

WOMEN ARE NOT YET POLITICAL EQUALS OF MEN

CHICAGO, March 30.—Granting of woman suffrage has not yet given women full rights with men in a large part of the United States, it is indicated by a survey of the middle and south west made by The Associated Press. In only a quarter of this territory, it appears, do women stand unmistakably on an even footing with men.

The discriminations where they exist are, however, for the most part small. The chief disability lies in the right to sit on juries.

The stumbling block in this case is generally a constitutional provision that jurymen must be males. Removal of the disqualification has been urged in a number of legislatures this winter.

Other exceptions women are under in various states include these:

In Iowa, they cannot sit in the legislature.

In Wisconsin, they cannot serve as a legislative employee.

In North Dakota, they do not pay poll tax.

In Texas, Oklahoma, Missouri, and South Dakota women are regarded as barred from jury duty by constitutional provision or statute.

In Nebraska, although an Omaha woman recently set on a jury, existing law makes this irregular. In Kentucky, a portion at least of the circuit judges believe that the use of the masculine in the statute does not bar women from jury duty, as women have served on a circuit court jury in Jessamine county and on both petit and grand juries in Laurel county. There has been no opinion by the Kentucky attorney general or the courts.

In Minnesota the attorney general has held that women cannot serve on juries, but several district court judges have held otherwise and admitted them to juries. In Illinois until the supreme court rules definitely judges are permitted to determine for themselves whether women shall serve as jurors.

The North Dakota legislature recently passed a law permitting women to serve on juries but not requiring such service.

In Indiana the legislature has just received a discrimination by enacting that the father and mother jointly, if living shall be the natural guardians of their children, instead of the father alone.

Iowa women contemplate effort to have their inability to sit in the legislature removed through an approaching constitutional convention. Otherwise they enjoy full rights with men.

What Chance Did Dad Have?

"Dad, I lost my commutation ticket today. It slipped out the car window. Will you please give me money enough to get a ten-ride ticket? There are only five more working days in the month, so I'll need only the ten rides. Now, dad, you can't ask me to take it out of my allowances. It simply can't be done. Anyhow, one of your old corporations declared a dividend recently, and I didn't have to ask you for any money for two weeks. That saved you \$50, and the ticket is only \$10. Why, dad, you are \$25 ahead at that! You're making money off your own son! You can't do that! It isn't being done this year. . . . I knew you would feel as I do about it. Thank you, dad."—Indianapolis News.

Lake Transportation To Move Coal Supply

PHILADELPHIA, March 30.—To expedite the movement of coal to ports on the Great Lakes when lake shipping reopens this spring, the Pennsylvania railroad is loading lake coal boats tied up for the winter at Cleveland, Erie, Ashtabula and Sandusky. The plan is being carried out for the first time this year. It will enable the lake boats to move coal cargoes, aggregating about 200,000 tons as soon as lake ports are again reopened.

Normally about 28,000,000 tons of coal are delivered by the railroads at the lake ports during the shipping season. Most of the coal is destined for Duluth for industrial uses and railroad fuel in interior points in the northwest, about 200 coal boats being engaged in the traffic. The Pennsylvania Railroad carries approximately 20 per cent of the coal, principally from the central region of its system.

Under the early loading plan it is expected that a great deal of the congestion and delay attending the movement of coal when the lake shipping season opens will be avoided.

WEED TO KEEP JULY FOURTH

Weed will have a Fourth of July celebration this year under the auspices of the Weed post of the American Legion, and according to Adjutant J. A. Murphy it is going to be the biggest affair ever staged in northern California.

Klamath Falls is invited to cooperate in the Weed celebration.

Weed has heretofore been a wall flower among her sister towns in the matter of public observances, says the adjutant in announcement to the press, but proposes to celebrate the national holiday this year in a manner that will show the neighbors that it was a courteous consideration for their celebration plans that caused her to side-track, and no feeling that Weed didn't know how to put on the latest thing in celebrations.

A safe and sane Fourth is the central idea of the project and one of the big features will be a ball game between two of the best teams north of Sacramento on the most modern diamond in northern California.

Hot Water Each Morning Puts Roses in Your Cheeks

To look one's best and feel one's best is to enjoy an inside bath each morning to flush from the system the previous day's waste, sour fermentations and poisonous toxins before it is absorbed into the blood. Just as coal, when it burns, leaves behind a certain amount of incombustible material in the form of ashes, so the food and drink taken each day leave in the alimentary organs a certain amount of indigestible material, which if not eliminated, form toxins and poisons which are then sucked into the blood through the very ducts which are intended to suck in only nourishment to sustain the body.

If you want to see the glow of healthy bloom in your cheeks, to see your skin get clearer and clearer, you are told to drink every morning upon arising, a glass of hot water with a teaspoonful of limestone phosphate in it, which is a harmless means of washing the waste material and toxins from the stomach, liver, kidneys and bowels, thus cleansing, sweetening and purifying the entire alimentary tract, before putting more food into the stomach.

Girls and women with sallow skins, liver spots, pimples or pallid complexion, also those who wake up with a coated tongue, bad taste, nasty breath, others who are bothered with headaches, bilious spells, acid stomach or constipation should begin this phosphated hot water drinking and are assured of very pronounced results in one or two weeks.

A quarter pound of limestone phosphate costs very little at the drug store but is sufficient to demonstrate that just as soap and hot water cleanses, purifies and freshens the skin on the outside, so hot water and limestone phosphate act on the inside organs. We must always consider that internal sanitation is vastly more important than outside cleanliness, because the skin pores do not absorb impurities into the blood, while the bowel pores do.

Women who desire to enhance the beauty of their complexion should just try this for a week and notice results.

blesome. At little cost, you can buy at any drug store the ready-to-use preparation, improved by the addition of other ingredients, called "Wyeth's Sage and Sulphur Compound." You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. MEAT CAUSE OF KIDNEY TROUBLE

Take Salts to Flush Kidneys if Back Hurts or Bladder Bothers

If you must have your meat every day, eat it, but flush your kidneys with salts occasionally, says a noted authority who tells us that meat forms uric which almost paralyzes the kidneys in their efforts to expel it from the blood. They become sluggish and weaken, then you suffer with a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sour, tongue is coated and when the weather is bad you have rheumatic twinges. The urine gets cloudy, full of sediment, the channels often get sore and irritated, obliging you to seek relief two or three times during the night.

To neutralize these irritating acids, to cleanse the kidneys and flush off the body's urinous waste get four ounces of Jad Salts from any pharmacy free; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate sluggish kidneys, also to neutralize the acids in urine, so it no longer irritates, thus ending bladder weakness.

Jad Salts is inexpensive; cannot injure, and makes a delightful effervescent lithia-water drink.—Adv.
