AN OIL STRIKE WOULD MEAN

PROFITS

An investment in the stock of any honestly promoted oil company always means profits if oil is struck. The big end of these profits always goes to the investors who had the nerve to bet their money BEFORE OIL IS STRUCK. Have you got the nerve to bet your money now? Or are you going to wait till a gusher is struck? You'll be too late for the big profits then.

SEE KELLEY TODAY.

THERE ARE ALWAYS POSSIBILITIES

No one in the world ever knew for sure that oil would be struck, until it actually was struck. It's always a chance; always a possibility. Experts say the chances are good in Klamath Valley. We believe the possibilities are great. We have the courage of our convictions. It was our money which built the Derrick and bought the equipment. We need your money to start the Drill and keep it going 24 hours a day. Will you utake a chance with us? Your possibilities are the same as ours.
