief two or three times during the night.

ITCHING ECZEMA DRIED RIGHT UP WITH SULPHUR

Any breaking out of the skin, even fiery, itching eczema, can be quickly overcome by applying a little Mentho-Sulphur, says a noted skin specialist. Because of its germ destroying properties, this sulphur preparation instantly brings ease from skin irritation, soothes and heals the eczema right up and leaves the skin clear and smooth.

It seldom fails to relieve the torment and disfigurement. Sufferers from skin trouble should get a little jar of Mentho-Sulphur from any good druggist and use it like a cold cream.—Adv.

ADMINISTRATOR'S SALE

IN THE COUNTY COURT OF THE STATE OF OREGON FOR THE COUNTY OF KLAMATH.

In the matter of the Estate of Thomas Devrow Stiles, Deceased. BEULAH STILES, Administratrix of the Estate of Thomas Devrow Stiles, deceased.

W. C. VAN EMON, Attorney at law. 7-14-21-28-4

IF KIDNEYS ACT BAD TAKE SALTS

Says Bachache Is Sign You Have Been Eating too Much Meat.

When you awake up with bachache and dull misery in the kidney region it generally means you have been eating too much meat, says a well-known authority. Meat forms uric acid which overworks the kidneys in their effort to filter it from the blood and they become sort of paralyzed and loggy. When your kidneys get sluggish and clog you must relieve them, like you relieve your bowels; removing all the body's urinous waste, else you have bachache, dizzy spells; your stomach sour, tongue is coated, and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment, channels often get
