U. OF C. BUYS LAND

LOS ANGELES, Cal., July 15.—The University of California has completed the purchase of seven and one half acres of ground adjoining the present campus of the southern branch of the university here and an additional tract of the same size is being negotiated for. The land acquired was taken over at about \$10,000 an acre.

Organize Shasta Valley District

YREKA, Cal., July 15.—Organization of the Klamath-Shasta Irrigation District to include 125,000 acres in the Shasta Valley was voted by an overwhelming majority at an election held Tuesday. The indicated majority in favor of the district is more than twenty to one.

The next step will be the organization of the district and raising of money with which to make a detailed survey of the project which calls for the tapping of the Klamath River and using the overflow waters from Klamath Lake for irrigation purposes in this district.

Soap Mine Found In Mojave Desert

LOS ANGELES, Cal., July 15.—A "soap mine" in the Mojave Desert is the latest addition to the industrial enterprises in this section. The soap mine produces a colloidal clay which with very slight preliminary treatment, is said to be a superior grade of laundry soap. It makes a soft powder, and is said to set colors and remove dirt.

The deposit was discovered by a prospector who thought it was fire clay and brought it here to be analyzed. He happened to go to a local laundryman for aid, and when the analysis disclosed that the clay was soap, the laundryman promptly bought 500 acres of land containing the deposit and prepared to produce soap commercially both for use in his laundry and for general sale.

MASONS MEET TONIGHT

Secretary Lem Gaghagen has announced that at the meeting of Klamath Lodge No. 77 Monday evening at 7 o'clock, he would like to have a large delegation of Masons present to take part in the master mason degree to be given to candidates. This degree is an important one in a candidates Masonic life and for that reason a large turnout is urged.

Tonight the blue lodge will meet instead of last night as first announced and the entered apprentice degree will be put on at 7 o'clock sharp.

Last Year's Prices Compared With Those of Today:

For the convenience of our patrons, we give below an abridged list of the retail prices of today on staple Dry Goods, as compared with the prices of 1920; thereby demonstrating that notable reductions have been brought about in so short a period of time, and—while prices in some lines may fluctuate somewhat from time to time; yet we do not look for any sudden changes. We confidently believe that NOW is a good time to supply your needs, while prices seem to be stabilized.

A very obvious fact, but one that will bear emphasis because it is frequently overlooked. The public reads that certain prices have dropped 50% and coupled with it is the memory that the retail price in question advanced 100%. To one not daily dealing with such figures there may appear an apparent discrepancy.
