

BUICK BUYERS MUST ORDER CARS EARLY

"Not a car in my place and I've the neatest show room in town," said Louis Hoagland of the Buick agency today. "But every one knows Buick quality anyway."

"It is not Klamath Falls alone, the 1921 Buick is in great demand all over the country and there is a decided shortage of these cars, according to Mr. Hoagland. He has just returned from a trip to San Francisco and reports that Buick dealers in the California city have long waiting lists for this year's models."

"For years the demand has exceeded the supply, even when Buick production mounted to over 500 cars daily. Because of the material curtailment of motor car production this winter the country faces a decided shortage of quality cars this season."

"The last official registration list issued by the Motor Vehicle department of the state of California again gives Buick first place over all cars selling in this state above \$1500. Month after month and year after year the Buick has gained in sales until there are over 40,000 Buicks in daily operation in California."

"We would urge all prospective owners to place their orders at once," said Mr. Hoagland, "and even now we cannot offer immediate delivery on these cars. We have the promise of a car load very soon but when we will be able to get another car is uncertain."

Mr. Hoagland reports the automobile business very satisfactory in San Francisco, and dealers there generally predict early return to normal conditions all over the state.

Laughter May Drive Bull Fights Out of Mexico

MEXICO CITY, April 1.—(By Mail)—A question seriously considered here is whether bull fights are to be laughed out of Mexico through the introduction of the "toros bufos" (comical bull fights.)

Serious chroniclers of the Mexican amusement are concerned by the fact that a company of Spanish buffoons has just finished a series of comic fights here with record attendance and attracting almost as much interest as the serious conflicts in which the best matadors in the game have appeared.

They were further agitated when six grills announced themselves as "toreadoras" and, on a Sunday afternoon, succeeded in dispatching six bulls while their clown companions amused the crowd with an-

tics burlesquing every bull fighter known to the game.

"What is to become of the noble sport of bull fighting," inquired one writer, "if, first of all, clowns are allowed to make it appear ridiculous and then senoritas are permitted to enter the arena and attempt a show of skill?"

American visitors to Mexico generally find more enjoyment in the comical fights than in the regular games. In the former no horses are used although the bull is eventually killed. The fighters, who display much skill and athletic ability, perform all sorts of grotesque stunts with the animal before he is dispatched.
