Bend Mill Starts Season's Operations

BEND, March 31.-Production was resumed this week at the Shevlin-Hixon company mill, meaning the employment of at least 100 additional men at the plant and the beginning of logging operations in the woods one week from today.

Until the market becomes stronger, allowing a more rapid withdrawal of lumber from the yards, one-shift production will continue, J. P. Hennessy, assistant general manager, said. This time of year is normally dull in the box business and the factory will be aperated only to till orders.

The shipping department is putting out from six to eight cars a day, the freight rate cut recently announced by the railroads to go into effect with the ending of March resulting in holding up orders until buyers can take advantage of the reduction, Mr. Hennessy explained.
