Fifteenth Year.—No. 5083.

KLAMATH FALLS, OREGON, THURSDAY, MARCH 31, 1921.

PRICE FIVE CENTS

WAR THREATENS IN EFFORT TO REGAIN THRONE

VIENNA, March 31.—Reports received by various newspapers say that the ex-emperor, Charles, has proclaimed a military dictatorship at Steinamanger, and that General Lehar was said to be ready to march to Budapest at the head of 15,000 troops and by force, if necessary, restore Charles to the throne.

LONDON, March 31.—An Exchange Telegraph dispatch from Paris says that it is reported the majority of Hungarian troops have rallied to the standard of the former Emperor, Charles, and will march on Budapest.

There is no confirmation from other sources that the troops will join Charles. Direct advices from Hungary have not indicated support for the ex-ruler in military circles.

VIENNA, March 31.—Republicans here exultantly declare that Charles' recent visit to Budapest and the fiasco attending his attempt to regain the throne has dashed any chance for the restoration of the monarchy, either in Hungary or Austria.

Monarchists reluctantly admit that the restoration of the ex-emperor seems impossible.

VIENNA, March 31.—The Welner Journal reports 30,000 Jugo Slav troops are massed in Vaaradin, Croatia, with the intention of marching on Steinamanger and preventing the restoration of the Hapsburgs.

VIENNA, March 31.—Unofficially reported that Admiral Horthy, Hungarian regent, has resigned, but the report is not confirmed. It is also reported Ex-Emperor Charles is on the way to Budapest from the frontier and that the army adhering to his cause is moving.

Arrested For Theft At the Bath House

Harry Fonville, said to be about 22 years old, was arrested this morning by Patrolman Wynn and McDonald, on a charge of larceny brought by M. A. Mann, proprietor of the Hot Springs bath house. Fonville is charged to have taken some cigars from the tobacco and soft drink stand at the bath house.

The officers took Fonville to the police station and detained him until a warrant was secured by Mr. Mann. The warrant was served by Constable Morley.

Pomp and Ceremony Mark Burial of Patriot Prelate at Baltimore

BALTIMORE, March 31.—With all the splendor of a ceremony centuries old, Cardinal James Gibbons was buried today. Archbishop John Bozano, apostolic delegate at Washington, celebrated the pontifical requiem mass. Archbishop Glennon of St. Louis delivered the funeral oration.

FARM BUREAU SECRETARY OPENS PRIVATE OFFICE

Mrs. E. L. Davis, secretary of the county farm bureau, is opening an office in Room 16, Loomis building, as public stenographer and accountant. Mrs. Davis will prepare income tax reports, audit books and open new sets of books for incoming firms.

Engaging in the private business venture will not deprive the farm bureau of her services, but the secretarial work of the farm bureau will be done in her new office instead of in the farm bureau office in the Swanson building.

KLAMATH PEOPLE ARE SEEING SIGHTS IN THE SOUTHLAND

Among the visitors from Oregon registered recently at the tourists information bureau at Tampa, Florida, were the following from Klamath Falls: Charles L. Hoffman, Sr., R. E. McCanny, and Mr. and Mrs. W. P. Johnson and son.

Haste Required of Those Who Want In On Stock Shipment

There are more than enough orders for a carload of dairy stock and not enough for two cars, said E. H. Thomas, county agent today. He urges dairymen to hasten to place orders with the farm bureau if they desire to get part of the consignment of purebred and grade stock that will be imported.

The farm bureau's order will be placed the first of next week. If no more orders are received one car will be ordered. If a few more persons come in to make up the second car, two carloads will be secured.

SCOUTS LAY SPRING PLANS

The executive committee of the Boy Scouts met yesterday in the chamber of commerce rooms and made plans for scout work during the spring and summer. The members at this meeting were M. S. West, chairman; W. O. Smith, T. B. Walters, Judge D. V. Kuykendall, A. C. Yaden, and Scout Commissioner Goetz.

Troop No. 2 will meet in the chamber of commerce rooms this afternoon at 3:40 to make plans for an outing on Saturday. E. G. Beauchamp heads this troop as scoutmaster, and Ted Montgomery is his assistant.

The committee for troop No. 4 will meet in the Riverside school this afternoon after school hours to complete its enrollment. R. E. Wright heads this troop.

Two Orchestras to Keep Dance Moving

The musicians' dance which will be held in the Scandinavian hall tomorrow night will feature a musical innovation. Two orchestras will play, one at either end of the hall. As soon as one orchestra stops playing, another one will begin, and the dancers are assured of one continuous round of pleasure. Refreshments will be served, gratis. This is the first dance to be given by the musicians; but others will follow frequently during the season.

Personal Mention

W. C. Lehman, of the Crater Lake Oil & Gas company, came up from Merrill this morning on business. Everything is well with the new company, he says.

Mr. and Mrs. H. F. Dunn are here from Algoma.

Mrs. J. G. Hilyard, of the Henley district, was shopping among local merchants yesterday.

Mrs. Pierce Combs and little daughter, with Mrs. J. F. Simpson, who has been their guest for a few weeks, left for Mrs. Simpson's home in Jerome, California, this morning, and will visit for some time.

Mr. and Mrs. James Bishop Foster have a new eight-pound girl at their home, the stranger arriving this morning.

Takes Steps For Peace In Ireland

BELFAST, March 30.—Cardinal Logue, primate of Ireland, was interviewed Tuesday by Sir William Gauring, a prominent railroad man; and three other southern Irish unionists with the object of opening peace negotiations between the Irish republican parliament and the British government.

CONFIRMATION OF BOND ISSUE ASKED OF COURT

Burrell Short, G. J. Hilyard, and C. W. Miller, directors of the Enterprise Irrigation district, have been notified by Judge Kuykendall of the circuit court that a hearing for the purpose of confirming the election for the issuance of additional bonds in the amount of \$15,000 for general expenses will be held at 2 o'clock on the afternoon of May 3. The election was held on March 23, and carried by a top heavy majority. This district begins at the Enterprise ranch south of town, and runs southeast along the canal.

HARDING PUTS SERVICE FIRST IN HIS POLICY

WASHINGTON, March 31.—President Harding is proceeding early in his administration to carry out the spirit and the letter of that section of the Constitution prescribing his duties which provides that he shall, from time to time, "give to the Congress information of the state of the Union and recommend to their consideration such measures as he shall judge necessary and expedient." Although Congress is not in session, President Harding is in frequent communication with the legislative branch of the Government through conferences with chairmen and other members of important committees.

A few decades ago when the business of the national government was much more limited in its scope it was sufficient for the President to communicate with Congress through the formal messages which were transmitted at the opening of each session or while the legislative bodies were in the midst of their work. But the work of the Government has become so extensive that Congress is practically in constant session and the problems that arise are so numerous and so complex that they can not be adequately handled in a formal and comprehensive message.

Although Congress is now in recess it is, for all practical purposes, hard at work, for some of the more important of the committees are giving immediate and exhaustive study to problems upon which action must be taken at the special session which has been called to convene in April. By means of this preliminary work on the part of committees the work of the session itself is not only expedited but is made much more satisfactory in results. By accumulating a large amount of information and securing the views of various conflicting interests, the heads of committees are able to present early in the session practically all of the information that will be needed in determining the best course to pursue. By communicating to the committees in an informal way the recommendations he desires to make and the information he possesses "of the state of the Union," President Harding assists very materially in facilitating the work of Congress.

Among the subjects concerning which he has communicated with important committees are: reenactment of the Panama Canal tolls provision which gave free passage through the Canal of American coastwise shipping; revision of the Internal Revenue laws; co-ordination of the several departments with a view to economy and efficiency.

In addition to these subjects which have been discussed with committees of both Houses of Congress, the President has conferred with Senators concerning foreign relations and appointments—subjects which require the approval of the Senate but not of the House of Representatives.

WEATHER REPORT OREGON—Tonight and Friday, probably showers; warmer tonight.

SUPPLIES RECEIVED FOR PLUMBING COMPANY

Shannon & Lagason, proprietors of the Klamath Falls Plumbing & Heating company, in the Helms building on Main street, received a large shipment of fixtures and supplies yesterday, and are ready to take care of any business in their line. This firm was established only a short time ago, the proprietors coming here from Portland on the advice of wholesalers who said that this city is the best city in the state aside from Portland.

SUIT ON AUTOMOBILE

The Electric company of this city has filed suit to foreclose a lien on a Lexington car, owned by C. R. Marple, to secure payment of \$70.53 said to be due for services performed in repairing the car.

MARKET REPORT

PORTLAND, March 31.—Cattle and hogs, weak; sheep steady; eggs unsettled; butter steady.

CUT IN LUMBER RATE EFFECTIVE ON APRIL 13TH.

M. A. Callaghan, manager of the chamber of commerce traffic department, this afternoon received a telegram from G. W. Luce, general traffic manager of the Southern Pacific, stating that the new lumber rates to eastern points would be effective April 13.

The reductions range from 7 to 12 cents. To St. Paul, Kansas City and Missouri river points the new rate is 66 1/2 cents; to St. Louis and Chicago territory, 73 cents, and to Mississippi river points south of Cairo, Illinois, 68 cents.

The new rate abolishes the cent to cent and one-half differential between Klamath Falls and Weed, and reduces the Bend differential.

The rates will reduce the competitive handicap for western lumbermen in the middle western markets, which exists through nearness and better and cheaper transportation facilities for mills operating in the southern pine belt.

Local lumbermen do not generally expect miraculous restoration of trade because of the reduction—it is not large enough for that—but they welcome it as a step in the right direction and the herald of further readjustment as the railways work out their own economic problems.

One of Younger Set Gets Into Print, In Illustrated Sketch

"We have with us," says the Volt, the California Oregon Power company monthly publication, "Miss Thompson," and accompanies the introduction with a very artistic photograph of Miss Thompson at the age of nine months, adding:

Now that the Company is reorganizing for the future weal of the north country, is there anybody you haven't met? The staff photographer of The Volt has supplied us with the above characteristic study of Miss Thompson, one of the really recent and influential members of the Copco family. She is a resident of Klamath Falls and has given us a camera pose with her coat off to show she is an enthusiastic booster for the balmy climate of her home city. She is at present engaged chiefly in giving Mr. and Mrs. Thompson of that city first-hand instruction in the seven languages of which she is the originator. In the accompanying portrait she is depicted greeting all readers of The Volt with the high sign taught her by her Daddy, which in the vernacular of the Jack Thompson household is "Da-De-Da!"

AILING LAD, PENNILESS, HELD FOR TREATMENT.

Carl Luhmann, about 20 years of age, was picked up by Patrolman Tom Durham last night and lodged in the city jail, where he will be held pending examination of his physical condition. Luhmann, who has been here a week or more, loses control of his faculties without warning, and falls to the ground, sometimes striking on his head and injuring himself. He is somewhat scratched and bruised owing to these falls. His incapacity seldom lasts more than a couple of minutes. Chief Wilson placed the boy in jail in order to avoid serious consequences from these falls, and will take up the matter with the county court. Luhmann says that his parents live at 1597 Treat avenue, San Francisco, and that he came here to look for work. He has no money.

Weather Probabilities

The Barometric pressure, as recorded by the Cyclo-Stormograph at Underwood's Pharmacy, has remained practically unchanged for the last twenty-four hours. This indicates that present weather conditions are likely to prevail for another day, at least.

Forecast for next 24 hours: Continued fair and pleasant with light winds.

Oregon Man Heads New Development Dep't. of U. S. C. of C.

WASHINGTON, March 31.—W. B. Brookings of Brookings, Oregon, head of the Brookings Lumber company, has been appointed permanent manager of a new department of the Chamber of Commerce of the United States, to be known as the national resources production department.

The duties of the department will be to stimulate and develop the exploration, survey and utilization of all the natural resources of the United States.

NEUF, SIMMER ARE RELEASED

WASHINGTON, March 31.—The War Department announced that Carl Neuf and Franz Simmer, Americans imprisoned in Germany for an attempt to kidnap Grover C. Bergdoll, draft evader, were released at noon today. The release was ordered by the Berlin foreign office. Brigadier General Allen, commanding at Coblenz, reported sentences were remitted, pending good behavior. Neuf and Simmer will probably reach Coblenz tomorrow.

Satisfied With His Advertising Results

"We are getting great results from The Herald classified advertisements. We have orders for more than 5000 chicks and several hundred pullets from Klamath Falls and vicinity."

So says Manager Harris of the Maywood Poultry Farm, Corning, California, in a letter to The Evening Herald.

The results that he speaks of were obtained in a comparatively short time, since he started advertising March 19, and until recently the weather has not been favorable to the importation of the young chicks.

Box Shook Operator Back; Sees Small Change In Market

G. A. Krause, of the Klamath Manufacturing company, came home last night after spending about ten days in San Francisco on company business. While in San Francisco, Mr. Krause had an opportunity to study the lumber and box shook situation, and he finds conditions which have prevailed for months are not much changed. The orange growers have one of the largest crops in the history of the state of California, but freight rates and the lack of demand in the east is militating against them, making the revival of the shook market very gradual.

ENGLISH COAL MINERS WALK OUT IN WAGE WAR

LONDON, March 31.—Coal miners began leaving the pits in various districts today, following the union's decision to call a strike at midnight because of failure to settle the miners' wage demands. The government announces it will rigidly ration coal for export.

TWENTY-SEVEN GET DEGREES FROM UNIVERSITY OF OREGON

UNIVERSITY OF OREGON, Eugene, March 31.—Without caps and gowns, without speeches and flowers, quietly and unobtrusively, twenty-seven young men and women were granted degrees by the Board of Regents of the University of Oregon last Thursday. Eleven received the degree of bachelor of arts, six the degree of master of arts, two the degree of bachelor of science in education, and three the degree of bachelor of business administration.

ARCHDEACON AND BISHOP LEAVE FOR THEIR HOMES

Bishop Robert L. Paddock and Archdeacon George Van Waters, who officiated at the confirmation of a class from the Episcopal church in the Odd Fellows hall last night, left for their homes this morning. Bishop Paddock lives in Hood River, and Archdeacon Van Waters lives in Portland.

RATE EXPERTS REFUSE TO BE SCAPE GOATS

Bishop and Bahler, San Francisco rate attorneys, retained by the old Klamath Falls Commercial club and Business Men's association, refuse to accept responsibility for the default of Klamath Falls in the rate hearing at Portland, January 13, last.

The statement was made here that "Bishop and Bahler did not notify any one in Klamath Falls of the hearing, but called upon the Chamber of Commerce for \$800 on account, which the present Chamber of Commerce, naturally, refused to pay.

Having a different impression of the matter, The Herald wired the San Francisco attorneys, who reply that they did notify the Chamber of Commerce on January 14, last, of the hearing, and asked for \$250 for expenses. The full text of their explanation is:

Relative to the notification to Klamath Falls interests of the Portland rate hearing held on January 13th, we wired the Klamath Falls Chamber of Commerce on January 14th as follows:

The interstate commerce commission hearing will be at Portland, Tuesday, January 18th, your organization being complainant for lower freight rates on the Klamath branch. If you desire us to handle the matter wire \$250 as expenses of our attorney and witness and advise names of your witnesses. Immediate answer necessary.

No reply was received to this wire, nor have we since received acknowledgment of any description. We held an interstate commerce attorney and traffic expert in readiness to make the trip and present the case, but their failure to respond caused us to believe that Klamath Falls had abandoned interest.

KESTERSON IS SUING COPCO FOR \$73,000

The California-Oregon Power company has been made the defendant in another big damage suit, as the result of the fire of last September which destroyed the I. E. Kesterson mill near Warden. This suit was filed by the I. E. Kesterson Mill company and several insurance companies, the total amount of the suit being \$157,175.43.

According to the complaint, I. E. Kesterson insured his mill and lumber for \$89,350, and was paid \$83,628.59 when the insurance was adjusted. The total value of the property destroyed, the complaint states, was \$157,175.13, and he claims damages for the difference in these amounts, or \$73,546.54. The insurance companies pray for the remainder of the huge sum mentioned in the complaint.

Negligence by the power company, in stringing its lines, is the basis of the complaint, it being alleged that defective wires fell upon lumber piles causing the fire.

OLYMPIC GAMES FILM READY

A one-reel film on the Olympic games at Antwerp has been received from New York by the extension division of the University of Oregon and is now ready for loan to the schools of the state.

Jacobs Supervisor Of Drainage Dist't.

At a meeting of the land owners of the Klamath Drainage district held in this city yesterday, E. Jacobs was elected supervisor to serve three years. C. R. DeLap was elected secretary-treasurer for one year. M. Motschenbacher continues in his position as president, and R. C. Zuckerman as supervisor. No other business was transacted.

Mr. Jacobs takes the place on the board previously held by P. L. Fountain.
