

## Bigger, Stronger, More Durable Than Ever Before

For months, we have worked to make Goodyear Tires for passenger cars even better. We have increased the size of our clincher type Goodyear Cords, made the tread thicker, the carcass heavier, the bead stronger. Today our larger size Cords are likewise bigger, stronger, more durable. And fabric tires and inner tubes, too, show added value. Whatever car you drive, there are improved Goodyear Tires and Tubes now ready for it, at the nearest Goodyear Service Station.

As to paying compliments, Ezra, let's not forget that to many folks nonsense is incense.

### Personal Mention

J. P. Tuley, factory inspector, and C. D. Thomas, boiler inspector, representing the Bureau of labor of this state, are in the city for the annual inspection provided by law. L. J. Allen, one of the state club leaders, is here for the purpose of looking over the progress being made by the boys and girls of this county. He states that the work of the children is very creditable and ranks well up with other counties in the state. Mr. and Mrs. Francis J. Bowne are in the city from Bonanza and are combining business with pleasure.

#### BLV ITEMS

Mrs. J. C. Edsall presented five of her younger pupils in a musical recital Friday. The parents and friends of the children invited were delighted with the program, which included

# The Farmer AND ...OIL...

Every acre of land in Klamath County is more valuable today than a year ago because of the oil possibilities which have been made probable by the wonderful showing in the Siemen's—Bloomingcamp—Campbell well. If a gusher is brought in, every acre of land in Klamath County will double in value, because of the possibility of profits from oil leases. This applies as well to the mountain range, to the dry land homestead, to the irrigated ranch and to the city garden. Those who have traveled the country over have seen producing oil wells drilled on the steepest mountain sides, in the most fertile valleys, on busy city streets, and even in the Pacific ocean.

Before mid-summer at least four wells will be actually drilling in Klamath County, (possibly six if the plans of local business men carry.) The Capt. Siemen's well may develop a producer this summer; all who have seen the indications, and all who are believers in Capt. Siemen's luck, (and that's everybody,) believe that this first well in Klamath County may startle the world.

Our 82-foot Standard Rig is now under construction. We will be drilling next month. Experts say our surface indications are most favorable.

If you own a foot of land in Klamath County, your property and your prospects are being benefited by the work we are doing and the money we are spending.

OUR SUCCESS MEANS YOUR SUCCESS.

If we strike oil in paying quantities the profits WILL ALL GO TO OUR STOCK HOLDERS. You will be one of our stock holders if you
