IS HISTORY TO REPEAT ITSELF?
Is Klamath Falls to be treated to a plethora of newspapers similar to that of a little over a decade ago? It would seem so, especially if the outcome of events gratifies the wish of the worthless who, for the past two years or so, have been plotting to "put The Herald out of business," because they knew it could not be made a tool for the working out of the crooked schemes evolved by a crooked mind. The latest move along this line comes as a result of the Chamber of Commerce row. Feeling that this is the psychological moment to strike, because they have a supposedly worthy organization to hide behind, these "distinguished citizens" have set afoot a movement, which they privately say is under the patronage of the Chamber of Commerce, to organize a company with a capital of \$30,000. This concern is to publish a morning paper.

Let them forget, we would call to their minds a similar undertaking at the time the courthouse fight started. The Klamath Chronicle was launched on the turbulent waters of the city, to navigate a storm tossed course over a period of a little over a year. Never was a paper launched under more favorable circumstances. Some \$60,000 was sunk on it. Then came the Pioneer Press. Over \$55,000 is charged up against that failure. These were followed by The Northwestern and it was buried under a debt of over \$100,000. During all of this time The Herald, which was the object of attack, travelled its course serenely as it is doing now, indifferent to every assault, until today, as it always has been, it is on a foundation so sound and solid as to be invulnerable to any attack from the outside.

We simply recall these facts because we have heard a great deal during the past week about harmony and cooperation. We have gone along quietly and inoffensively, working as best we might for the best interests of the county, without being aggressively antagonistic, though we have not always met with the cordial approval of some of the gentlemen who once more are so anxious to try their hand at the newspaper game. We are not worried, even if their efforts meet with unrestricted success, for if it is a case of fight we will try and make it so interesting that the one of a decade ago will look like a gentle zephyr. If they, or anyone else, want to start a game of that kind let them do it, and they will find us matching it dollar for dollar and carrying the battle right up to their front door. We like peace, but if there is anyone who likes the other extreme, and have the money to follow it up, why we will do the best we can to accommodate them. So hop to it.

MYRIAD ARMY OF GEESSE ON TULE LANDS

MIDLAND, April 23.—Domnico Frerenico, section foreman of the S. F. of this place says that the lake near the section house, formed by the high water over the tule land, is white with geese for past week as far as he could see. He estimated their number to be a million or more. Mr. Frerenico says he discovered more nests this year than ever before. The geese utilize the dry tule grass for nest making near the waters edge, then they cover the eggs up with feathers and bits of dry tule grass. Mr. Frerenico says more geese have been seen this year than any other year that he remembers. This condition is no doubt due to the fact that the water over the tule land has been higher than usual.

BARNES TRAINED HIPPO STARTLES CIRCUS WORLD

Ever since the Al G. Barnes circus was launched, it has been the owner's boast that every animal on exhibition must be trained to do at least

one novel stunt. No drones are carried with the Barnes show. Last year when a massive, blood-sweating hippopotamus was shipped from Africa, the circus world in one voice declared that at last Al G. Barnes had acquired an animal that

would not yield to his persuasive powers. But they had failed to take into consideration the uncanny ability of the animal wizard who in the past had educated pigs, zebras, camels, llamas, and other specimens of even the lowest types of animal intelligence.

"Lotus" was the name bestowed upon the behemoth and her education covered a space of several months. Now "Lotus" is the pride of the circus owner, who claims that in training a hippopotamus he has accomplished something that no other man ever has been able to do.

So when the Barnes circus comes to Klamath Falls, Monday, May 2, "Lotus" will be one of the features, and she will exhibit a repertory of tricks that will amaze everyone. "Lotus" is the only hippopotamus that ever has been taken from its caged water pool, and displayed in the circus proper. In her promenade educated hippopotamus in the world.

Al G. Barnes circus, stopped off at Midland, Wednesday and Thursday, putting up posters, advertising the circus that is going to be held in Klamath Falls, May 2. He said he stopped off in every city and town along the railroad to advertise the circus.

Harry Quinby from Klamath Falls was a Midland visitor, Tuesday.

Mr. and Mrs. Jelly of Klamath Falls were Midland visitors Thursday. They are in the picture business and were soliciting pictures for enlarging.

LUMBER FOR CASH ONLY

ANNOUNCEMENT TO OUR CUSTOMERS!

Financial and credit conditions have gradually become worse for the past six months, and have at last reached a point where we are compelled to withdraw all credits.

Our pay rolls have to be met with spot cash. Wholesale credits have been tightened and curtailed and in many instances entirely withdrawn. A large portion of our purchases are now spot cash. Our creditors rigidly require immediate payment of accounts as they fall due.

Our own collections have become more and more difficult from month to month until our bills receivable now amount to practically so much Dead Capital. In order to continue business on anything like a sound basis it has become necessary to SELL FOR SPOT CASH ON DELIVERY ONLY, BEGINNING MAY 1ST.

Contractors and others requiring frequent deliveries may avoid the inconvenience of daily cash settlements by making credit deposits in advance.

We greatly regret our inability to longer continue credit accommodations to our customers and trust the public will appreciate the conditions which have made this change in policy necessary.
