Macdoel Man Badly Injured in Fall

DORRIS, Cal., Aug. 5.—A. Bornarth, aged 63, is in the Dorris hospital in a critical condition as the result of injuries sustained Wednesday at Macdoel when he fell 20 feet from a ladder while working in a hay barn for the Butte Valley Land company. Besides serious internal injuries and probable spine injuries, Bornarth has a broken collar bone and several smashed ribs.

The accident occurred Wednesday afternoon at 1 o'clock as Mr. Bornarth was climbing a ladder into a hay loft. His foothold slipped as he was hurled 20 feet from the ground causing him to fall first against a projecting girder and thence to the floor.

Local officers have been unable to establish telegraph connection with his brother and sister in St. Paul.

University People on Touring Trip

A group of University of Oregon professors arrived here last night from Crater lake. They were Professor W. F. Goodwin Thacher and Mrs. Thacher, Dean Dr. John Lansbury, Mrs. Anna Lansbury Beck and Rex Underwood. The party has been camping most of the time since leaving Eugene in the hope of gaining experience and material for stories and articles, as well as the pleasure of an ideal vacation. The hard stretch of road from Crater lake here nearly used them up and the party spent the evening at the White Pelican hotel in an attempt to recuperate for their journey today. Mr. and Mrs. Thacher and Mrs. Beck left for California this morning and Dr. Lansbury and Mr. Underwood for Bend.

\$1,000,000 Loss to Canadian Wheat Growers From Hail

REGINA, Aug. 5.—Damage estimated at more than \$1,000,000 was caused by a hail and windstorm affecting an area 75 to a 100 miles east and southeast of here. One district reported a strip of grain 30 miles long and five wide cut as if by a mower. Wires are down and details are meager.

APRICOT CROP BRISKENS DEMAND FOR BOX SHOOK

Two more cutoffs have been started by the Grower's Warehouse and Packing association box factory, formerly the Chelsea, and five saws are now running. The apricot crop in California, which is going into packing houses in dried form instead of into the canneries, is responsible for orders of a few extra carloads of shook, said C. F. Setzer, manager of the factory.

Make that idle dollar work! Put it in the bank.
