REDDING FOLK ARE MIXED ON TIME

REDDING, Cal., April 9.—Painters putting new Roman numerals on the Redding town clock recently mixed the letters and put the "IX" where the "XI" should be and vice versa. When the mistake was discovered, a Redding newspaper told its readers that if they were getting mixed in their time, the trouble was with the clock. "If you see the hands pointing to 'XI' and 'XII' you will know it is 9 o'clock and if you see them pointing to 'IX' and 'XII' please be informed that it is 11 o'clock," the paper said.

LIBRARY RECEIVES AN IMMENSE DONATION.

CORNING, Cal., Apr. 7.—Interest aroused in the Corning Library 22 years ago has resulted in the receipt of a check for more than \$27,000 from the estate of Mrs. Sara C. Bennett, of Nyack, N. Y. The trustees, it is announced, will invest the money in securities, and use the interest in the purchase of new books. Mrs. Bennett became interested in the subject of reading matter for the people of Corning when she invested in Tehama county lands more than a score of years ago.

The Office Cat

BY JUNIUS

When Max Callaghan was working his way up the railway promotion ladder it is said he had a job for a brief space in the claims department. To his desk one day came the following from an old farmer:
"My razorback stood on the track. A week ago today:
Old Forty-nine came down the line And took his life away.
You can't blame me; the pig, you see, Strolled through the cattle gate, So kindly pen a check for ten, The debt to liquidate."
Callaghan very promptly, courteously and firmly drafted the following reply:
"That Forty-nine came down the line And killed your hog, we know, But razorbacks on railroad tracks Have no business to go.
And so my friend we cannot send The check for which you pine. Just plant your dead, place o'er his head, Here lies a Foolish Swine."

It's A Hard Life

"You're short!" we hear Soule hiss, A scowl was on his handsome face, So we sat down and ground out this To help fill our allotted space.

H. J. Matoon asked us to say via the office cat that he has nothing against woman suffrage. He says that if a narrow minded male hypocrite is permitted to vote, why not let a broad minded woman vote?

Most every day you can see some live wire making hay out of the grass that grows under the other fellow's feet.

If cleanliness is next to Godliness, then some folks we have met must be in close connection with Old Nick and his blast furnace.

If a body meet a body
When his throat is dry,
Can't a body ask a body,
"Have a drink of rye?"
Scotch you bet is hard to get,
No matter how we try,
If you don't suspect the toddy
Take his drink o'rye.

"Why, Johnny," said the little boy's mother's friend, "how you are growing!"
"Yes," said the boy, "it is because they water me so much. They give me a bath every day."

Tuff, Ain't It?

(Dictographed in Barber shop)
Barber: "How did you get your mustache in this condition? Guess I'll have to take it off."
Youthful customer: "All right, I tried to steal a kiss from a girl who was chewing gum."

A financial expert advises young men to go in debt. But that advice is not necessary.

Help.

Beneath the soil
Lies Mr. Grove,
He poured some oil
On the kitchen stove.

We'll have compulsory breakfast foods next.

COUNTY AGENTS WORKING UPON UNIFORM LINES

OREGON AGRICULTURAL COLLEGE, Corvallis, Oregon, April 8.—Practically all the county agents in Eastern Oregon have adopted work along the following lines: (1) Adoption of Grimm alfalfa, (2) Application of sulphur to alfalfa, (3) Silos, (4) Pest control, (5) Better livestock.

Many other plans were adopted in different counties. These are common, however, to most counties and are of fundamental importance from an economic standpoint.

For instance, there are more than 50,000 acres of alfalfa land the production of which may be increased from twenty to fifty per cent by the use of Grimm alfalfa.

There are 100,000 acres of alfalfa which will return a ton per acre for every dollar expended for sulphur or land plaster.

The cost of beef, wool and dairy production can be reduced from twenty to fifty per cent by feeding ensilage figuring the cost of ensilage production and feeding value in comparison with hay crops.

In some districts in certain counties, pests, chiefly rabbits and ground squirrels, are destroying more range and crops than the livestock. The Klamath county Farm Bureau handled ten and one-half tons of poison last year for its members at a great reduction in cost. In some counties farm bureau members instead of purchasing livestock indiscriminately at public sales and from speculators, pool their orders and have members of the organization select stock desired.

With difficult financial situations facing the farmers these efficiency factors become more important than ever.

BUILD UP YOUR HOME STATE

Are you more interested in making money plentiful in New York or at home.

Millions in life insurance premiums leave the west annually—most of it never returns for investment.

Why build up a surplus elsewhere to be loaned at a low rate of interest.

Our funds stay here and are invested in farm mortgages, used to build your school houses and roads, pave your city streets and construct water systems.

Development here provides additional labor. Labor employed buys products from the farm, and store.
