**WHAT THE GOVERNMENT IS DOING FOR YOU**

We are all proud of our country.

Yet most of us know comparatively little of the activities of our government and what they mean to us. That is why we have secured the exclusive right to distribute locally a series of attractively illustrated folders and booklets containing most interesting accounts of the work of our various governmental departments.

Send us your name and address and we will gladly send you one of these articles each month with our compliments. There is no obligation entailed.

**SOME FACTS ABOUT OUR GOVERNMENT LOCAL FINANCIAL INSTITUTION TO DISTRIBUTE INTERESTING INFORMATION**

Not for years has there been such evident unrest as exists in the world today. Even the casual reader of the daily newspaper sees that the world is sick and needs a doctor. The way to social health is through an awakened interest in the affairs of our government and an increased feeling of our responsibility in its welfare and administration. Not until we understand the magnitude and efficiency of the United States government do we feel the respect for it and the pride in participating in it that it deserves.

At the present moment, in spite of all our unrest, the United States is the most favored of the world's nations. We have enjoyed a century and a half of the "government of the people, for the people, by the people." It is not perfect, but it is the strongest (most substantial and most efficient government in the world today.

The First National bank is contemplating the free distribution among its friends and patrons of a series of highly illustrated articles on the government of the United States. The articles, although written in popular form, will be of real educational value. They are to be mailed directly to the homes of this community without charge. This plan is in keeping with the new idea that every progressive financial institution owes a broader service to its community. The modern bank is no longer only a place where money is deposited at one window and drawn at another. It is rather a center of constructive and helpful information to which any one may bring his financial problems with some confidence of finding a solution for them.

These stories are designed to show the benefits that each of us derives from the service of the government. They have been brought

up to the minute, and however well informed the reader may be, he is sure to find something new in them. They have a particular appeal to new citizens, foreigners and school children, as well as furnishing interesting and instructive reading to practically everyone. The community is sure to benefit from this distribution and every home should have a complete set.

Never before have Americans taken such an intense interest in their government. The extension of income taxes and the widespread purchase of liberty bonds have made us all financial partners in its welfare. We all want to know more about it, and we have a right to know. That is why the publication of this material comes at precisely the right moment and why it may be expected to be so welcome. This public interest in governmental affairs is a healthy and natural interest. It will lead to increased knowledge, a more intelligent understanding and a long, strong stride ahead. This community is to be congratulated on the foresight and enterprise that brings this material within the reach of everyone.

It is the desire of this institution to make this distribution as wide as possible. Some, however, are sure to be overlooked, and as the supply of articles is necessarily limited, it is suggested that everyone who wishes to receive them call at the bank and leave their names for inclusion in the mailing list.

It has been anticipated that many will wish to keep each number of the series of governmental articles as received, as each will deal with a different department of the government. For this purpose there is available a limited number of beautiful containers, one of which can be obtained by any person desiring it by calling during business hours for it.
