At last! a comfortable support for the arch

Why torture your feet with heavy, stiff metal plate arch supports that actually distort the shape of your arch. No wonder they hurt. If you want complete freedom from foot troubles wear the new

Wizard Adjustable Arch Builder

It is a soft, flexible, featherlight leather insole with three pockets beneath the arch, each one farther back than the one beneath it. Three light leather inserts, thick and thin, fit into these pockets. By shifting these inserts about, any desired height and shape arch can easily be formed. You can tell when it is right by the way it feels—comfort is your guide. It holds its shape and gives permanent relief. If your arch has fallen, you can build it up to normal, with ease and comfort by gradual readjustments of inserts, at home.
