OREGON BREVITIES

PORTLAND, June 3.—The humble nickel has come into its own again in Portland restaurants. As in other cities, restaurant prices in Portland have been tumbling the last few weeks, and although they are not yet back to pre-war levels, they are near enough to cause jubilation among downtown eaters.

PORTLAND, June 3.—The largest bet yet recorded on the Pacific coast on the Dempsey-Carpentier mill, and one of the first big bets in the country, was polled by Sol Stillier, Portland sportsman, when he laid \$2500 even money with Al Jolson, the famous comedian, that Carpentier would stay six rounds.

MEDFORD, June 3.—Alex Sparrow, superintendent of Crater Lake National park, returned to the city from a trip to the park as far as Anna Spring camp, at which he reports snow 5 1/2 feet deep, which means that snow depth at the lake rim vicinity is at least seven feet. Mr. Sparrow says an automobile can get within a mile of the park boundary line on this side and within a half mile of the south entrance. The Crater lake season will open July 1, as scheduled, he says, and people can reach the hotel at the rim.

SALEM, June 3.—That Oregon's financial obligations including bonds and other securities issued by the state, counties, municipalities, drainage and irrigation districts and other political subdivisions, will aggregate between \$50,000,000 and \$60,000,000 is indicated by reports now being received from all sections by the state tax commissioner. The state's share of the indebtedness is estimated as \$25,000,000.

DALLAS, June 3.—Seven bunk-houses at the logging camp of the Willamette Valley Lumber company at Black Rock were destroyed when fire, set to burn slashings, got beyond control and spread over several miles of logged-off land.

PORTLAND, June 3.—Regardless of the engineer's strike, 16 deep water vessels cleared foreign during the month of May and the total value of the wheat, flour and lumber exports, not including gulf and intercostal traffic, mounted to \$4,370,526.

ROSEBURG, June 3.—That the state game commission should take some action immediately to prevent deer from ruining young orchards in the country was the opinion expressed by several orchardists whose property has recently been badly damaged by invasion of the animals.

In the island of Guam 747 boys and girls with eighteen months' instruction produced food valued at

\$12,000. The work was done in cooperation with the department of education and under the supervision of the Guam agricultural experiment station. Of the total enrollment, 89.2 per cent completed the various courses.

COUPLE NOW IS CONVINCED

MR. AND MRS. C. L. JOHNSON, OF TROUTDALE, ARE ALWAYS TELLING THEIR FRIENDS ABOUT GOOD TANLAC DID THEM.

"It is hard to tell who thinks most of Tanlac, my wife or myself," said C. L. Johnson, a farmer living on R. F. D. No. 1, Box 72, Troutdale, Ore.

"For nearly two years I had trouble with my stomach and kidneys. Gas seemed to stay on my stomach all the time, and often I felt like a deep breath would kill me. My back was weak and lame and hurt so it was all I could do to get up out of a chair. I suffered from headache and dizziness and many a time could hardly walk a step. My sleep was all broken up at night and it took all my grit and nerve to stay on my job during the day.

"But four bottles of Tanlac put me back in as fine health as I ever enjoyed in my life. My appetite has come back and what I eat agrees with me. My kidneys and back don't bother me any more and those headaches and dizzy spells have all gone. I sleep well and am putting in full time at work every day.

"My wife was troubled with chronic indigestion and she suffered with sick headaches and complained of being all run down and tired out. Tanlac has done her just as much good as it has me, and now she says she is feeling better than she has in a long time. We both think the world of Tanlac and are all the time telling our friends about it."

SPECIAL THIS WEEK
