## CASH REFUND ON CHEVROLET IF SALES GO

The Chevrolet Motor Company's plan to make cash refunds to the purchasers of 50,000 Model "Four-Ninety" cars brings to light the fact that more than half a million of these models have been sold. This number covers a period of six years' production. In other words, an average of 83,000 "Four-Nineties" a year have been sold since the model was first introduced in the 1915 season. This average is one of the records of the automotive industry, and the 83,000 average is only half the story. For, in the first season less than two hundred "Four-Nineties" were sold. The second season won nearly forty thousand converts to this Chevrolet model.

Since its immediate success the sale of these cars has increased consistently. 1920 purchasers took nearly two hundred thousand "Four-Ninety" cars. This brings the total to more than half a million. And this record has been made by only one model.

Many of the first cars of this model are still running. In fact, it recently became known that one of these has traveled more than 160,000 miles—27,000 miles a year for six years and is still running. The sale of 50,000 more of these models between January 1st and August 1st of this year will enable the Chevrolet Motor company to maintain its average quantity production. And if this is done in such a selling year as this, the company will refund its profits to purchasers—\$70 on open and \$100 on closed models.

Gates to the White House grounds were opened under the first order issued by Warren G. Harding as President of the United States since they have been closed to the public since early in 1917 when the United States severed relations with Germany.

## HAD TO SLEEP IN HIS CHAIR

### PORTLAND MAN WAS IN PAIN ALL THE TIME FROM RHEUMATISM UNTIL HE GOT TAN-LAC—GAINS FIFTEEN POUNDS IN WEIGHT.

"It was six months ago that Tan-lac set me straight and added fifteen pounds to my weight, and ever since then I have been enjoying as fine health as I ever did in my life," was the statement made recently by O. W. Axelson, of 244 Cook avenue, Portland, Ore.

"Seven years ago I had an awful attack of rheumatism," he continued, "and it kept pulling me down until during the past year I wasn't able to work more than half the time. My whole left side became affected and it pained me so I could hardly touch it. My leg was drawn and crooked and if I tried to straighten it out I simply suffered agonies. I was in pain all the time, could never sleep to do any good, and was often unable to lie down and would have to sit in a chair all night long. My appetite went down to nearly nothing and I fell off in weight."

"I had no idea Tan-lac could do me much good after all the many treatment and medicines I had tried had failed, but it proved to be a winner. In a short time the pains commenced to let up and I could straighten out my leg without its hurting me. And in a little more than a month I could not feel a trace of the rheumatism and had actually gained fifteen pounds in weight. This was six months ago and I have not been troubled in any way whatever since. I am in the very pink of condition."

## MOST IRISH FARMERS HAVE KIN IN AMERICA

NEW YORK, April 21.—It is hard to find an Irish farmer that hasn't a relative somewhere in the United States. So says E. M. Newman, travel lecturer, who recently returned from a trip to Ireland to collect material for

an article published in this month's issue of The Mentor Magazine. The tumble-down shack of yesterday has gone from the Irish countryside, Newman says. Now there are neat cottages bordered with flower beds. The war created a demand for the Irish farmer's products, and now he is prosperous for the first time in years.
