

### Ten Children in Nine Years

Ten children in less than nine years—five of them born within the last 12 months—is the record of Mr. and Mrs. Orville Robb, of Hubbard Lake, Mich. Beginning October, 1912, the children came a year or two apart, until last May, when triplets arrived. One is shown in Robb's arms and the other two in high chairs. In April twins came. They are shown in the arms of Mrs. Robb.

#### ASSESSMENT WORK ON MINES MUST BE DONE

Reynold Washington Bureau  
WASHINGTON, June 22.—The house committee on mines and mining has refused to report for passage the Bureau bill extending the time for assessment work on all mining claims to December 31, 1921. This means that the bill which passed the senate will fall and all owners of mining claims, in order to protect their property, will have to have all the legal assessment work done on or before midnight, June 30, the date of the expiration of the time under existing law.

#### TWO FLYERS KILLED WHEN PLANES COLLIDE OVER OCEAN

WASHINGTON, June 22.—Captain Howard Douglas and Lieutenant Maril J. Plumb, both members of the army air service, were drowned at Hampton Roads today following a collision of their planes, while practice flying.

#### WEATHER REPORT OREGON—Tonight and Thursday, fair and warmer. Gentle northerly winds.

William Penn.  
The founder of Pennsylvania, William Penn, was born in London Oct. 7, 1644, and when he came to America in 1682 he was yet a young man. He stayed here for two years and then returned to England, but returned in 1689 and lived in Philadelphia and at Penn's Manor, near Bristol, for about two years, when he returned to England, where he remained until his death at Ruscombe, Berkshire, in 1718. Penn was married twice and had four sons. His humanitarianism made him famous and his dealings with the Indians strikingly shows one of the many great principles of his life. Penn was a Quaker, and it is said that never a drop of Quaker blood was shed by the savages in all the wars against the white men of the English colonies during one hundred years and that no treaty made by Penn with the Indians was ever broken.—Chicago Journal.

Plaster of Paris derives its name from the fact that it was originally obtained from Montmartre, a suburb of Paris.

#### Dishonesty.

Let a bishop appear and members of his church will be preached a great sermon. The appreciation is for the man's reputation and position. Thousands of books actually worthless receive what is called appreciation because they are written by noted men, printed by noted publishers. You laugh at the jokes of a clown but would not smile at the same nonsense offered by a neighbor. How the children laugh at the teacher's jokes. How an agent laughs at your jokes when he thinks he has you in a buying humor. We are actually honest about nothing.—E. W. Howe's Monthly.

#### Alloy of Great Strength.

Blakmetal, the Italian war alloy of Adolfo Pouchain, is claimed to have greater strength than steel or any other metal with a higher limit of elasticity. It is an alloy of zinc and copper, endures a high temperature and resists corrosion better than copper. Its lightness, great strength and non-corrosiveness have fitted it especially for airplane and ship construction. Though stated to be not yet fully developed, its varieties offer advantages in working as substitutes for steel, brass and aluminum, and can be cast, turned, drawn, forged rolled and stamped.

A millionaire's daughter must be decidedly homely when reporters don't refer to her as a charming heiress.

#### LAST NOTICE TO THE HONOR ROLL SUBSCRIBERS

The latest and final shipment of Honor Rolls is here and those who ordered copies are asked to call for them. Many of the books have been paid for and should be in the hands of their owners. We also have a number of photographs used in illustrating the book. The pictures were obtained with instructions to forward them, in many cases, to mail addresses. These instructions have been followed but a number of the envelopes have been returned by the postal service, marked "Address Unknown." Evidently the owners have moved without leaving a forwarding address. We desire to clean up the entire matter, and this is the last notice that will be given. One more effort will be made to distribute the books and pictures. Where it is not possible to locate the persons entitled to them, they will be filed at the owners' risks. The Herald will take no further responsibility.

The Klamath County Honor Roll is a complete roster of Klamath county's service men and the war workers who put the home campaigns over. It is handsomely and durably bound, printed on the best paper obtainable and will be increasingly valuable as a war record as the years pass. Call and get your copy, if you know that you subscribed to its publication, or send your address and 12 cents for postage. Photographs will be mailed on receipt of address and six cents for postage.

#### Warning to Reckless Drivers

The regular danger signals had no effect on one reckless driver at this corner in Seattle. So others are being warned more effectively by the sign telling of the accident.

It is estimated that one pound of sheep's wool can produce one yard of cloth.

In Argentina there are cows enough for each man, woman, and child to have five each.

It is estimated that New York city adds between 400 and 500 to its population every day.

Most of the cats in Liberia are of a bright red tint, and they are very conspicuous in the moonlight.

The largest negro church in the world is in Chicago, with more than 10,000 members enrolled.

It takes 15 days for the average human body to recover fully from the loss of two consecutive nights' sleep.
