

ALL PENSIONS OF U. S. MAY BE PAID MONTHLY

Herald Washington Bureau
 WASHINGTON, June 10—All persons drawing pensions from the United States, based on military or naval service, will receive their pensions monthly instead of quarterly, if the bill reported to the house favorably by the committee on pensions becomes a law.

This bill provides that, beginning September, 1921, all pensions shall be paid monthly on the fourth day of each month. Should this bill become a law—and there is good prospect for its passage in both houses—more than half a million residents of the United States will be greatly benefited, and the hardship of waiting ninety days for the arrival of the pension will be at an end.

Will Affect All
 This affects all those drawing pensions on military and naval service of the war of 1812, war with Mexico, the Civil war, the war with Spain, the various Indian wars up to 1891 and all those granted up to the time of the World war. Congress in providing for the compensation of soldiers and sailors of the World war provided that all compensation should be made on a monthly basis. This new bill is to place the other pensioners of the government on the same basis as veterans of the World war.

There are two hundred and twenty five thousand soldiers who entered service in the Civil war now on the pension roll and there are more than 280,000 widows drawing pensions because their husbands were soldiers in the conflict of the states. All told, exclusive of the veterans of the World war, there are now approximately 571,000 persons on the pension roll of the United States.

Fall Favors Bill
 In commenting on this bill, Secretary of the Interior Fall, who favors the legislation, has this to say concerning the proposed change:

"Salaries and wages are universally paid weekly, bimonthly or monthly, and retail business generally is conducted on a cash basis or on short time credit, thirty days at the longest.

"The men and boys who entered the army or navy defense of the government in the world war were mostly persons who earned their livelihood with their hands or brains and who had up to the beginning of their service received their wages weekly, bimonthly or monthly. In considering these facts the congress doubtless reasoned that if it was considered good policy to pay salaries and wages at short intervals to people in good health to enable them to use their income to the best advantage, it would be equally as good policy and more necessary to pay the compensation to disabled men, widowed women and minor orphaned children at the very shortest practicable intervals, and fixed upon the monthly payment as the proper period.

For Monthly Payment
 "Now, if upon full consideration of the facts and conditions the congress decided that the compensation to be paid by the bureau of war risk insurance to soldiers and sailors of the World war and their dependents should be paid monthly, I think it is fair to assume that taking into consideration the necessarily advanced ages of the pensioners of the war of 1812, the Mexican war, the Civil war, the war with Spain, and the Indian wars, all pensions paid by the bureau of pensions should be paid monthly.

"As stated before, there are now approximately 505,000 soldiers and widow pensioners of the Civil war alone, and the great majority of them depend largely upon their pensions for support. Many, perhaps most of them, have no other source of income. They live on a three months' credit and whenever, as sometimes happens, a quarterly check miscarries in their mails and is not received on the date it is due, complaint is made, frequently with a heart-rending story, about the hardship entailed by the failure of the check to arrive on time.

Checks Sometimes Lost
 "Sometimes a quarterly check is lost in the mails or otherwise, and in such case a duplicate check cannot be issued until after the lapse of thirty days from the date of the original, and then only after an indemnifying bond has been furnished by the pensioner. That takes time and causes some expense to the pensioner and prolongs considerably the period between payments. As a general rule, duplicate checks do not reach their owners under two months from the date of the original or lost check. The pensioner therefore suffers much

inconvenience and great hardship if he has no other income, and his creditors likewise are inconvenienced.

"Assuming that the congress did right in making the payment of compensation by the bureau of war risk insurance monthly and that no change will be made in the law, there is no apparent reason why the congress should not be asked to authorize monthly payments to pensioners paid by the bureau of pensions.

Discrimination Seen
 "Under the existing laws it appears that there is a discrimination in favor of a comparatively youthful list of beneficiaries receiving compensation and against a large list of very aged beneficiaries receiving pension. "The payment of pensions monthly would enable very many Civil war pensioners to receive one or two months' more pension than they get, for the reason that they are dying at the rate of about 4000 a month and many of them live until within a few days of the quarterly payment. If paid monthly, they would receive pension up to the fourth day of the month of their death if they died after that date."

DISSATISFIED WITH PAY CUT

Local railroad workers in all branches from section hands to engineers, have had considerable discussion among themselves regarding the Railroad Commission decision, delivered June 1, announcing a 12 per cent cut in wages and as a sliding scale is used as a base for reductions, there is not so much fault found with it, as the cut in some classes of service runs as low as 7 per cent.

However, the decision made by the Southern Pacific railroad company to cut 15 per cent has not met with the approval of the railroad men who run from Weed to this place, or out of Klamath. The men state that on the main line of the Southern Pacific, living expenses are lower and the cut will not affect employees there as it will on this branch line where expenses are higher for food, clothes and personal expense. The consensus of opinion among the branch line employees is that the railway commission award is fairer than the company stand.

Railroad men say that since June 1, the main line from Portland south has been busy with heavy shipments from the north, due to the marine strike and all the employees who are on leave of absence have been called in for service. Emergency trips have been made by the local branch men on the main line since Sunday. The railway employees welcome the increased business and are glad to be busy again after a quiet winter. But what effect the settlement of the marine strike will make on the local lines was not announced.

NOTICE TO PATRONS WHO SEND PARCEL POST C. O. D.

Parcel post sent C. O. D. can be sent only to such points as are money order offices. The reason for this is that if the office is not a money order office it has no way of returning your money to you for the shipment.

For the benefit of local merchants who make frequent use of the C. O. D. privilege the following list of offices in Klamath county is given which ARE NOT money order offices and which therefore CANNOT handle C. O. D. parcels. For points outside the county, ask the postoffice before preparing your parcel.

If you will cut this out and paste it over your desk it will save both you and the postal service much needless annoyance.
