

PRESIDENT MAY PUT E. J. ADAMS ON COMMISSION

If Townsend Highway Bill Passes, Eugene Man Seems Certain To Receive Appointment.

Herald Salem Bureau
SALEM, Ore., June 16 (Special)—Should the Townsend highway bill, now pending in congress and creating a federal highway commission, be enacted into law, it is understood in Oregon that E. J. Adams, of Eugene, will stand a chance for appointment as one of the members of the commission.

The federal highway commission, proposed in the Townsend bill, would be a body of five members, with salaries of \$10,000 a year each.

In Senator's Secretary
Adams is in Washington, where he is private secretary to Senator Robert N. Stanford. However, he is devoting much time to boosting the Townsend bill—which, withal, is not a bad bill. Adams is deluging newspaper offices, and probably commercial organizations, with literature on road legislation, and it seems, has made some arguments before committees, which he is sending out to the press of the country.

Adams' line of action which may land him on the new commission, if it is created, is well worked out. Adams and Senator Townsend of Michigan, author of the bill, are personal friends and are said to have been members together at one time of the Michigan legislature. If the Townsend bill passes, appointment of the new commission will be in the hands of the president. Townsend, as author of the bill, of course will have weight in making recommendations to the president, and Adams, it is believed, will be one of his selections.

Helped Draft Bill
Mr. Adams is credited with having a leading part in the drafting of the Townsend bill. The measure has the approval of the Oregon highway commission and it is understood Adams' appointment would be looked upon with favor by the commission. Further, he is credited with having drawn together several of the factions that were divided on the bill, so that its support has been much bolstered, and opinion in Oregon is that the bill will pass.

R. A. Booth, chairman of the Oregon commission, has forwarded a telegram to the Oregon delegation in congress urging the members to work for the bill. In addition to creating a federal highway commission, it would appropriate \$100,000,000 a year for general highway development and \$10,000,000 a year for forest roads.

Hoover Against Bill
Herbert Hoover, secretary of commerce, who is strongly in favor of a new federal department of public works, and other influential men who favor such a department, are still opposed to the Townsend bill. The department of public works, should it be created, would embrace in its jurisdiction highway development and all other extensive developments of a public nature.

be made payable in favor of Louis Boldischar, clerk of said district, to be returned to bidders upon signing of contract and to be retained if successful bidder fails to enter into contract as specified.

Plans and specifications may be obtained from G. R. Wright, architect, Klamath Falls, or Louis Boldischar of Malin, and a deposit of Ten Dollars (\$10.00) will be required for same.

Proposals may be left either with Louis Boldischar, Malin State Bank, Malin, Oregon, up to 7 o'clock P. M., June 25th, 1921, or with G. R. Wright, architect, Klamath Falls, Oregon, up to 12 M., June 25, 1921.

The board reserves the right to accept any one bid or reject any or all bids.

Dated at Malin, Oregon, this 14th day of June, 1921, A. D.
(Signed) LOUIS BOLDISCHAR, Clerk.

Hot Water Each Morning Puts Roses in Your Cheeks

To look one's best and feel one's best is to enjoy an inside bath each morning to flush from the system the previous day's waste, sour fermentations and poisonous toxins before it is absorbed into the blood. Just as coal, when it burns, leaves behind a certain amount of combustible material in the form of ash, so the food and drink taken each day leave in the alimentary organs a certain amount of indigestible material, which if not eliminated, form toxins and poisons which are then sucked into the blood through the very ducts which are intended to suck in only nourishment to sustain the body.

If you want to see the glow of healthy bloom in your cheeks, to see your skin get clearer and clearer, you are told to drink every morning upon arising, a glass of hot water with a teaspoonful of limestone phosphate in it, which is a harmless means of washing the waste material and toxins from the stomach, liver, kidneys and bowels, thus cleansing, sweetening and purifying the entire

Facts

about your crankcase

Road dust, carbon, fine metal particles and other impurities accumulate in your crankcase oil from engine operation.

The gritty oil circulates through your engine, impairing its performance, and ultimately leads to rapid depreciation and repairs.

Automobile manufacturers recognize this danger, and in their Instruction Books, carefully advise regular draining and flushing of the crankcase.

These important instructions are often disregarded; cleaning the crankcase is a job generally disliked.

To meet this need, Modern Crankcase Cleaning Service has been established by first-class garages and other dealers, co-operating with the Standard Oil Company. These garages and dealers use Calol Flushing Oil, — the scientific agent that cleans out old oil, dirt, grit and other impurities, and does not impair the lubricating efficiency of fresh oil used.

The cleaned crankcase is refilled with the proper grade of Zerolene.

STANDARD OIL COMPANY (California)

Look for the garage or dealer displaying the sign shown here—it means "Better operation and longer engine life." A service promptly given at a nominal cost.

MODERN CRANKCASE CLEANING SERVICE
