Some Curious Birds and Beasts I Have Met Up With
By Our Own Jack Burroughs
The Galloping Gazopa

If you have ever made a close study of a hobby horse, gentle reader, you should have a clear conception of how the galloping looks when in motion. It is almost constantly on the go but never gets anywhere to speak of, in which respect it resembles a prominent citizen of Lincoln, Neb. I first met up with the galloping gazopa while floating down classic Green river. The exact date escapes me for then once, but if memory serves me right it was prior to July 1, 1919. So far as the writer knows, the gazopa is the only member of the animal kingdom which goes in for a polka-dotted complexion. These polka dots are about as large as ordinary rifle targets and, while it might seem that would render it an easy mark for hunters, such is not the case. On the contrary, the polka dot serves as a protection because, while the hunter is making up his mind which one to shoot at, the gazopa gallops away to safety.

Patrick E. Burke says that freckles may have their place, but it does seem too bad to cluster them on a pretty girl's face.

Push and Go
"Here, boy," said the wealthy motorist. "I want some gasoline and get a move on. You will never get anywhere in the world unless you have push. When I was young I pushed and that is what got me where I am."

"Well, guvnor," said the boy, "I reckon you'll have to push again 'cause we ain't got a drop of gasoline in the place."

(Dictographed on Pine Street)
"Mother," asked the little boy, "when the fire goes out, where does it go?"

"I don't know, dear," answered the mother. "You might just as well ask me where your father goes when he goes out."

FEDERAL JOBS AWAIT ACTION OF SENATORS

Gossip at Capital Says Ralph Williams Is Backing Day for Marshal and Huntley for Collector

Herald Washington Bureau
WASHINGTON, June 24.—Senator Charles L. McNary said today that no decision has been reached yet in connection with Oregon patronage, and the members of the Oregon delegation in congress also expressed the opinion that no final decision has been arrived at on the subject.

Senator R. N. Stanfield is in Salt Lake in connection with the livestock loan of \$50,000,000 arranged by bankers of country, and will not return for several days. Until his return no patronage conference is possible.

State is Discussed
While there has apparently been no definite decision arrived at in regard to patronage, gossip emanating from seemingly trustworthy sources at the capital indicate that a general plan for its distribution and also a tentative slate were discussed between the two senators, and national committeeman Ralph Williams just previous to the latter's return to Oregon.

The plan was to the effect that all three should participate in the distribution of the patronage, and in case of a disagreement that the decision of Senator McNary and National Committeeman Williams should be final.

experience," said David Raff, 250 N. 59th St., Philadelphia, recently. Mr. Raff has lived in Philadelphia all his life and is well-known and highly respected.

"My health was all broken up," he explained. "My stomach was all out of order and gave me so much trouble that I actually dreaded to go to the table. I would simply rather go without eating than suffer the awful misery I knew would follow. I would blot up so with gas that my heart would beat a terrific rate and it seemed sometimes I was being smothered to death. I just had to fight for my breath. My nerves were all undone, I slept poorly and was all the time having headaches that were almost blinding. I lost weight and felt so weak and run-down all over I could hardly do any work."

"Sometime ago a good friend of mine told me he knew Tanlac, would help me and he spoke so positive about it that I took his advice. And I can say right now that Tanlac is the first medicine I ever saw that will do exactly what they say it will. Five bottles have the same as made me all over again. I can eat anything I ever could in my life and have gained fifteen pounds in weight. I'm no more nervous than a child, sleep fine and it just makes me feel happy to be enjoying such good health. Tanlac certainly is a great medicine."—Adv.

Division of Patronage

It further contemplated that Senator McNary should have the naming of collector of internal revenue and United States marshal, and that Senator Stanfield should have the selection of collector of customs and prohibition officer.

The tentative slate discussed was Clyde Huntley of Oregon City for collector of internal revenue, Jack Day of Portland for United States marshal and Asa B. Thompson of Echo for collector of customs.

Mr. Williams favors Huntley and Day and political gossip is to the effect that Senator McNary has been seriously considering both for the respective offices.

Wants Brother-in-Law

Although neither are said to be the choice of Senator Stanfield he is said to be anxious to secure the appointment of Asa B. Thompson, who is his brother-in-law, as collector of customs, and in view of this has been giving serious consideration to the slate.

But while the general plan as to the divisions of spoils may be adhered to, such a flood of protests are pouring in against both Day and Thompson that the tentative slate may collapse, and an entirely new personnel be decided upon.

Protests Against Day

The protests against Day attack his qualifications for the office and also object to him because of his political associations.

Thompson's land office record is being urged against him, and so is the fact that he is a brother-in-law of Senator Stanfield.

SAGE TEA KEEPS YOUR HAIR DARK

When Mixed With Sulphur It Brings Back Its Beautiful Lustre At Once

Gray hair, however handsome, denotes advancing age. We all know the advantages of a youthful appearance. Your hair is your charm. It makes or mars the face. When it fades, turns gray, and looks streaked, just a few applications of Sage Tea and Sulphur enhances its appearance a hundredfold.

Don't stay gray! Look young! Either prepare the recipe at home or get from any drug store a bottle of "Wyeth's Sage and Sulphur Compound," which is merely the old-time recipe improved by the addition of other ingredients. Thousands of folks recommend this ready-to-use preparation, because it darkens the hair beautifully; besides, no one can possibly tell, as it darkens so naturally and evenly. You moisten a sponge or soft brush with it, drawing this through the hair, taking one small strand at a time. By morning the gray hair disappears; after another application or two its natural color is restored, and it becomes thick, glossy and lustrous, and you appear years younger.—Adv.

ITCHING ECZEMA DRIED RIGHT UP WITH SULPHUR

Any break-out of the skin, even fiery, itching eczema, can be quickly overdone by applying a little Mentho-Sulphur, says a noted skin specialist. Because of its germ destroying properties, this sulphur preparation instantly brings ease from skin irritation, soothes and heals the eczema right up and leaves the skin clear and smooth. It seldom fails to relieve the torment and disfigurement. Sufferers from skin trouble should get a little jar of Mentho-Sulphur from any good druggist and use it like a cold cream.—Adv.

ARE YOU RHEUMATIC?

Many Pangs That Pass for Rheumatism Are Really Due to Weak Kidneys

Is it rheumatism? Not every pain is. Weak kidneys let uric acid collect. Uric acid causes many queer pains. In the thigh it's sciatica; In the back, lumbago; In the nerves, neuritis.

Hot Water Each Morning Puts Roses in Your Cheeks

To look one's best and feel one's best is to enjoy an inside bath each morning to flush from the system the previous day's waste, sour fermentations and poisonous toxins before it is absorbed into the blood. Just as coal, when it burns, leaves behind a certain amount of incombustible material in the form of ashes, so the food and drink taken each day leave in the alimentary organs a certain amount of indigestible material, which if not eliminated, forms toxins and poisons which are then sucked into the blood through the very ducts which are intended to such in only nourishment to sustain the body.

If you want to see the glow of healthy bloom in your cheeks, to see your skin get clearer and clearer, you are told to drink every morning upon arising, a glass of hot water with a teaspoonful of limestone phosphate in it, which is a harmless means of washing the waste material and toxins from the stomach, liver, kidneys and bowels, thus cleansing, sweetening and purifying the entire

alimentary tract, before putting more food into the stomach. Girls and women with sallow skin, liver spots, pimples or pallid complexion, also those who wake up with a coated tongue, bad taste, nasty breath, others who are bothered with headaches, bilious spells, acid stomach or constipation should begin this phosphated hot water drinking and are assured of very pronounced results in one or two weeks.

A quarter pound of limestone phosphate costs very little at the drug store but is sufficient to demonstrate that just as soap and hot water cleanse, purify and freshen the skin on the outside, so hot water and limestone phosphate act on the inside organs. We must always consider that internal sanitation is vastly more important than outside cleanliness, because the skin pores do not absorb impurities into the blood, while the bowel pores do.

Women who desire to enhance the beauty of their complexion should just try this for a week and notice results.
