## PAROLED MEN EARN BIG SUM

**Herald Salem Bureau**  
SALEM, Or., Aug. 1.—Earnings in legitimate endeavor of 183 paroled men from the Oregon penitentiary who were reporting during the month of June aggregate \$6,094.24, according to the report of Percy M. Varney, state parole officer, made to the state parole board. This was an average of \$33.77 to the man. At the same time the average earnings of conditionally pardoned men were \$62.44 to the man.

Since the passage of the state parole law in 1911 a total of 1493 prisoners have been paroled from the state prison, and 410 of them, or 27.46 per cent have violated their paroles. Of this number 52.44 per cent violated by committing crime and 47.56 per cent by failure to report.

**Crimes by Paroled Men**  
According to Mr. Varney the crimes committed by paroled men, which have caused them to be returned to prison or to put them in the fugitive status are usually of minor nature. Really serious crimes that have been committed by these men, he avers, could be counted on the fingers of one hand, and the offense committed by Luther Fagan at Hood River recently in kidnapping two women and a boy, resulting in the killing of Fagan by a posse, Varney says is the most serious crime that has been committed by a paroled man. One or two rather sensational cases of forgery and obtaining money by false pretenses are mentioned. Records showing in detail the escapades of the parole violators are not available at the prison.

Up to six months ago, according to the parole officer, 80 per cent of the men on parole were making good. The percentage has been reduced to some extent in recent months, because of prevalence of misdeeds and crime during the last winter.

## Typographers Meet August 8; Insist on the 44-Hour Week

INDIANAPOLIS, Ind., Aug. 1.—Plans for continuing the fight for the 44-hour week will be the most important subject before the 66th session of the International Typographical union which will be held at Quebec August 8 to 13, according to officers at the international headquarters here. Approximately 8000 members of the union are now out on strike to obtain the 44-hour

week and there is the possibility of further extension of the strike when contracts in New York, Chicago, Indianapolis and Cincinnati expire this fall, the union officials say.

Officials of the international union plan to be in Quebec August 2 for conferences preliminary to the opening of the convention. The committee on laws will also assemble the same day to receive any amendments to the laws or propositions intended for convention action. Only delegates to the convention or a local union may submit such amendments or propositions. Secretary-treasurer J. W. Hays has already received a number of propositions covering a wide variety of subjects.

Secretary Hays estimates that 300 delegates will attend the convention.

## Washington Prison Has Shoe Factory

OLYMPIA, Wash., Aug. 1.—All shoes needed by wards of the state of Washington will in the future be manufactured by prisoners in the state penitentiary at Walla Walla, according to J. W. Pace, assistant director of the state department of business control.

As the penitentiary jute mill has been losing money, it probably will be closed and a shoe manufacturing plant installed. It is expected the prisoners will manufacture 12,000 pairs of shoes annually.

Women prisoners in the state institutions will operate knitting machines and turn out 20,000 pairs of cotton socks a year, according to present plans.

## KING'S WRATH STIRRED

LONDON, Aug. 1.—England appears to be tremendously stirred by the king's denial, through the premier, of statements credited to him by Lord Northcliffe, which the latter also denies. This is the first time in the history that a monarch has ever taken official notice of a newspaper item.

Mrs. Catherine M. Smith, of Bay City, Mich., celebrated her ninetieth birthday by doing the family washing.

## Letters From The People

### APPROVES MOVE OF PELICAN BAY COMPANY

To the Editor of the Herald.  
Dear Sir—The development of the industries of Klamath Falls appeals to everyone who has the welfare of the city at heart. More industries for the utilization of our natural products is what is wanted. The Pelican Bay Lumber company, under the able and far-seeing management of Mr. Mortensen, has taken the lead in the right direction of making "copper pennies" in lumber into "gold dollars" in finished products for which there is always a universal demand in a thousand different articles.

Applying water power and electricity to the manufacture of finished products from the boundless timber available is the surest asset this county and city can boast of, and this is the safest increment on which the city can rely for permanent success and prosperity. Take any directory or catalogue of articles made from wood and there is no limitation. Yours truly,

T. O. HAGUE.

## A BLESSING TO ALL HUMANITY

### PORTLAND WOMAN ENJOYS THE BEST OF HEALTH SINCE TAK- ING TANLAC

"It's no wonder that people everywhere are praising Tanlac, for it certainly is a blessing to suffering humanity," said Mrs. Marie Chalupa, 1188 Hybee avenue, Portland, Ore., recently.

"It was fully five years ago that I began to suffer with rheumatism, and I just dread to think of what I have been through since then. The rheumatism spread all over my body from my shoulders on through my back and down into my legs and ankles. At times I could hardly walk, and then again I couldn't bend over, and all in all I just suffered agony and felt sometimes that I would go distracted from the pain. My appetite left me and I got so weak and run-down I was almost a complete wreck.

"Seeing Tanlac so highly recommended for trouble like mine I began taking it, and the first thing it did was to give me an appetite. And I remember well how happy I felt when the rheumatism began to disappear. It wasn't long then until I felt perfectly well and didn't have an ache or pain. I sleep soundly every night now, have gained in weight, and am enjoying the best of health. I give this statement gladly in the hope that others may profit by my experience."—Adv.

### FIRST CAL. GRAPES SELL WELL IN EAST

SACRAMENTO, Cal., Aug. 1.—Announcement is made by the Earl Fruit company that the first carload of grapes shipped this season to the eastern markets sold for \$3,536 in Chicago. This is considered an exceptionally satisfactory price.

Earlier varieties of table grapes are

now being shipped, and the major portion of the crop in Sacramento and San Joaquin counties will begin moving during next month. Early grape prices indicate a fair year for vineyardists. Late plums are bringing a big price in the eastern markets.

## AN INVESTMENT

I have several blocks of lots surrounding the Mallin high school that I will sell for business and residential purposes, thus offering to the people of Klamath county an opportunity to make a real investment. I will sell these lots for \$75 and up, on the installment plan, the terms to suit the purchaser. No interest will be charged and I will pay the taxes until deed is delivered to buyer.

Mallin is situated in the center of one of the richest districts in the world. It is backed by progressive and conservative citizens. It has a future that assures development to a degree that will make this property worth many times the price I am selling it for. When oil is discovered, Mallin will be found to be in the very heart of the field and the biggest producers will be at its door.

If you are looking for something that will pay you big returns, you can make no mistake in buying Mallin property.
