

JEWELS WIN THE SUNDAY TANGLE

The game at Modoc Park yesterday afternoon started off with a regularity in the retiring of the players, "one-two-three style" which indicated that the fans were going to see a close score and but few runs made by either team. But that was at the beginning of the game. The Jewels started running men around the bases in bunches from the fifth inning on, and when the tallies were totaled up in the ninth inning 16 runners had crossed the home plate, and won the game from the Plumbobs, who fell three short of having the same score.

Walker, the new pitcher for the Jewels, seemed invincible for the first seven innings of play, and either struck out his man or allowed only a short hit, but from the seventh on, the Plumbobs fathomed his delivery, and in the ninth inning almost staged a "come-back," scoring eight runs before being retired. Cook was not up to usual form yesterday afternoon, and had it not been for the errors of the Plumbobs and the hits by the Jewels at the right time, he would have lost this game.

This game now gives the Jewels the leadership of the league, and Manager Pospisil is determined that his club will continue to hold that place. One of the Jewels' standbys, First-Baseman Bristow, played his last game in the city league, and made a home run, to celebrate the occasion right.

The game lasted two hours and 25 minutes, and was umpired by T. B. Watters and B. Montgomery. Satisfactory service was rendered by these men.

Elks Will Tangle Horns on Diamond; Ashland vs. K. F.

Sunday, August 14, at Modoc park, there will be a baseball clash between the antlered tribe from Ashland and the Klamath herd of Elks which will be a whirlwind contest from inning one to nine.

Dr. Paul Noel will captain the local herd while T. B. Watters will act as manager and major domo of the event. Dr. Noel has been busy since Saturday sizing up his material among the local Elk lodge and feels that he can find Babe Ruths, Alexanders and McGraws in sufficient numbers to offset any Ashland prodigies who appear.

Ashland lodge has long been a rival of the Klamath Falls Elks and to come over here and show has been aching for an opportunity the local tribe up, in fact, their challenges have been so frequent lately that Klamath Elks decided to accept and send them home minus those horns which they have used so frequently on the local bunch regarding a game.

The Klamath bunch are to don their suits in the evenings from Mon-

day on and practice for this great event. A number of the city league players are members of the Elks here and spectators will see one of the greatest lodge games of the year next Sunday, says both Watters and Noel. The local lineup will be prepared for publication early in the week.

Club Standing.

MEDFORD TENNIS PLAYERS GETTING READY FOR MATCH

An elimination tennis tournament was staged here Saturday evening and Sunday morning for the purpose of selecting a Medford tennis team to play Klamath Falls and Ashland on Aug. 10th. A goodly number of Medford tennis fans, many of whom have not played in years, are entered in the opening matches and much rivalry is expected.—Medford Mail Tribune.

TULE LAKE HOMESTEAD ITEMS

Mr. and Mrs. Glick and family left Tuesday for Ashland to visit Mrs. Glick's parents, Mr. and Mrs. Beaver.

Mrs. Maupin returned Wednesday from a week's outing at Clear lake dam.

Douglas Bussey returned from Klamath Falls the first of the week.

Evan Maupin left Tuesday for Steel swamp for an indefinite stay.

Poles for the electric lights are being put up along highway to Malin. Another improvement for the community.

Mrs. Joe Kotera's sister is visiting her from Portland.

Miss Whipple was visiting with Mr. and Mrs. Kirkpatrick, stopping here for a few days visit on her way to Honolulu where she will teach school next year.

CAPACITY OF FISH HATCHERY IS DOUBLED

Saturday afternoon, M. L. Ryckman, state superintendent of hatcheries held a conference with members of the Klamath Sportsmen's association in which he said that sheds and new troughs would be added to the equipment already at the Crooked Creek hatchery.

This means the sportsmen of this county are to receive almost all they asked the commission for and to receive it at once. In fact, work on enlarging the hatchery to double its present capacity is under way now. This year 2,225,000 fish were hatched from the spring run alone, so with the added troughs it will be safe to say that 4,000,000 spring run eggs can be hatched and planted in the waters of Klamath county without counting all of the fall run of eggs that will be hatched at this station and used in this county. Counting 1,000,000 eastern brook eggs that will be shipped in here this fall, and the estimated take of rainbow eggs to be taken in October, more than 4,000,000 eggs will be hatched at the Crooked Creek hatchery this year, and all planted in local waters.

A survey for a ditch to tap an unused spring 1,500 feet from the hatchery was run last week, and work on the ditch will start at once. Besides an attempt will be made to tap the present springs higher up on the mountain side, to increase the water supply. The new troughs will be placed under a roof on the outside of the present building and about two feet lower, allowing the use of water from some big springs that come from the mountain too low for use at present. The troughs are to be placed with the view of shifting them to a new building to be erected at a later date, when the finances of the game fund will warrant the expenditure.

Request for a new egg taking station at the outlet of Diamond lake and the abolishment of the present station was granted, and material has been sent to the lake for the construction of a new station and troughs. Mr. Ryckman and John Ramsdale left for there today to erect the station.

Mr. Ryckman stated that in compliance with the request of the sportsmen, he had arranged for the use of a pile driver to construct permanent racks in Wood river and Seven Mile creek. This should double the egg take of the county, as in the past the racks in these places were more or less make-shift, and often washed out during the season. This gives the local association about all it asked for except an additional game warden, and the commission advises that it has not the money on hand to grant that now. To overcome this handicap several of the local sportsmen have volunteered to act as special wardens, believing that the fish and game are for all the people, and that it is only by protection and prosecution of the game and fish hog this will be accomplished.

Along this line it might be well to mention the fact that the sage hen is fast disappearing in this county, due to the fact that a great many hunters are not observing the bag limit, but when they run into a covey take all they can get in the face of the fact that it will only be a few years when the sport will only be a memory and the younger generation will be deprived of the sport.

Deer season will open September 1st. See what you are shooting at before you pull the trigger, as a great many lives are lost annually through hunters shooting at anything that moves in the brush.

On August 1, Lloyd Tucker was installed as superintendent of the hatchery. Supt. Tucker comes well recommended as he was quite successful in the Hood River district as a trout hatcher. John Ramsdale will be field supervisor and will attend to the egg taking for the hatchery. The fall run of the rainbow spawners will soon begin and with the additional hatching troughs at the Crook-

ed Creek hatchery larger and more successful run of fingerlings will result next spring. Superintendent Tucker has promised that the output of trout next year will be greater than at any time in the past history of the hatchery.

Some men judge by appearances, but detectives judge by disappearances.

Gov't Income Lower, Expenses Are Normal

WASHINGTON, Aug. 8.—A shrinkage in three months of \$300,000,000 in the estimated government income for the fiscal year was disclosed in Secretary Mellon's report to the house, while the government's expenditures decreased only \$11,864,000.

Make Summer Cooking Easier with Carnation Milk Desserts

A frozen dainty — Cafe Mousse

Mix well together 2 cups of Carnation Milk, 3 tablespoonfuls of powdered sugar, 1 tablespoonful of vanilla, and 1/2 of a cup of very strong coffee; chill thoroughly, then whip. Set the bowl in a pan of ice water while whipping; take off the froth as it rises. Turn the drained whip carefully into a mould, cover tightly, binding the edges with a strip of muslin dipped in melted butter, bury in ice and salt for freezing. Let stand for 3 hours, wipe off mould, and turn on serving dish.

"Cook with Carnation" and your food will be famous for flavor and richness. The convenience and economy of this pure cows' milk make it the ideal milk for every cooking purpose. In any recipe calling for 1 cup milk, use only 1/2 cup Carnation to 1/2 cup water.

Send for Carnation Cook Book containing 100 practical tested recipes. Carnation Milk Products Co., 622 Railway Exchange Bldg., Portland.

All Grocers Sell Carnation Milk "from Contented Cows"

I have just received a carload of fine monuments and markers, all new designs. Stop and look them over.

Firestone

30x3 1/2 STANDARD NON-SKID

The Fastest Selling Tire In America

The increasing popular demand for the Firestone Standard 30x3 1/2 inch tire over a period of years has given us big volume. Our Plant No. 2 devoted wholly to this size tire with a capacity of 16,000 tires and 20,000 tubes per day cuts costs on every operation. On May 2, we dropped our price to \$13.95 passing on to the car owner the full benefits of this big sales volume and this labor-saving plant. This tire has been our standard for years—four plies long staple fabric—extra gum between plies—heavy non-skid tread. The greatest value ever offered car owners. Insist on Firestone.

Our Cord Tire Values

Firestone Cord tires are made exclusively in Plant No. 1. Our process of double gum-dipping each ply of cord gives thicker insulation. The massive non-skid tread, with extra thickness where wear is most severe, gives real effectiveness in holding the car against slipping and adds many extra miles of service.

Firestone Cord tires are sold at the lowest prices in cord tire history: 30x3 1/2, \$24.50; 32x4, \$46.30; 34x1 1/2, \$34.90.
