

The most important and most interesting Spring announcement we have ever made

NEVER in our history have we entered a new sea- in a condition to render a more satisfying clothes- service to men and young men than this spring season of 1921.

The reason: The decks are cleared of old merchandise, and we are able to present fresh, new merchandise, at the same moment when the clothing market has become stabilized and prices are down to where they should be.

In meeting the unsettled conditions which existed in the clothing industry during the past fall and winter, we revised our prices to even less than the downward market trend, and thus were able to reduce our stocks to a point, seldom, if ever reached, at the end of a season by any merchant.

New spring styles in

Kuppenheimer Good Clothes

\$40, \$45, \$50, \$55, \$60

You'll be delighted with the new models—the grace and smart lines—the splendid materials; made to the fifty-year tradition of Kuppenheimer quality standards.

"THE OLD SWIMMING HOLE"

Dance Following Show

SUNDAY SPECIAL SHOW

Mack Sennett's greatest 8 reel Comedy success.

"A SMALL TOWN IDOL"

WILL THE Oil Boom

BE IN
Merrill or Klamath Falls?

But few people in Klamath Falls or Merrill ever saw a real oil boom. Very few have any comprehension of what one real oil boom is like. Few seem to realize that we are actually on the verge of one. It's a strange thing that in the towns which have actually had oil booms, the local residents didn't as a rule wake up to their opportunities till the wise ones from the outside had come in and grabbed up most of the big profits in stocks and property.

The first gusher in the world was struck in Beaumont, Texas, about 20 years ago. Beaumont was then about the size of Merrill. When that gusher was struck, people flocked into Beaumont at the rate of a thousand a day for more than a month. An old barber had a ten year lease on his shop at \$12 per month rent. He sold his lease to the first speculator who came along for \$800, the speculator got \$30,000 for it and a bank was started in the old barber shop. The hotel keeper owned his building, (a two-story frame, on a big corner lot, worth normally \$4,000) he sold out the first week for \$12,000, and within one year his property sold for \$160,000.

Stocks in companies which were drilling at the time the gusher came in had sold locally from a few cents to a dollar a share were within a few months worth from \$20 to as high as \$360 a share. Fortunes were made over-night. A hotel waitress got \$22,000 for stock which cost her \$40.

These conditions and opportunities have repeated themselves in every town that has brought in a gusher since then.

Indications which are in plain sight to everybody who will take the trouble to go and see, and facts which are available to all who wish to investigate, indicate strongly that Klamath County will bring in a gusher.

Klamath Falls or Merrill or Ft. Klamath or Bonanza may see just such conditions within a year.

Isn't it important to you to put some money, all you can spare, into the Development work which may help to bring in a gusher?
