A member of the Wisconsin Historical Society has announced that search for relics of Norse explorers who visited Minnesota in 1262 will be begun this year. It is his belief that the white men visited the northern part of the American continent one hundred years before the arrival of Columbus at San Salvador.

Mamie Boyd-Wagner Here For Concert

Mrs. Mamie Boyd-Wagner arrived from San Francisco Saturday evening for a short visit with her parents, Dr. and Mrs. E. J. Boyd, and will be heard in concert tomorrow night at the Presbyterian auditorium.

The following extract from The Pacific Coast Musician of last week shows what San Francisco critics think of Mrs. Wagner's ability: "H. B. Pasmore, the well-known vocal pedagogue, gave an informal reception in honor of his pupil, Mamie Boyd-Wagner, at his studio, 506 Kohler and Chase building, on the evening of May 12, previous to that young vocal artist's departure on an extended concert tour through the northern states, which will terminate in New York city.

"Mrs. Wagner has a high soprano voice of beautiful timbre and

MAMIE BOYD WAGNER

flexibility that is very rare. Her scale is impeccable even in most rapid passages. Mrs. Wagner has had advantage of studying with several noted teachers, and for the past year has taken technic and interpretation with Mr. Pasmore, attaining most remarkable results."

It will be a treat to hear this silver-voiced singer in Klamath Falls. The program is an excellent one, and there is no disappointment in store for those who are fortunate enough to hear it. Her hard work and unflagging persistence is bringing her success and recognition she richly merits, and entitles her to strong support from her home town.

Added attractions are the program numbers by Mrs. Cofer and Mr. Borel. Mrs. Cofer's piano work is distinguished by a notable brilliancy and sparkling clarity of touch. She will play two compositions by modern Russian composers, which will display her splendid ability.

Mr. Borel will play two numbers in marked contrast to each other. The first is a beautiful and sustained melody set to the accompaniment of one of Bach's best-known preludes by Gustave Ferrari. The other is a dainty and capricious Chaconnette, or little song, which reveals itself in gay and in dreamy moods. Mr. Borel is a thorough musician.

Tickets for this concert are on sale at both music houses.

UNEARLY GREEK TEMPLE

The remains of an imposing temple have been unearthed by Greek archeologists at Renas in Thessaly. The temple is in an excellent state of preservation and is as large as the Temple of Jupiter at Olympia. Inscriptions in bronze established the date of 490 B. C.

Officials of the Pennsylvania Railroad have instructed their employees to notify passengers of any serious delays to trains, the cause, probable length of time of interruption and when service will be resumed.

An ancient law exempting the homes of the working class and public employees from taxation has been revived in Rio de Janeiro in an effort to relieve the housing shortage.

To insure the playing of golf on Sundays, Tawstock Village, New Jersey, has been organized by nineteen members of the Haddon County Club. There are exactly nineteen elective and appointive offices to be filled.

A landslide caused by torrential rains destroyed two villages in Italy. The peculiar feature of the slide was that it moved so slowly that the inhabitants were able to escape, but their homes and vineyards were engulfed.

SEE SIGNS OF REVIVAL OF ALL COAST INDUSTRY

SAN FRANCISCO, May 16.—Definite signs of business revival in certain industries of the 12th federal reserve district appeared during the past month, during which period also spring activity in agricultural operations began, according to a report made public here today by the federal reserve bank of San Francisco.

"Lumber production, which has been at the lowest point in two years, was 17.3 per cent greater last month than in February," the report said. "Approximately 60 per cent of the mills today are in operation—some on part time—as against less than 50 per cent on March 1, 1921.

"Several milk condensaries, which had been closed since the end of 1920, have resumed operations and others have increased their output to meet orders growing out of a more active domestic demand and a slight increase in foreign shipments.

"Unemployment has decreased, except in the copper mining centers, where shutting down of the principal producers has been ordered until the market price of copper rises to a point which will make production profitable.

"In the shipbuilding industry, two new contracts of record size were announced by one yard, although others are nearing the end of the construction for which they have contracts.

The building industry shows distinct signs of revival, permits in March, 1921, exceeding in value those of March 1920 by 26.9 per cent and being far in excess of those of February, 1921, as to indicate more than seasonable increase of activity.

"Bank clearings were only 15 per cent less in total value than in March, 1920, which, in view of the year's decline in prices indicates that the volume of business being done is not less and probably greater than that of last year at this season.

"Various price indices show that wholesale prices are approximately 40 per cent lower than they were a year ago, and volume of actual transactions in the wholesale trade generally is probably not less than it was a year ago at this time.

"In the agricultural industries, mixed tendencies appear. Certain commodities—rice, cotton, barley, wool and hops—have not moved marketward in appreciable quantities during the month, but sugar, both cane and wheat, and canned fruits have been steadily moving into consumption.

"Precipitation occurred opportunistically during March but the month was not marked by the abundant rainfall which has characterized the winter of 1920-21. Conditions are reported exceptionally favorable for growing crops in all sections of the district, save portions of southern California and southern Arizona, where the rainfall has been below normal all season.

"A cold spell followed by frost occurred over the whole district during the last few days of March and the first few days of April. Some damage was reported from practically every fruit and grape growing area, but, while individual growers suffered severely in some cases, report indicate no serious reduction of prospective crops from this cause.

A section of the bank's report devoted to citrus fruits said on April 1, 1921, approximately 35 per cent of the naval orange crop, now estimated at 23,000 cars, remained to be gathered. The naval orange crop in 1919-20 was 16,700 carloads. Weather conditions, the report declared, have been favorable for the distribution.

"The Valencia orange crop, which will be harvested during the summer months, is estimated at 22,300 cars," the statement said. "The coming crop promises to be the largest ever harvested in the state and the oranges appear to be of normal size, without an excess of either large or small fruits."

Discussing sugar beet plantings, the report said the acreage planted this year was expected to be about the same as last year, when 292,000 acres were set out.

Regarding livestock, the report declared the low prices of feed and of livestock seem to offer opportunities for profitable investment in stocker and feeder animals, but reports from principal markets indicate stockmen are not buying to increase their herds."

ROSS SUFFERED FOR TEN YEARS

HAD AWFUL DIZZY SPELLS AS RESULTS OF INDIGESTION — IS WELL MAN NOW — GAINS TEN POUNDS AFTER TAKING TANLAC.

"After suffering for ten years without finding anything that would do me any good, Tanlac has restored my health entirely and I have gained ten pounds in weight since taking it," said Charles F. Ross, of 1191 East Thirty-third street, North Portland.

"For all these years my stomach has given me trouble, and often I was bothered with rheumatism in my joints. My appetite was very poor and my stomach was so easily upset that I had to be very careful about what I ate or I would be in misery for hours afterward. The rheumatism in my joints pained me so bad at times I could hardly stand it, and sometimes I had terrible fainting spells and would fall unconscious. I had no energy, felt tired and worn out all the time and when I began taking Tanlac was in a badly run-down, weakened condition.

"After taking the first bottle of Tanlac I began to feel stronger and better than I had in years, and as I continued taking it my improvement was so great that in a short while I was a well man. I now have a splendid appetite, eat anything I want and never have any trouble afterwards. I am entirely free of rheumatism and have not had one of those terrible fainting spells since I started taking Tanlac. I never have that tired, worn out feeling and am always ready for my work, which I can do without a particle of trouble. In fact, since taking Tanlac I feel just like a different person and it is a real pleasure for me to recommend it to others."
