CALIFORNIA NEWS

OAKLAND, June 3.—A 10-year-old bank "bandit" is in jail in Oakland after being caught trying to rob a bank. The boy is deaf and dumb, and, according to the police, has been a "problem" for police half his life. Twice recently, it was said, he had been "picked up" for other "jobs." The boy entered the bank by climbing monkey fashion up a drain pipe and through a transom. Several contribution boxes for funds for the Armenians were found open. The boy remained stoical under examination in the sign language by Patrolman J. M. Rhodes.

VENICE, June 3.—Airplanes have frightened away the many seagulls which formerly were seen about the Southern California beaches, according to K. H. Knoud of Venice, a beach town, who has spent years studying the birds.

SAN FRANCISCO, June 3.—A bridge across San Francisco Bay will be constructed at a cost of \$25,000,000, according to announcement of A. J. Rich, local financier, who declared the money for the project already had been subscribed.

DORRIS, June 3.—The spring clip of wool is beginning to pour into local concentration sheds and warehouses preparatory to shipping. Jas. O'Keefe, one of the leading sheep raisers of northern California and southern Oregon, has brought in 18,000 pounds for storage, and it is understood that this city is only a small portion of the clip that will find the outside market through Dorris as a shipping point.

SAN FRANCISCO, June 3.—The Southern Pacific Company has decided to reduce freight rates on rice, barley, canned goods, dried fruit, dried beans and dried peas from California points to Galveston and New Orleans for Europe exports. This was announced today by the company.

LOS ANGELES, June 3.—The whiskey sold to him at an address in Inglewood, near here, was so poor that he thought he was entitled to complain, a citizen told the sheriff. The sheriff's deputies raided the premises the disgruntled customer had described and confiscated a still

in operation, some mash and some liquor.

SUTTER CREEK, June 3.—Announcement that the old Eureka mine, formerly the property of the late Hetty Green, New York woman financier, which has produced large amounts of gold in times past, had been closed came from the mine recently. No statement was forthcoming as to the cause of the suspension of activities. Miners have been laid off.

VALLEJO, June 3.—Vallejo Post, No. 104, of the American Legion anxiously awaits the result of telegrams sent to Congressman Charles F. Curry and John I. Nolan and Senators Hiram Johnson and Samuel Shortridge, urging that they take immediate steps to have President Harding issue an executive order against the employment of aliens in the navy yards of the United States.

At the Theaters

THE STAR

Here's what Cosmo Hamilton, the famous writer, thinks of "Midsummer Madness," feature picture for tonight and Saturday at the Star. "It is the most utterly satisfying, beautiful and human thing, all alive

and throbbing, that has ever been created for the screen."

Mr. Hamilton wrote the brilliant novel from which William D. Miller produced "Midsummer Madness." His opinion has been echoed by critics and screen fans everywhere, and "Midsummer Madness" has taken its place beside the greatest pictures ever made.

It is a vibrant story of human love and passions that lays the soul of modern marriage bare. Lila Lee, Lois Wilson, Conrad Nagel and Jack Holt play the leading roles.

Don't miss this wonderful Paramount picture!

THE LIBERTY

"Fixed by George," the fourth of the famous fun features of Eddie Lyons and Lee Moran, is showing at the Liberty Theatre. It is better, if anything, than "Everything but the Truth," "La La Lucille" and "Once a Plumber." The old farcical situation of bringing a number of opposing actions together and keeping them together against their will is utilized by Edgar Franklin, who wrote the story. He uses the novel means of a gang of mysterious auto thieves who force four parties of motorists to seek shelter from the rain in a vacant country house.

There is nothing old about the situations that follow or the relationships

of the various factions, however. For instance, George, trying to "fix" the quarrel between his friend, the doctor, and his wife, plans to confront the doctor's wife with the doctor's patient and promote a showdown. But other visitors arrive; the father of the pretty patient and his son's wife-to-be, the son himself, the daughter's sweetheart, and even the wife of George, the fixer. What happens must be seen to be laughed at.

Eddie Lyons and Lee Moran have made the most of every possibility for mirth producing.

Story of Northwest Lumbering in May American Lumberman

Approximately 70 of the 208 pages of the American Lumberman for May

are devoted to description, profusely illustrated, of the northwest lumbering industry, particularly the logging and milling methods of the St. Paul and Tacoma Lumber company of Tacoma, Washington.

Views of the woods and timber are very like Klamath county forest scenes and the mill interiors are not greatly different to the eye of the layman, at least, to the inside views of the big local mills.

The article is the last written by the late Fred. H. Gilman, Pacific Coast manager of the American Lumberman, who died suddenly in Portland a little over a month ago.

We read by an exchange the following heading: "Man Shoots Himself In Basement Blowing Out Brains."

NOTICE OF SALE OF IRRIGATION DISTRICT BONDS
