

To the Workers of Klamath Falls

During these days of reconstruction and uncertainties it is more than ever important for the citizens of Klamath falls to patronize the industries of Klamath Falls and to buy products which are made at home.

Local industries cannot be expected to grow and furnish continuous satisfactory employment to the workers of Klamath Falls if we spend our money for products manufactured elsewhere.

It is a well-known fact that Klamath Falls workmen are receiving better wages and working under more satisfactory conditions than the workers in competing localities where a good deal of the products that the careless purchaser buys comes from.

It is inconsistent for Klamath Falls workers to use the money earned in Klamath Falls to buy products made by poorly paid workers in other localities. Ask the merchant that you spend your wages with to

Doctor Can Prescribe Nearly 5 Gallons of Beer; 3 of Wine

WASHINGTON, April 23.—An arbitrary limit of four and seven-eighths gallons of beer and three gallons of wine, as the maximum a physician may prescribe at any one time, has been established in the new prohibition regulations which await the approval of David H. Blair, now commissioner of internal revenue.

Final Contracts on Columbia Highway

PORTLAND, April 23.—The state highway commission today awarded contracts for 77 miles of road work, aggregating \$28,173, including virtually the last strip of highway pavement on the Columbia highway between The Dalles and the sea. Twelve and six tenths miles was awarded to the Hauser Construction company.

What Would You Give to Know Positively How Much

OIL

Is Beneath the Klamath Basin?

There is but one way to know; Drill a hole and find out. That is exactly what we are going to do. Every well drilled increases the probability that oil will be struck. Every Dollar invested now helps to hasten the day when we will all know what the Oil Resources of Klamath really amount to.

No one has much money to spare these days, but everybody has a little. One hundred men or women who put in \$25.00 each are doing as much for Oil Development as one man who puts in \$2500. Our incorporators have put in all they can spare (much more than they liked to spare from their other business enterprises.) It was their money that bought the material, machinery and equipment and built the Derrick. If we strike a paying well or a gusher, their profits will be enormous. If we do not strike it, their money will be lost. It's a gamble pure and simple, but it's a gamble in

Prosperity For Klamath and Profits For Investors.

Are you not willing to make a bet, as large a bet as you can afford, on the same proposition, and on the same basis that we are betting?

Money is being invested in Crater Oil and Gas Stock by strangers from remote parts of the country; from California and even from Florida.

If you want to be in on the profits you must also take a chance of sharing the losses. That's true of every business proposition.

It's No Cinch, But It's ONE BIG CHANCE

If we don't strike it, and if you lose a few dollars, you'll never be very sorry. But if we do strike it, and you miss the ONE BIG CHANCE, you'll be awfully sorry.
