Drones In the Klamath Hive--

Many of Klamath's best citizens are busy as bees, working and boosting for Oil Development and buying all the stock they can afford in the companies actively engaged in this work.

BUT THERE ARE DRONES IN THE HIVE.

The Drones are the men of means who haven't put a dollar into active Oil Development work: the men who are out getting leases for themselves hoping to reap profits for themselves out of the showings made by their neighbors.

The Drones sit idly back and say: "I'm going to be a rich man if they strike oil this summer."

Whenever a man tells you that he "hopes they strike oil this summer," ask him how much money he has put in to help drill a well.

They all have an alibi. They don't like somebody who is connected with one company and they think the other company hasn't a good location, or it isn't convenient to spare the money just now, or the machinery is too slow getting here.

THE TRUTH IS THEY WANT TO MAKE PROFITS AND LET THEIR NEIGHBORS MAKE ALL THE SACRIFICES AND TAKE ALL THE RISKS.

There are business men who will make thousands of dollars in increased business as soon as oil is struck, who haven't risked a smooth dime to help drill a well.

There are bankers who are praying for prosperity and increased deposits who haven't contributed toward drilling one foot of oil well.

There are farmers and lease holders and property owners whose holdings will increase in value by thousands and thousands of dollars as soon as Oil is struck, who haven't by word or deed or dollar done one thing to help or encourage the drilling of a well.

DON'T BE A DORNE.

Our Factory Is Running Full Time and

WE ARE MAKING WINDOWS, DOORS, SCREENS AND CABINET WORK,

—BUT—
OUR PAY ROLLS IS NOT AS LARGE AS IT SHOULD BE,
—AND—

The reason for this is that a few thoughtless people in Klamath Falls still buy Windows, Doors, Screens and Frames which are made in Weed, Portland and elsewhere.
