According to word received from Mrs. Mamie Boyd-Wagner, she will arrive here in the near future. Her original plan was to be in Klamath Falls before now, but her vocal teacher, Mr. Pasmore, has kept her for some extra work. He wrote Mrs. Zumwalt about Mrs. Wagner's work as follows:

"San Francisco, Mar. 18, 1921
"Dear Mrs. Zumwalt:

"I have just given Mrs. Wagner a lesson, and I am fully convinced that if given the opportunity, she will become one of the most brilliant coloratura of the time. She makes remarkable progress."

In a former letter he says: "Mrs. Wagner is a fine little woman with a voice like silver. There is a wonderful brilliancy and sparkle in her tones, especially in her upper register."

There is no doubt that her concert here will be a most artistic and enjoyable event, and her many friends and admirers, as well as all lovers of music, are looking forward to hearing her. Some day in the near future Klamath Falls will be proud to claim this young woman with the beautiful voice as one of our own girls. She is now on her way to live and study in New York, and there is no doubt as to the successful career that is awaiting her. She hopes and plans to go to Paris within the next two years. Her first teacher, Mrs. Zumwalt, naturally feels satisfaction over the progress her pupil has made. She may take a just amount of credit to herself, for it was due to her teaching that Mamie Boyd developed a voice which was a delight even before she left here. Her other teachers have given written and spoken testimony to the splendid work of Mrs. Zumwalt.

The P. E. O. society will entertain the senior girls of the high school this evening at the home of Dr. and Mrs. H. D. Lloyd Stewart on Alameda street. Games and music will entertain the guests and refreshments will be served during the evening.

The Graduate Nurses Society met yesterday afternoon in the chamber of commerce rooms and gave a program as a memorial in honor of Miss Jane Delano, whose death occurred two years ago yesterday in France. Miss Fricke, county health nurse, gave a paper on the life of Miss Delano, who was president of the Red Cross Nurses association during the war, with headquarters at Washington. After the armistice was signed Miss Delano went to France in the hope that she might better conditions for the Red Cross nurses there and it was during this time that she contracted an illness which resulted in her death. At the close of the program tea was served and a social hour spent.

Mrs. Clarence Underwood entertained the Bridge Club at her home on Seventh street Thursday afternoon. Mrs. G. A. Kruse was a guest of the club and was also the winner of the prize for highest score. Tea was served at the close of the game.

Little Miss Mary Howard was hostess to ten of her young girl friends last Saturday afternoon, the occasion being the celebration of her tenth birthday. The afternoon was spent in games and delicious refreshments were served all departing feeling that it was one of the happiest afternoons of their lives.

A delightful party was given Wednesday evening by Mrs. Herbert Newell at her home in honor of Mr. Fred Payne's birthday. The table was prettily decorated with daffodils and violets and refreshments served. If the candles on the birthday cake tell the truth, Mr. Payne will enjoy single bliss for another year. Among those present were: Miss Emma Berge, Eleanor Torrey, Betty Grey, the guest of honor, and Harold Gray and Wesley Frazer.

The Happy Hour club was entertained by Mrs. R. J. Sheets at her home on South Riverside street Tuesday afternoon. At the close of a delightful afternoon the hostess served dainty refreshments. Those present besides the club guests were: Mesdames Hector, Richardson, Temple, Humphrey, Rex Renner, Summers, Steinmetz, Ed Propst, A. Leach and Jennie Horn.

NOTICE TO DELINQUENTS ON FIRST THREE UNITS OF PAVING

The attention of Delinquent Lien Debtors on the first three paving units is called to the urgency of the situation confronting the Common Council on May First, next. On that date the principal of the remaining outstanding bonds on those units, amounting to \$47,818.53, will be due and payable; and the bonds themselves will be presented for payment to the city treasurer on that date.

There is in the hands of the city treasurer applicable to that purpose \$31,185.02, the difference or \$16,633.51 represents the delinquent principal that must be met besides the accrued interest if the financial integrity of the city is to be maintained. There is no other source than the delinquent Lien Debtors from which the necessary funds can be secured to meet this liability. It is therefore imperatively necessary that the delinquent Lien Debtors awake to that fact and come forward at once with the balance due on his or her assessments in accordance with notice thereof recently received by them.

The Common Council has noted also the amount of delinquencies existing on other paving units, including the first installments on the more recent street improvements and it causes the council to hesitate in ordering new improvements petitioned for until these latter delinquencies are approximately paid up. By order of the Common Council. Dated April 11th, 1921. A. L. LEAVITT, Police Judge. 14-16

A Series of Human Interest Talks on Insurance

What Does Your Banker Think of the Insured Man?

"First, he is prudent," said one banker, "if the applicant for a loan carries ample insurance we know he is providing for the inevitable."

"Banks loan money on the character of the man more than on the proposition submitted. Insurance guarantees that the man's plans will not be sacrificed if he dies," said another prominent banker.

"A man can create a larger estate with a small amount of money by taking life insurance than any other way and he also creates a compulsory saving," said another prominent banker.

"A man with a family should no more go without life insurance than go without food and clothing. A single man should take life insurance for he gets it cheaper and the time will come when he will be sure to need it," commented another banker.
