KLAMATH FALLS, OREGON, WEDNESDAY, JULY 20, 1921

PRICE FIVE CENTS

BROOKLYN EAGLE TOUR TO ARRIVE HERE TOMORROW

The Brooklyn Eagle touring party, 30 members, will arrive here tomorrow evening, en route to Crater Lake park, according to a message received this morning by the local agent from Charles Fee, general passenger agent, at San Francisco.

The party, under arrangement with the Brooklyn newspaper, is on a tour including scenic spots of the United States, and the Hawaiian Islands. They came west over the southern route, visited Hawaii and are now starting back over the northern route.

The original plan of the party was to enter Crater Lake from the Medford side and leave by the same route. At a recent conference here between F. C. Lathrop, assistant general passenger agent of the Southern Pacific; W. T. Lee, local manager of transportation for the Crater Lake company; E. B. Hall, president of the chamber of commerce, and James Milne, resident manager of the White Pelican hotel, steps were taken to change this arrangement and route the party through Klamath Falls. Mr. Lathrop was delegated to present the matter to the tourists and apparently his arguments were entirely successful.

It is hoped that the party may be prevailed to remain for a day in Klamath, resting up for the trip to the lake. Its personnel comprises many influential citizens whose visit will result in the spread of valuable publicity for Klamath.

MANY HEAR TALK ON PINE BEETLE

An intelligent survey of the ravages of the pine beetle bug upon the government forests in this district was described in detail by A. J. Jaenicke of the United States forestry service at the forum of the chamber of commerce this noon.

Forum leader O. D. Burke introduced the speaker of the day and in a few minutes the "bug" was described accurately and its destructive work detailed in this community. The lumbermen of this district present were in large numbers as this subject was one which interested them being in line with their occupation, and from the clear manner of explanation, the ordinary person, as well as the timberman, was at once able to grasp the effect that would take place in the timber in this section unless adequate protective measures were used to check the pest at once.

Blue and Gordon To Fight at Medford

Advices have been received from Bob Dickson of Medford that on August 4, the fight fans of that city will witness a bout between Babe Blue of Oakland and Sammy Gordon of Portland.

The record that the boys made here in the Fourth of July event was heralded all over the Medford region and the fans there were insistent that a bout between them be arranged. Terms were wired both men and accepted, and the bout is scheduled for ten rounds. Babe Blue began training Monday and will leave for Medford sometime this week to become acclimated in that section.

Electrical Store Changes Owners

A deal was fully completed yesterday between L. L. McDaniel and W. D. Coburn, manager for the Come Electric company, for the purchase of the McDaniel Electric company.

Mr. Coburn is an experienced electrical man having been in the electrical business for a number of years.

He states that the present location will be retained for a time, but will

380,000 Pounds of Wool Shipped From Klamath in July

The final shipment of Klamath County wool purchased from the pool offered by the Klamath Livestock Mortgage company on July 1 was sent out from Dorris, Montague and Klamath Falls yesterday, the shipment comprising 180,000 pounds. The entire lot offered by the pool except a small amount was secured by Charles DeLap and George Watt for J. Koshland & company of Boston, the average price paid per pound about 15 1/2 cents.

The first shipment of 200,000 pounds left Klamath Falls July 16 for San Francisco by rail and thence for Boston by way of the Panama canal by boat. This shipment will probably leave San Francisco on August 7, according to Boston advices. It is not stated when the shipment sent yesterday will leave San Francisco for its eastern destination.

JAPANESE ESCORTED FROM CAL. MELON FIELDS

TURLOCK, Calif., July 20.—A general exodus of Japanese field laborers from this district took place, following the deportation to Keyes, five miles north of here last night of 68 Japanese male workers by white men.

ASK VOLUNTEER GAME WARDENS

A petition addressed to the executive committee of the Klamath Sportsmen's association is being circulated by prominent fishermen and hunters of this city seeking volunteers who will serve without pay as special-deputy game wardens for the improvement of game conditions in this county.

The object of the petitioners is to assist in the dissemination of knowledge of the game laws; help in the protection of the game resources, and by education, save many an innocent person from becoming entangled in the meshes of the law for unwittingly violating certain rules.

The petitions are being filled rapidly with names of reliable parties who are interested in this subject and within a few days, the names, after scrutiny to the executive committee of the sportsmen association, will be forwarded to A. E. Burghdoff, state game warden at Portland for commissions.

The Klamath Sportsmen's association has received a copy of the 26th biennial report of the California state fish and game report, issued recently. The report is the gift of Charles A. Vogelsang, executive officer, of San Francisco, who was here on the recent inspection of the Crooked Creek fish hatchery by the Oregon commission.

Ball Player Says Series Was Square After Third Game

CHICAGO, July 20.—Chicago white Sox players, after agreeing with the gambling clique to throw the 1919 series to Cincinnati for \$100,000, became sick of the deal when not paid the bribes promised, and at a meeting before the third game decided to play their best and win the series. Bill Burns, accomplice in the alleged deal and the state's star witness, testified today in the baseball trial.

Feeling they had been crossed by the gamblers, they doubled crossed their bribers by telling them they would lose the third game, but instead won it 3 to 0, with Keer pitching.

Make that idle dollar work! Put it in the bank.

undergo a complete remodeling and when completed he expects to have one of the most up to date electrical stores in Southern Oregon.

Mr. McDaniel and wife left this morning for California, where they will tour and visit for a while before deciding where to locate.

PAY KLAMATH DEBTS FIRST

Let us digress from our propaganda for the home consumption and development of Klamath products long enough to put in a word for the payment of Klamath debts. There has grown up during the past few months a practice that should stop right where it is today. That is the payment of bills owed outside of Klamath county, while the creditors at home have to wait. If this policy were reversed for two weeks, there would be a great change in financial conditions here.

And it should be reversed. It is simply taking advantage of the fact that you know the man at home will not sue you, while you are afraid the outside creditor will.

You feel that you can go to the friend at home with a hard luck story and get time, while you make every sacrifice to rustle the money for the man abroad. You want to keep your outside credit all right, while you trust to friendship to satisfy the man at home.

While you are doing this you are forcing him to stand off the man both here and abroad.

If every man will pay his home bills first, it will be but a matter of a few days before he has the money to pay the bills he owes on the outside. It is just another case of the "vicious circle," with the poor devil at home barely keeping within reach of the tag end without ever catching up.

Let us resolve today to go over the bills payable and place the ones due home people at the top of the list. Write to the outside creditors and tell them they will have to wait a few days longer. Then as fast as you can, pay what you owe here, so that your creditors may do the same thing and thus get a nimble dollar circulating throughout the business district instead of the hard luck, hard time story that you so often hear. Pay your home bills now, even if they are not due.

Every time you pay a bill at home it means the starting of a movement that will not end until that money comes back into your pocket in the payment of long past due accounts from debtors who had to stand you off because the home people that you owed could not pay the debtor that owed you.

Don't forget that this is your town. Don't forget that the people who live here are your friends, your neighbors, your associates. Don't forget that if you get into difficulties that these are the people you turn to for help and consolation. Don't forget that to these you owe your first duty and consideration. Don't forget that every time you do something to help a man at home you are helping yourself, for the success of the community is the aggregate success of all, and that is sure to include you. Therefore, don't forget to pay your home creditors first—today if you can, but first anyway.

Get that money out of your pocket and put it in the bank. If you can't use it, someone else can. Give him a chance.

In sixty days—the time that elapsed between the publication of the financial statements of the local banks—deposits increased nearly a quarter of a million. Let us make the increase for the next sixty days twice that sum. This can easily be done if everyone will do his duty—put that idle dollar in the bank.

ALL READY FOR FLOWER SHOW

Final arrangements for the flower show tomorrow at the chamber of commerce rooms, were made by the committees this afternoon. The ladies in charge of the affair are very pleased with the enthusiasm which has been shown by Klamath Falls people and they are sure there will be a profusion of flowers on exhibit.

Anyone who has not been personally asked to bring their flowers in, whether they have prize winning blossoms or not, is urged by Mrs. G. A. Krause to bring them in.

All entries must be in by 10 o'clock tomorrow afternoon as the show will open at 2:30 instead of in the morning as previously planned. And people were reminded again to bring their own containers.

Mrs. Charles Martin will be in charge of the tea which will be a feature of the afternoon. Music will be furnished in the afternoon by a victrola, which George A. Wirtz has presented to the ladies for the day, and in the evening the local orchestra will furnish the music.

Anybody who wishes their flowers returned to them after the show should speak to the committee in charge, or their exhibits will be taken to the hospitals.

First Lumber Cut In New Dorris Mill

DORRIS, Cal., July 20.—Caminetti & Rinehart, a trucking concern, hauled the first load of lumber from the Samuels & Mahoney mill near Dorris yesterday afternoon. Messrs Samuels and Mahoney recently took over the mill which was formerly known as the Clark mill but was never operated. The new owners have contracted the lumber cut to the Associated Lumber & Box company of Dorris and is being hauled to their local yards. The lumber consists principally of a 2x12 grade of pine.

SPECIAL LEGION MEETING

A special meeting of the Legion will be held Friday night at 8 o'clock in the city hall. Important matters are to be discussed and an urgent call is sent to all members to be present.

CEMENT FAILS TO BAR WATER

The plan to pump out the Siegens oil well Monday was not completed as scheduled due to the cement failing to set properly and when work commenced on the pumping, a break occurred allowing an inflow of water. The drillers set to work cementing the break at once and were engaged this morning patching up.

Blue Shale at Crater
The work at the Crater Lake oil well was reported going nicely today and the drill has entered into a blue shale closely allied with the variety found in Montana operations. A hole has been punched through the shale for 350 feet and it is not known how much deeper this formation will run.

A talk with officials of the company this morning found them enthusiastic over the blue shale formation and its depth, for it evidences to them the fact that no water can come through this capping, neither could oil seep through it, and as it is similar to the Montana formation where oil has been found lying underneath, is considered very encouraging. The drillers are pushing the work as fast as they can.

Farm Loans Are Approved by Bank

Word has been received here by the Klamath Falls National Farm Loan association, that many of the loans have been approved by the national land bank of Spokane, for which the appraiser was here appraising lands two weeks ago. Abstracts of titles are being forwarded to the Spokane bank this week and if they are satisfactory the money will soon be forthcoming.

The land bank is asking that all people who are interested in helping the farmer invest in farm loan non-taxible bonds, at this time instead of putting their money in other channels.

Make that idle dollar work! Put it in the bank.

SHIP CATTLE TRAIN

PENDELTON, July 20.—Ukiah cattlemen intend to ship a trainload of cattle, 33 carloads, from Pilot Rock today to place on the Portland market, according to Dan Clark, livestock agent of the O-W, R & N, company of Portland.

Hundreds Barred by Lack of Room From Roseburg Inquest

ROSEBURG, July 20.—Mrs. R. M. Brumfield was recalled to the stand this morning when the inquest over the headless body found under her husband's automobile was resumed. The courtroom was crowded and hundreds were unable to enter.

District attorney Neuner questioned her closely regarding the dentist's activities during the week prior to his disappearance. She declared he said nothing concerning a trip, or made any intimation he was planning murder.

Dennis Russell's brothers testified they had examined the body and were certain it was their brother. The Busenbark brothers of Melrose, friends of Brumfield's, testified the body was the dentist's.

Coroner Ritter took the stand and stated the hair found on the scalp clinging to the body, which was cut by him as evidence, resembled Brumfield's hair, while the hair on another large piece of scalp found near the wreck was similar to Russell's. He produced two boxes of evidence including burned bib overalls, a watch, fountain pen, letters, card, gun, cooked ear, two pieces of human scalp with gray and black hair and a vest. The watch was Russell's, he testified. Ivan Calhoun testified the body was Brumfield's.

THREE CASES IN JUSTICE COURT

Lillian Bennington was arraigned before Justice Lem Gaghagen yesterday evening at 6 o'clock, charged with passing a bad check upon Chris Blanas of the Arcade hotel last week. In the hearing, the defendant cleared herself of the charge and was released from custody.

A. C. Frisbee, charged with giving a check for \$35 to the Square Deal drug company which was turned down by the bank upon presentation, was scheduled for arraignment this afternoon at 2 o'clock. At 11 o'clock, this forenoon, Frisbee was without legal advice and a continuance was granted until 2 o'clock to enable him to secure an attorney. The check was made good to the drug company earlier in the week.

At 10 o'clock this morning, Edward Roy and Walter Mallory were to be arraigned in the justice court on a charge of "wanton injury to personal property." They were accused by George Duke of Crescent. The plaintiff alleges that the three men dug a hole in the public highway near Crescent on May 27 and when Mr. and Mrs. Duke drove along this highway, they allege that they drove their car over a pile of brush which concealed the hole and all were precipitated into the pit, injuring the machine and straining Mrs. Duke's back. No one of the parties were present at the trial but a telephone message stated that they would be on hand sometime this afternoon. The defendants are out on \$500 bail each.

The last scheduled case on Justice Gaghagen's docket until July 26 is set for tomorrow morning at 10 o'clock when A. W. Finch will be arraigned on a charge of alleged careless driving while on a journey to Kirksford, July 12. The complaint was sworn out at the instance of Stephen Herlihy, who alleges that his wife and children were injured when the machine driven by Finch crashed into a spring wagon containing Mrs. Herlihy and two small children.

Wattenburg, Lorenz Get Chiloquin Job

R. E. Wattenburg, local contractor, was awarded the general contract for building the new school at Chiloquin by the directors of the district last evening. The plumbing and heating contract was awarded to the Lorenz Plumbing company of this city.

The total cost of the building is estimated at approximately \$25,000. The general construction will cost in the neighborhood of \$20,000 and the plumbing contract is between a \$4,000 and \$5,000 job.

FREE MARKET PLAN DEPENDS ON PRODUCERS

The free market proposed by Chris Blanas of the Arcade hotel is to be tried out as quickly as a number of farmers who have produce of any sort to dispose of in this market, which temporarily will be in the basement of the Arcade hotel on Main street, can be induced to bring their stuff there says Mr. Blanas.

Mr. Blanas stated this morning that he was sure of buyers for any sort of fresh vegetables or market produce for the initial trial of the market and all he needs now is the names of farmers who will call or write him at postoffice box 477, Klamath Falls at once telling him on what date they will bring their stock in for disposal. Mr. Blanas would like to start Saturday if it could be arranged, and is now bending every effort to that end.

As an evidence that the market can be tried out, Mr. Blanas states that he has already made arrangements with a set of buyers who will take care of the commodities brought in. The question now is will the farmer supply produce.

Mr. Blanas also states that no reduction in prices in the fresh vegetable line can be had without a trial and while the results of the market will not be felt so much this year, next season the farmer will benefit for this free market will create a demand for the farmers' produce and eventually Klamath county can raise enough green stuff to take care of all its needs, and \$200,000 which is now leaving this county yearly can be kept here for home development.

Mr. Blanas states also that he will try to secure newspaper publicity for this free market on the days when produce will be in and that any farmer who has only a small amount of material to dispose of, even if only enough for one sale, will be welcome to come and use the free market for his purpose.

The buyers will come to the market once that it is started is the firm belief of Mr. Blanas.

The labor organizations favor a trial plan, he says.

Former Shippington Man Dead in Cal.

News was received yesterday of the death in a Redding, California hospital, of William Allen, until recently of Shippington. Mr. Allen sold his Shippington store recently and went to California, hoping to improve his health. Hospital authorities found a First State and Savings bank pass book in his effects after his death and notified the bank here. Mr. Allen was aged about 50 years and unmarried. He is not known to have had relatives here. Fred Garich is investigating and hopes to learn where the dead man's relatives reside on the return of Fred DeChaine, a close friend, now at Hornbrook.

Shanahan Brothers Asks Courts to End Financial Troubles

Ben D. Shanahan and John Shanahan, owners of the Shanahan Bros. ranch at Bly, Klamath county, Monday filed a voluntary petition of bankruptcy in the federal court at Portland. Liabilities of the firm total \$74,672.54 and assets \$81,235.20, according to the petition.

The petition alleges that suit filed by John P. McAuliffe for the foreclosure of a mortgage of \$17,666.80 is causing all other creditors to clamor for payment of claims, and that relief can be obtained only thru bankruptcy procedure. The suit was alleged to have been filed July 9, 1921, in the circuit court of Klamath county. Another mortgage of \$14,000 is held by Spratt Wells, of Ashland Or., the petition alleges.

Of the debts contracted by the firm, \$24,166.89 is in secured claims and \$31,676.61 in unsecured claims. Of the assets, a total of \$50,000 is in real estate and \$23,750 in stock, consisting of 3000 head.
