TO LOWER ACCIDENTS

LOS ANGELES, Cal., July 1.—An educational campaign intended to reduce the number of traffic accidents in the congested districts of Los Angeles is being planned by the Los Angeles chamber of commerce. One of the steps agreed upon will be the placing of bulletins in the downtown section advising pedestrians to "watch your step." In connection with this, the city council has taken steps to have miniature lighthouses, which will flash eighty times a minute, posted at street intersections to warn motorists they are approaching busy crossings.

WHEN HE TAKES A STAND, WILD HORSES CAN'T BUDGE HIM

One of the popular stunts of V. Cameron, Michigan strong man, who will display his strength here on July 4 and 5, in free street exhibitions, is to load up an auto with bathing beauties, carnival queens or happy children and tow them sightseeing about town, holding the towline in his teeth. Even the best of our courthouse site debaters would hesitate to put such a strain on their jaw bones and muscles, but Cameron says it's easy. Cameron loops a strap over each arm, hitches a draft horse to each strap and lets the horses pull in opposite directions. They haven't pulled him apart yet.

He lies flat on a board of sharp spikes and lets a heavyweight walk on his chest and abdomen. Patty Arbuckle did this stroll in Los Angeles but even his avoirdupois did not work the nails through Cameron's tough hide. Cameron arrived last night from California, where he pleased crowds at many big celebrations. His free acts will be features on both Monday and Tuesday afternoons.

More than 7,000 pounds of pure gold, says an authority, are required each year to supply the wedding rings for brides.
