

GARY DECLARES THAT CAPITAL IS NECESSARY

SYRACUSE, N. Y., July 6.—L. H. Gary, chairman of the board of directors of the United States Steel corporation, told Syracuse University students in a commencement address recently that capital is necessary to the progress and prosperity of every country and any people. The only alternative to it, he declared, was the anarchy or Sovietism now gnawing at the vitals of Russia. This Russian system he described as a poison in the natural system of national and individual life which would eventually in destruction.

If the people of America would study the facts about this vital question, he said, there would be no epidemic of Sovietism here. Capital and the rights of all people would be conserved.

In this country the door of opportunity is open to both capital and labor and neither, he said, should be permitted to abuse it.

He expressed the opinion that there might be no objection to a fair and reasonable law subjecting organized capital, exceeding certain amounts, to governmental inquiry and restriction in its uses, "provided organized labor should also be subjected to the same statute."

Mr. Gary began by pointing out that the people of the United States have the greatest opportunity for success in every department of worthy endeavor. The expression that "the world owes each individual a living," was too frequently used and it was foolish to endeavor to support that claim by citing the acknowledged principle that all men are created free and equal. This meant, he said, no more and no less than the right of equal protection and opportunity.

Speaking on the relations of capital and labor, Mr. Gary said that these two interests recognize their interdependence but that outsiders often seek to antagonize them. He declared, however, that the majority of employers or managers of business are more solicitous and happier or more solicitous for the welfare of the workman and do more to promote their comfort and happiness or were disposed to do. Labor was never in the world's history more highly respected nor treated as liberally as today, he declared. It had been demonstrated to be profitable to the employer to treat the workmen fairly and this would insure the latter full justice.

Laying stress on the necessity of capital he said: "Money is essential to provide facilities for preparing one to accomplish the best results in any profession or calling. The material progress and prosperity of any and every country are to an enormous extent the result of large capital. Without these the inhabitants would be neither happy nor comfortable.

"Accumulated capital provides the facilities for development, improvement, extension and application of natural resources. This could not be done by small contributions of money." In times of war, Mr. Gary declared, it would have been impossible to have fully supplied the needs of the country without recourse to contributions by large capital.

"Except for the accumulated capital invested in business enterprises and the working capital to maintain and extend them," Mr. Gary continued, "millions of men and women who work for wages or salaries would be without a chance to earn a decent living. To the extent a nation is without capital in a corresponding degree are its industries in a state of decay and its people impoverished and dependent.

"In short, for a desirable and proper degree of comfort, contentment, happiness, advancement in any direction, protection against disease and destruction, every inhabitant of every land is dependent upon individually accumulated capital.

"The only alternative which has been suggested is that the government shall forcibly take possession and control of all capital and distribute the income derived from it amongst the people per capita. This would inject into the natural system of national and individual life a poison which would eventually in destruction. It would smother ambition, enervate the body, remove competition for legitimate success in every line of activity, destroy incentive for development and progress and create a nation of laggards, weaklings and paupers.

Slight motive for succeeding in any natural and honest direction would exist if final results were to be applied for the equal benefit of others.

"Growing out of the illogical and condemnatory doctrine above described, is another even worse. It is, and for months past has been, in practice at places outside of the United States. It rejects the right of an individual to enjoy the fruits of natural ability and integrity, of study and mental effort, thrift and economy and it substitutes the law of physical force which permits the strong and powerful to forcibly appropriate all that belongs to another, including property and family.

"This virulent and abhorrent disease, masquerading under different names, has been gnawing at the vitals of Russia. Anarchy is a generic term for it. Sovietism is most commonly used at present. It has spread and destroyed. Its germs purposely have been secretly carried to America and efforts made to inoculate our splendid citizenship.

"If our people study the facts about this vital question, as they should do concerning every important matter, there will be no epidemic here; they will learn and act accordingly. Homes will not be robbed and desecrated here through anarchy and brute force.

"Capital, whether invested in charitable, religious, educational institutions, or commercial or industrial enterprises, will be protected and, as a corollary, the rights of the people without discrimination will be conserved.

"If it should be urged that accumulated wealth exceeding certain amounts and possessed by organized capital should be subjected to governmental inquiry and restriction in its use, there might be no objection to a fair and reasonable enactment covering this question, provided organized labor should also be subjected to the same statute.

"The door of opportunity for legitimate advancement is open to both capital and labor. Both should be grateful for the privilege. Neither should be permitted to abuse it.

Mr. Gary declared that the platform of labor union leaders is the antithesis of the principle of equal opportunity. He asserted that, industrially, the individual can realize the full advantage of the opportunities which this country offers only through the principles of the open shop as distinguished from the dominance and arbitrary control of the union labor leaders. He added:

"The open shop means freedom to the employe to engage in any line of employment, at any place and time, upon terms and conditions voluntarily agreed upon between the employe and the employer.

"The closed shop means that one desiring employment can secure a place only on terms approved by union labor or leaders having jurisdiction over the particular closed shop.

"The great majority of the people of this country stand for the open shop, open ports of all countries, open covenants with other nations, open discussion of all proper questions and the open shop; and with this freedom and justice to all.

"Equality of opportunity, I believe, is the avowed doctrine of our present administration, from the president throughout the whole governmental structure and will be intelligently and faithfully applied. Therefore, we have reason to look forward with confidence expecting increasing prosperity in all directions as the months pass by."

No wonder the fat man chuckled

I SWELLED with pride.
THE FAT man next to me.
WAS READING one.
OF MY cigarette ads.
AND I felt him chuckle.
NOW NO one had ever.
PRAISED THAT ad.
SO I had to ask.
IF HE liked it.
AND HE said, "Sure."
AND LAUGHED some more.
THEN HE said.
"LOOK HERE" and pointed.
AND WHERE I'd written.
"PURE TOBACCO."
THE PRINTER had set.
"PURE TOBACCO."
AND THAT'S why the man.
THOUGHT MY ad.

WAS HOT stuff.
BUT THEN he said.
"FORGET THE ad.
I NEVER read 'em.
BUT LEMME tell you.
SOMETHING DIFFERENT.
THEY OUGHT to say.
ABOUT THAT cigarette.
AND THAT is this.
THEY SATISFY."
AND DARNED if I don't thr
HE REALLY believed.
HE WAS giving me.
SOMETHING NEW!
YOU can blame on the printer if you don't see "They Satisfy" in a Chesterfield advertisement. But be sure of this—you'll find it in the cigarette every time. Wonderful Turkish and Domestic tobacco, wonderfully blended—it sounds easy. But you'll find nothing else like Chesterfields. That blend can't be copied.

Hot Water Each Morning Puts Roses in Your Cheeks

To look one's best and feel one's best is to enjoy an inside bath each morning to flush from the system the previous day's waste, sour fermentations and poisons before it is absorbed into the blood. Just as coal, when it burns, leaves behind a certain amount of incandescent material in the form of ashes, so the food and drink taken each day leave in the alimentary organs a certain amount of indigestible material, which if not eliminated, form toxins and poisons which are then sucked into the blood through the very ducts which are intended to suck in only nourishment to sustain the body.

If you want to see the glow of healthy bloom in your cheeks, to see your skin get clearer and clearer, you are told to drink every morning upon arising, a glass of hot water with a teaspoonful of limestone phosphate in it, which is a harmless means of washing the waste material and toxins from the stomach, liver, kidneys and bowels, thus cleansing, sweetening and purifying the entire alimentary tract, before putting more food into the stomach.

Girls and women with sallow skins, liver spots, pimples or pallid complexion, also those who wake up with a coated tongue, bad taste, nasty breath, others who are bothered with headaches, bilious spells, acid stomach or constipation should begin this phosphate hot water drinking and are assured of very pronounced results in one or two weeks.

A quarter pound of limestone phosphate costs very little at the drug store but is sufficient to demonstrate that just as soap and hot water cleanse, purify and freshen the skin on the outside, so hot water and limestone phosphate act on the inside organs. We must always consider that internal sanitation is vastly more important than outside cleanliness, because the skin pores do not absorb impurities into the blood, while the bowel pores do.

Women who desire to enhance the beauty of their complexion should just try this for a week and notice results.
